Dear Mr. Kulp:

In September 1954 I made an application to dig a well 55 feet deep with a four inch discharge pipe. The well was completed in 1954 and I have used the water from the well to water horses, cattle and sheep, also to water corn and Beets and Alfalfa in the 1955. I have also used the water from the well for house hold use.

I would like to complete the final papers now. This should have been done in 1955.

Dear Mr. Evans:

We have your letter of January 5, 1956, stating that you are prepared to make proofs of Completion of Works and Beneficial Use on your Permit No. G-25188.

Before these proofs are made, the statutes require publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the notary public before whom the proofs are to be made.

The proofs may be made at any place convenient for you and your two witnesses but the date must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the forms of deposition to be executed by yourself and two disinterested witnesses in making these proofs.

Dear Mr. Evans:

We wish to call your attention to our letter of January 10, 1956, in which we stated that before proofs are made, the statutes require publication of a notice once a week for four weeks in a county newspaper. Forms for notice of publication were enclosed and up to date these forms have not been received in this office.

Since completion of work and beneficial use proof is not due until October 4, 1956, we thought possibly you were going to take more time in making proof on the above captioned Permit.

Will you please favor us with an answer to this letter and let us know what you are going to do about making the proofs on Permit No. G-25188.
