RE: Application for Permit

Mr. Nephi W. Ipsen
Rt 1
Malaga, Idaho

Dear Mr. Ipsen:

Your application to appropriate 3 second feet of subterranean water was received without fee. The filing fee is \$5.50 which must be paid before the application will be given a priority.

I am unable to understand from your map just exactly what land is intended to be irrigated. You have shown the location of the well in the SW 1/4 of Section 14, Township 14 South, Range 35 East which agrees with the application, but the rest of the map is confusing. Each little square on the map is 40 acres. Will you please locate on the map the 40-acre legal subdivisions you plan to irrigate from the well and also insert them in the appropriate column under question 12.

Your application is returned for clarification of what lands you plan to irrigate from this well, and for payment of the fee.

Very truly yours,

Mr. Nephil R. Ipsen,
Rt. #1,
Malad, Idaho.

Dear Mr. Ipsen:

We enclose Permit No. G-29665 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-5886 which was issued covering payment in the amount of \$5.50 for the filing fee of the above mentioned permit.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

Malad, Idaho

Dear Mr. Ipsen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-29665 are due not later than April. 28, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Re: Permit No. G 29665

Dear Mr. Tappen:

I am enclosing Notice of Proof of Completion of Works in connection with the above identified permit.

Nephi R. Ipsen died some time ago and his estate was probated and his property distributed to his wife, Ada Ipsen as survivor of the community. Mrs. Ipsen sold the real estate including the permit to her son Foster Ipsen who is now the owner and holder of the above permit. I don't know whether a formal assignment was made for this permit to Foster by Mrs. Ipsen. At any rate, I feel that we can go ahead and make Proof of Completion of Works and Application of Water to Beneficial Use on behalf of Foster Ipsen and if there is anything further that needs to be done by way of assignment, we can accomplish this during the period of publication.

Please advise as to anything necessary in connection with this permit.

Very truly,

Dear Mr. Scott:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29665, in the name of Foster Iyzen. Final Proof is to be made before you, as Notary on the 14th day of April, 19 66, at xxxxx o'clock xxxxx, at 26 Court St., Malad City, Idaho.

As of this date, we have mailed the Notice to the Idaho Enterprise, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

I object to having to go through the procedure outlined in your letter on the reverse side hereof. In the first instance, the Governor of the State of Idaho has given me a commission as a Notary Public. Now if you people are not willing to accept my statement over my hand and seal relative to the matters discussed on the reverse side hereof, then I think your office is in need of an overhauling. Having a Notary Public go out and have another Notary Public notarize his statement appears to me to be absurd.

We do not feel, however, that our office is in need of an overhaul, but we do agree the water laws could use some updating. This, of course, is being taken care of and may get into this session of the legislature.

Dear Mr. Ipsen:

We acknowledge receipt of the deposition of two witnesses, also affidavit of publication in the all submitted in proof of completion of works and beneficial use on Permit No. G-29665.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,
