Caldwell, Idaho

Dear Mr. Moon:

Returned herewith is your application for permit, with attached check for \$5.00. Also enclosed is Form No. 3, application with instructions.

The application is on a form used to apply for permit to appropriate surface water, and under 3, Source of Water Supply, "Cherry Creek". The name shows a well. Under 15 you show 1/8 of the water of Cherry Creek is appurtenant to the land described, so evidently you wish to file an supplemental subterranean water.

Provided you wish to apply for a permit to divert subterranean water, complete the blank form enclosed. The fee for 98 miners' inches or 1.96 cubic feet per second is \$5.75.

Very truly yours,

Re: Permit No. G - 30026

June 1, 1966

Cordell Williams & Verlan Moon
Malad City, Idaho

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30026 are due not later than Aug. 7, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Dear Mr. Brown:

Returned herewith to your notice of publication
Forms 36 and 11 for the above referenced permit.

We find that you have recorded on Form 36 which
not agree with the current land list of Permit 3-10025.
Permit 3-10025 now lists the lands to be irrigated as
Twp. 19 N., Rge. 16 E.S. 15.
Therefore, if the permit is in error, please complete
the enclosed land list amendment and application and
submit it with the required \$1.00 fee. Also, resubmit

Malad City, Idaho

Gentlemen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ~~Public Notice~~ all submitted in proof of completion of works and beneficial use of Permit No. ~~G-30026~~.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Maughan:

Receipt has been acknowledged for the proof on the above permit. A license will be issued as soon as the field examination has been completed. Our office has around 700 exams each year and sometimes it takes awhile to get our inspections made in a particular area.

This inspection should be completed this Fall and the license issued. If not this Fall next Spring for sure.

Gentlemen:

Verlin W. Moon, one of the holders of the above permit, is making an application for an FHA Loan. The FHA people are desirous of taking a mortgage of his interest in the Permit or License.

Mr. Moon states that he has proved up on the well but that the License was never issued.

If the License has been issued, please send me a certified copy of the same along with your bill for costs.

This is in reply to your letter of October 9, regarding the license for the above numbered permit. Our field man was not in the area but was unable to examine the permit during his stay. It is still pending, and may not be examined until next summer unless one of our staff happens to be down there this fall. Upon completion of the exam a license will be issued. Mr. Moon has nothing more to do.

Dear Mr. Scott:

The proof of beneficial use has been received from Mr. Moon in connection with this permit, however, the Department of Reclamation has yet to complete a field examination which must be made during an irrigation season and while the irrigation system is turned on. Due to an excessive backlog of field examinations, the Department will complete the examination as soon as possible. However, it cannot be determined exactly when this examination will occur. We anticipate conducting the exam during the 1969 season, but we cannot confirm this.

We are enclosing copies of our October 14, 1968, and April 16, 1969, letters which we have previously issued on this subject. If a particular loan requirement exists on this permit, we can try to complete the examination prior to others and we would appreciate as much notice as possible.

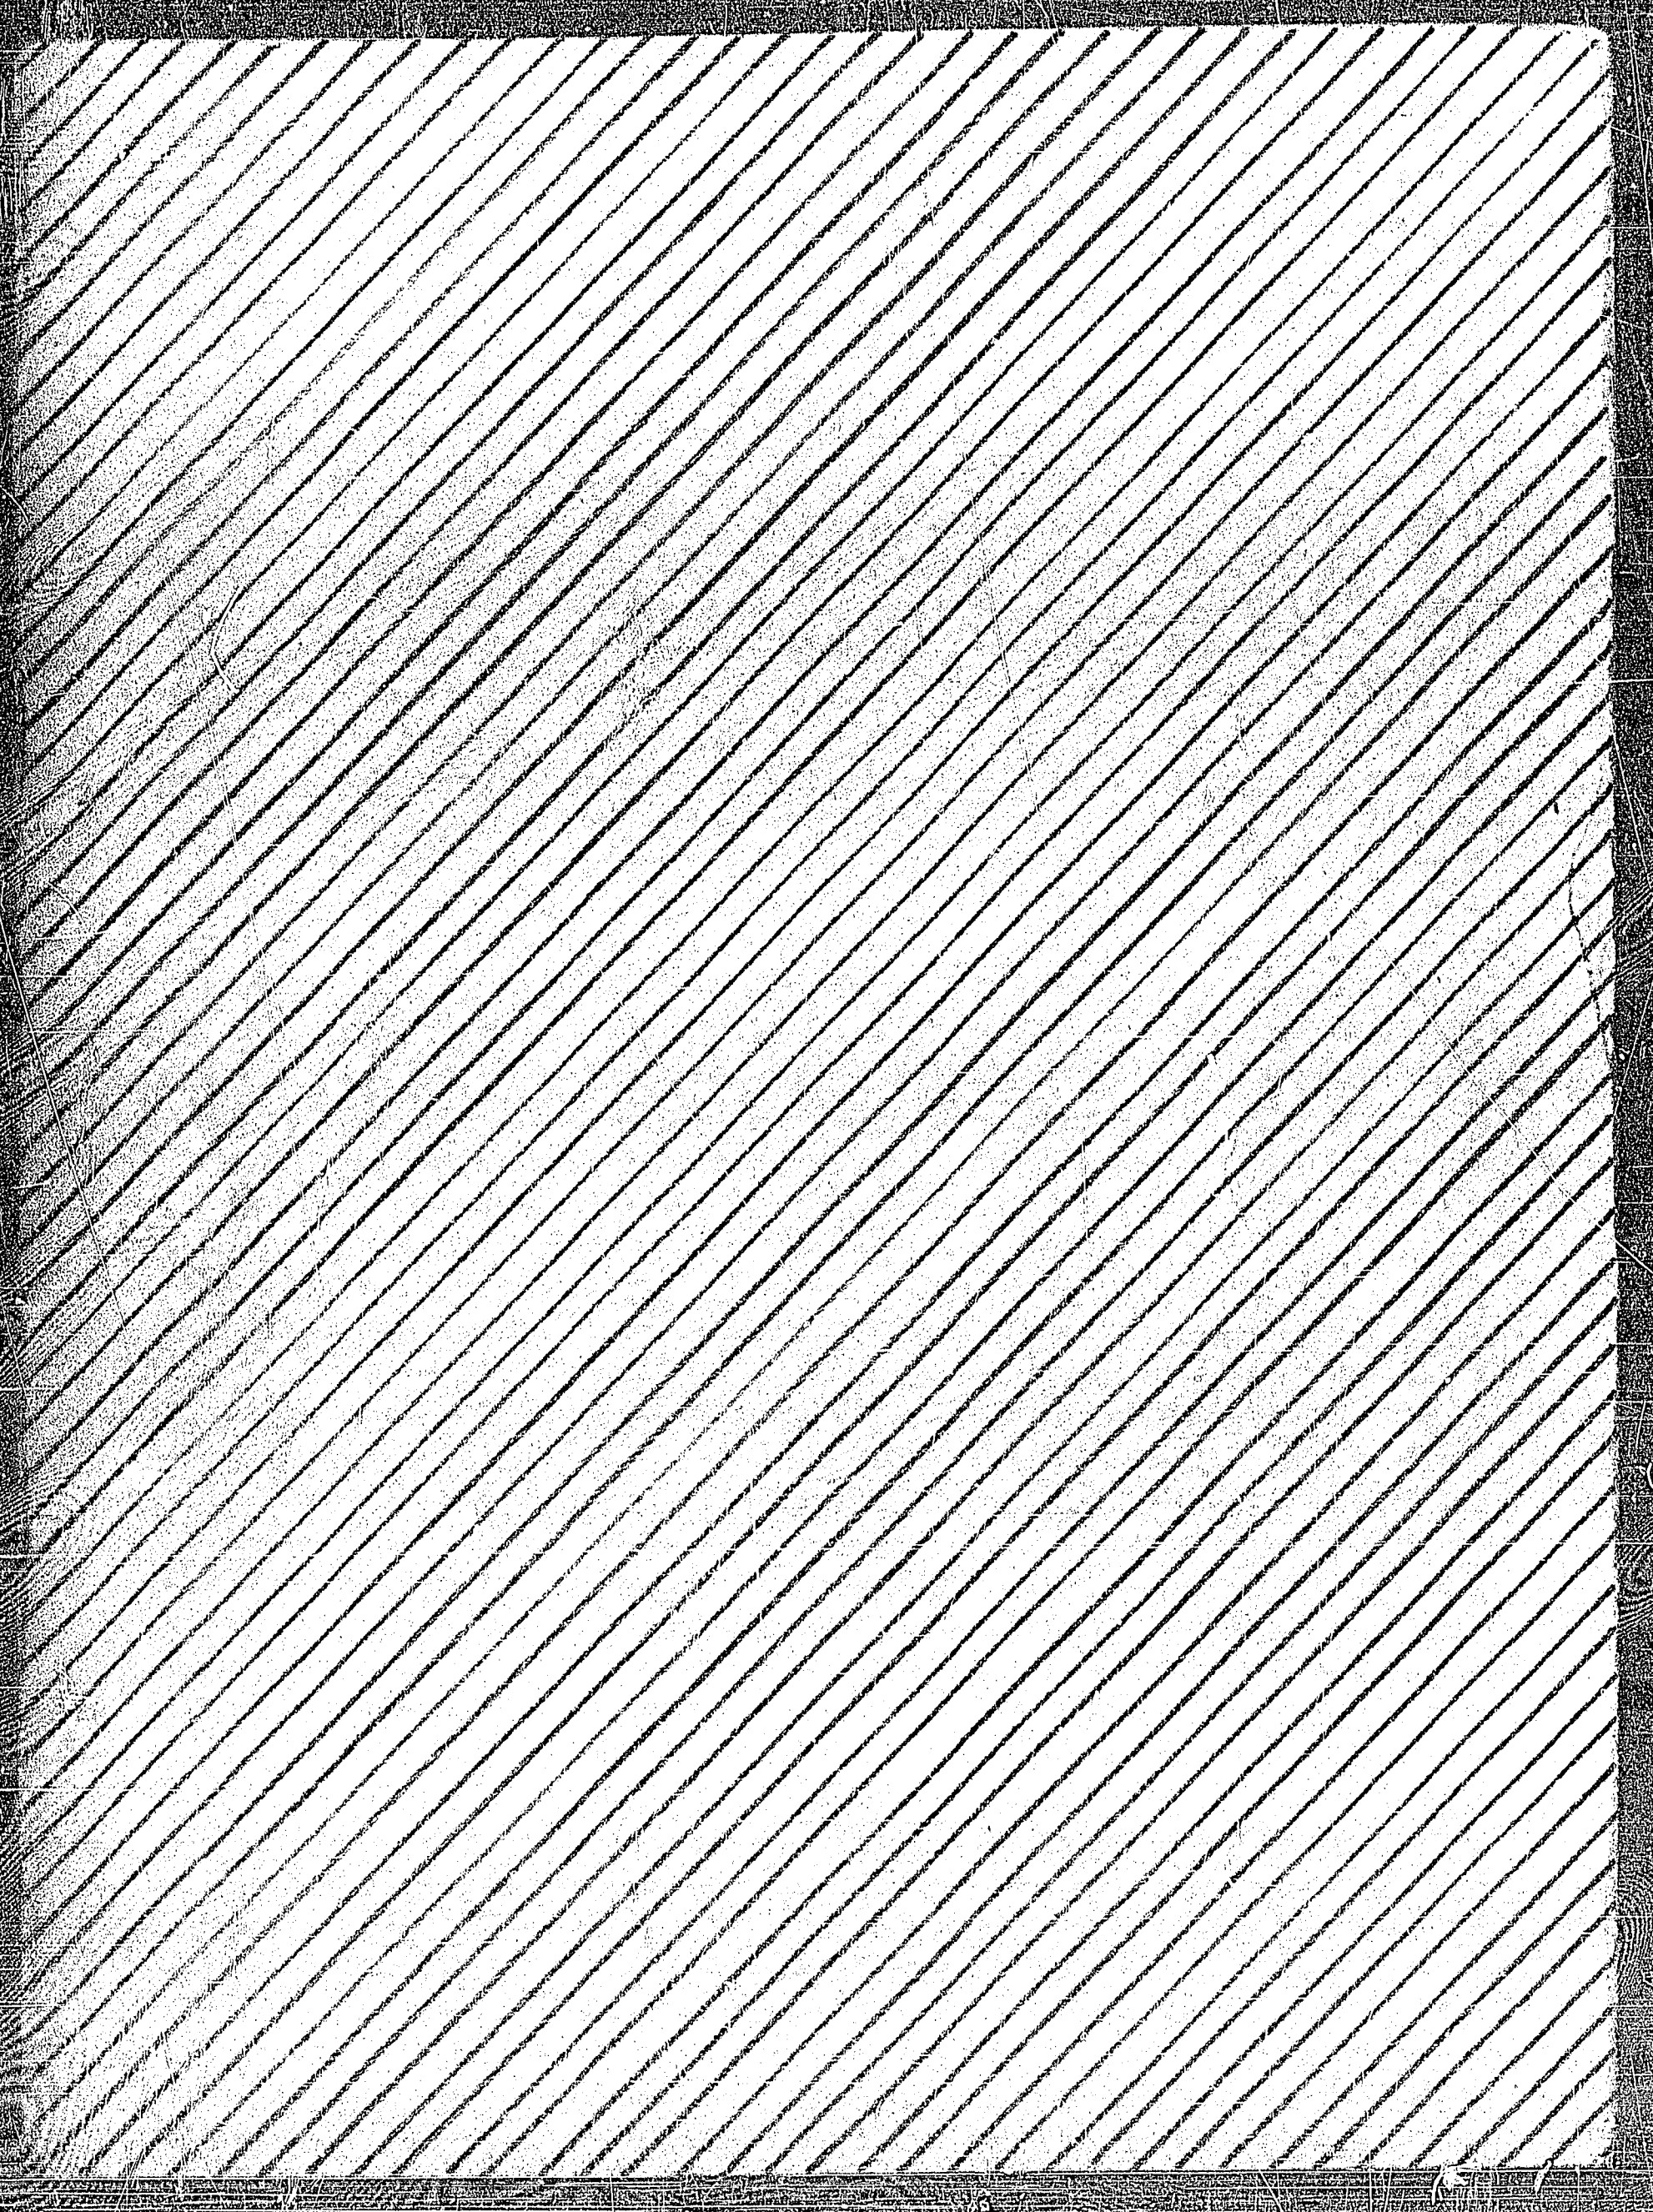

If we can be of further assistance, please contact us.

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 30026/15-2060 and has found the following:

Quantity of water diverted: 1.07 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.07 cfs

The maximum quantity of water diverted shall not exceed 392 acre feet per year.

Beneficial use: Irrigation of 98 acres within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ (36), NW $\frac{1}{4}$ NE $\frac{1}{4}$ (38), Sec. 27; NW $\frac{1}{4}$ NW $\frac{1}{4}$ (24), Sec. 26; Twp. 15 S, Rge. 36 E, B. M.

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 27, Twp. 15 S, Rge. 36 E, B. M.

The priority date established is: August 25, 1961

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the land found being irrigated by the field examiner. By doing so, we can allow a right for the irrigation of the full 98 acres. We are enclosing a partially completed application for amendment for your use in this matter. There is a \$10.00 filing fee for amendment applications and also there is a \$11.00 licensing fee due; therefore, a fee totaling \$21.00 must be received within 30 days from the date of this letter in order for your Water License to be issued as set forth in this letter.

You should also be aware that any ground water development after March 25, 1963, must be by means of a valid permit. Our records fail to indicate that you have a right to irrigate the balance of the 205 acres our field examiner found that you are irrigating from this well. Please review this matter and if you do not have another permit, please file an application for permit before the next irrigation season. We have partially completed an application form for your consideration.

Water Right No. 15-2060

Gentlemen:

In September of 1987, the Corporation of the Presiding Bishop of The Church of Jesus Christ of Latter-day Saints purchased the above referenced property from Cordell Lewis Williams and Ann Williams. This same property has an interest in water right no. 15-2060 under a Joint Use Agreement entered into between Cordell L. and Maisie Williams and Cordell and Ann Williams. The Church has acquired the interest of Cordell and Ann Williams as a successor in chain of title.

Enclosed for your review and information, please find the following:

1. Copy of recorded Joint Use Agreement between Cordell L. Williams and Maisie H. Williams and Cordell Lewis Williams and Ann Williams.
2. Copy of recorded warranty deed from Cordell L. Williams and Maisie H. Williams to Cordell Lewis Williams and Ann Williams.
3. Copy of recorded warranty deed from Cordell Lewis Williams and Ann Williams to Corporation of the Presiding Bishop of The Church of Jesus Christ of Latter-day Saints.

If you find the above documentation in order, I would appreciate it if you would place the above mentioned deeds in your file and/or update your records in this matter.

RE: Water Right No. 15-2060

Bruce Findlay, Counsel

Salt Lake City, UT 84111

Dear Mr. Findlay:

We are in receipt of the correspondence concerning the above referenced water right.

The recorded ownership of the right will not be changed in the Department's computer records, since the water right involved is a licensed right. A licensed water right is considered real property and is acquired when the property to which it is appurtenant is purchased. Proof of owning the land is proof of owning the water right license, if the previous land owner did not exclude the water right from the sale.

I have placed a copy of the correspondence in the water right file for future reference only and no other action will be taken.

If you have any questions, please let us know.

Sincerely,

JIM JOHNSON
Water Rights Supervisor
