Gentlemen:

We acknowledge receipt of the depositions and affidavit of publication in the  
Idaho Enterprise submitted as proof of com-  
pletion of works and beneficial use on Permit G-31605.

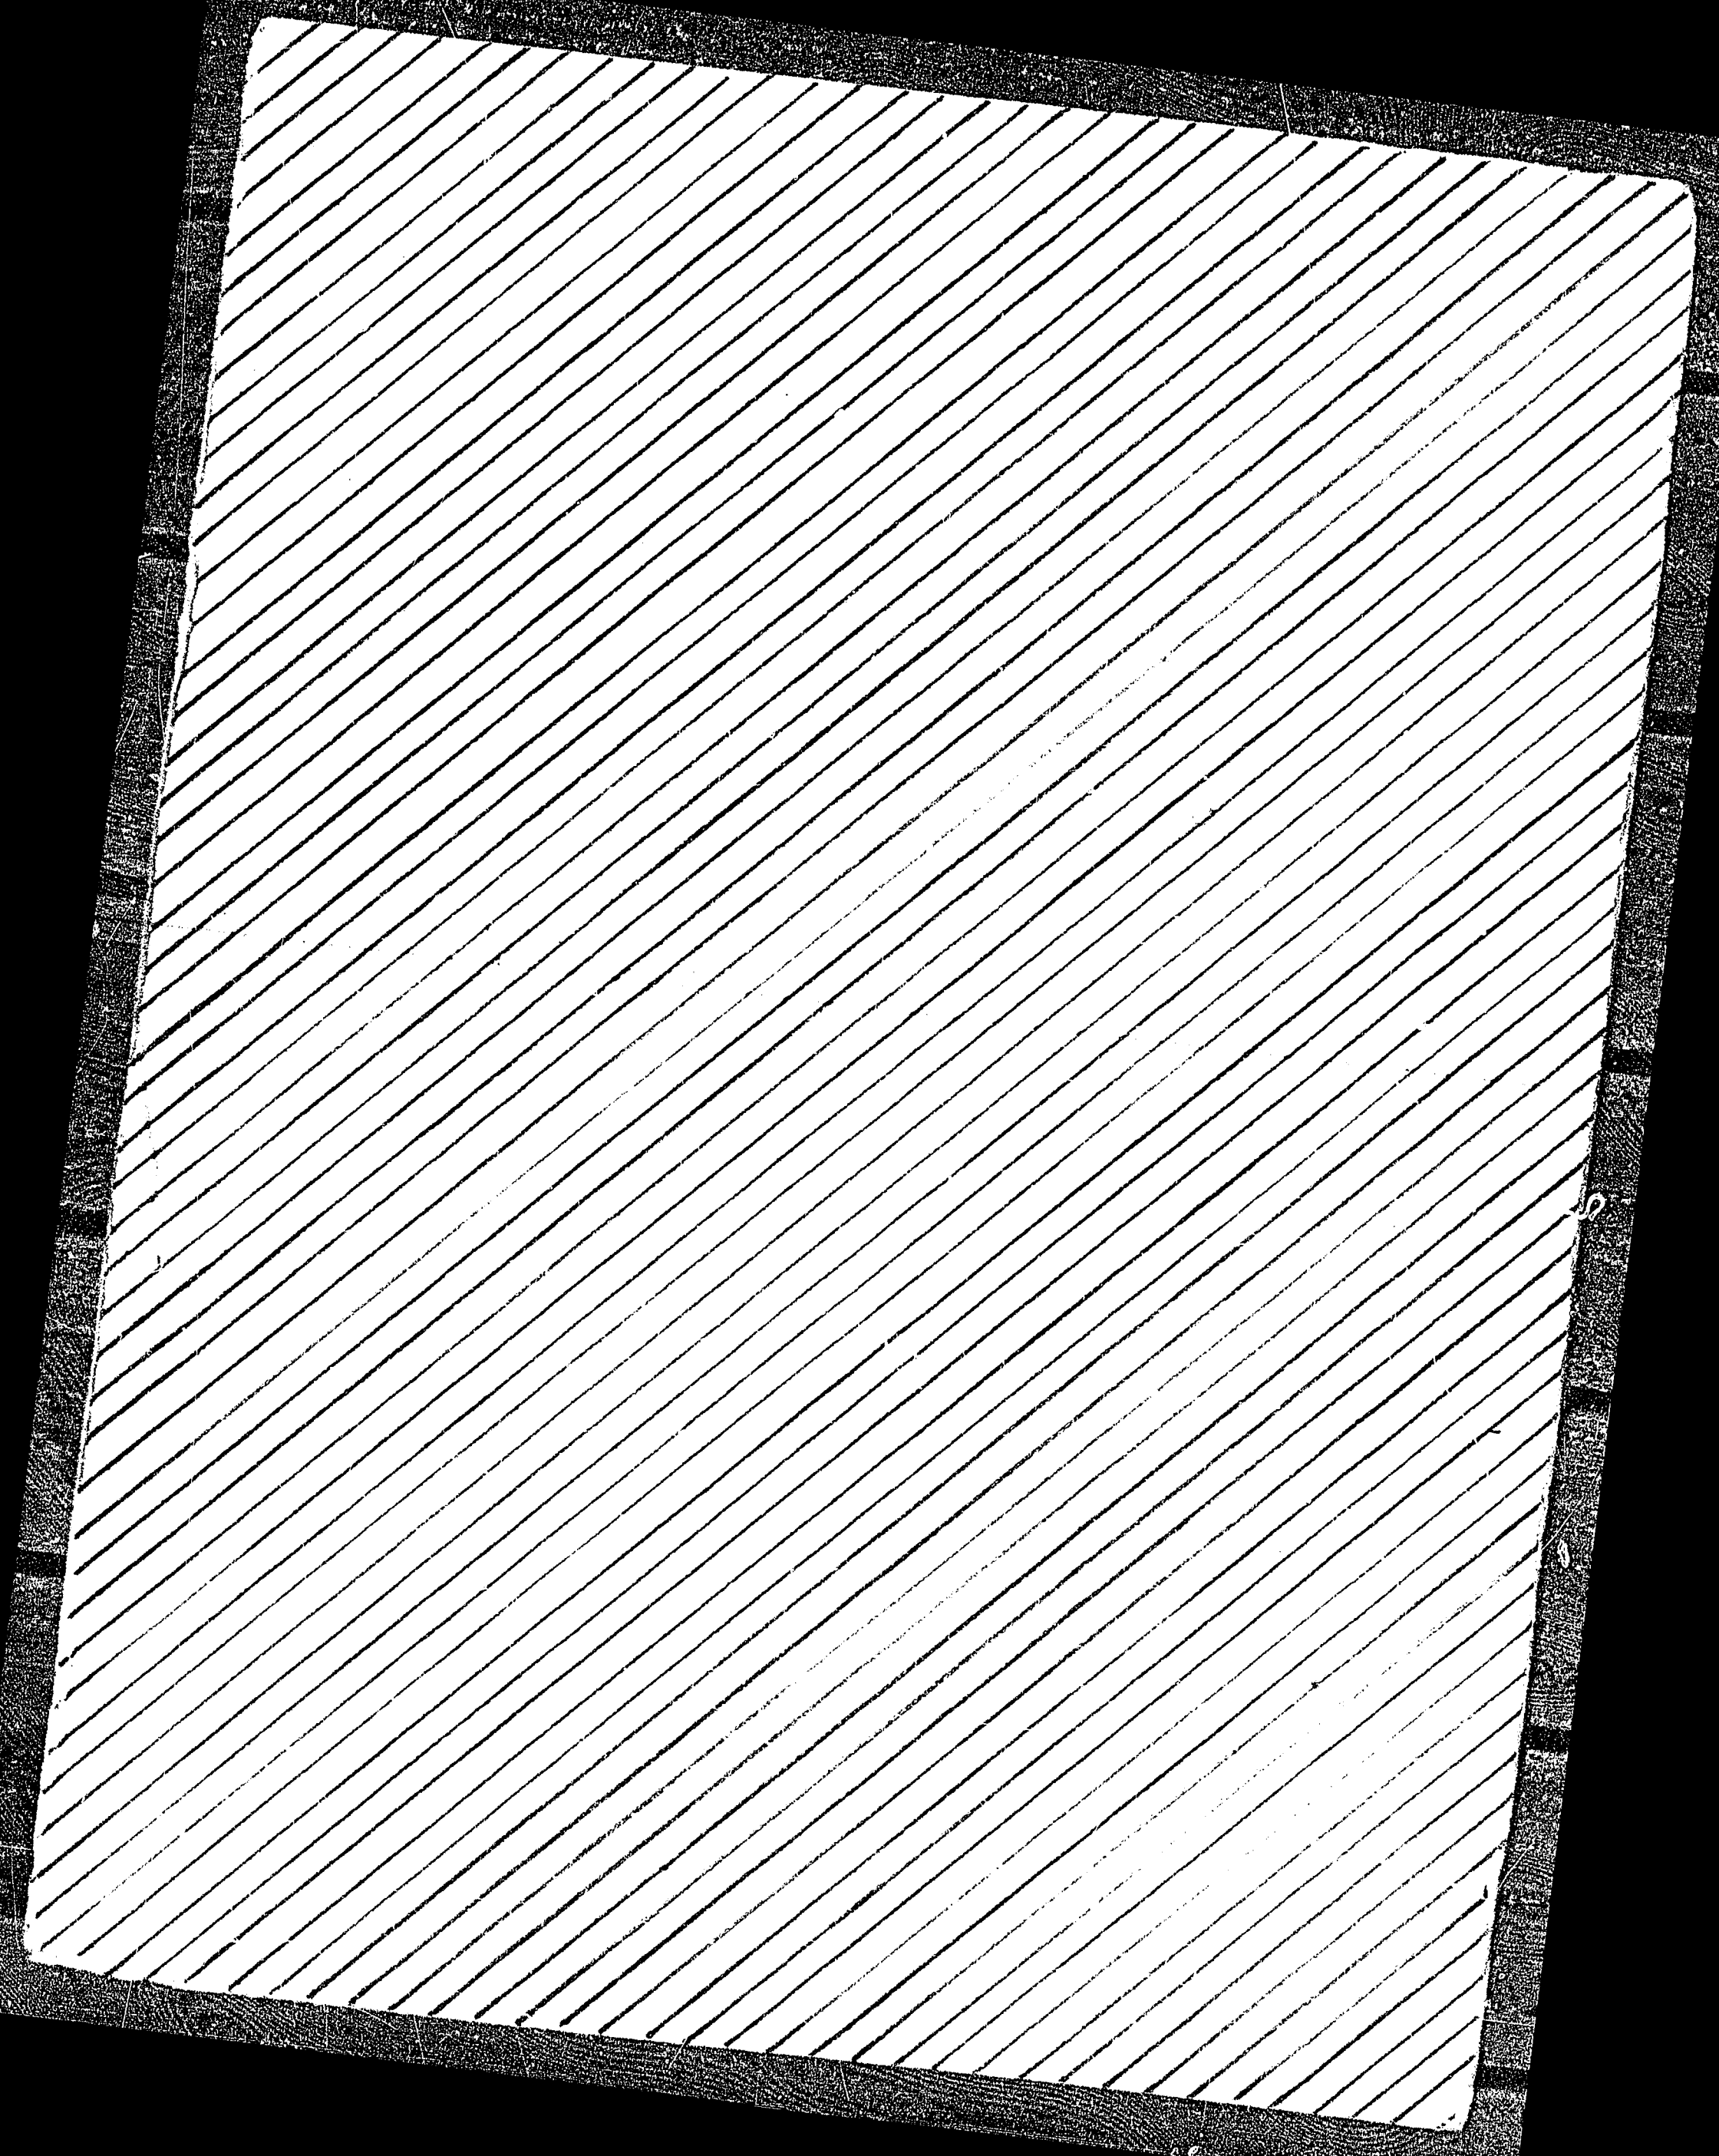

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Very truly yours,

Preston, Idaho 83263

Dear Mr. Garner:

Our records indicate that the above numbered permit has not been licensed as yet. It still requires a field examination. The permit is in good standing, however, and carried a priority of December 18, 1963. The permit is for 3.0 c.f.s. but since no examination has been made we have no definite amount of water. This inspection should be completed some time during this irrigation season.

The water on this permit is to be used on the W<sup>1</sup>/<sub>2</sub>NE, NW<sup>1</sup>/<sub>4</sub>, SW<sup>1</sup>/<sub>4</sub>, Section 3, Township 15 South, Range 35 East, B.M.
