Re: Permit No. G-31918

Ieland A. Jones,
Route 1, Box 88
Malad, Idaho

Dear Mr. Jones:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Dear Mr. Jones:

One of the conditions of the approval of your permit
G-31918 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
June 5, 1969.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

Mr. Leland A. Jones
Route 1 - Box 88
Malad, Idaho 83252

Dear Mr. Jones:

A representative of this Department has made an examination of the works covered by your Permit No. 31918/15-2065 and has found the following:

Quantity of water diverted: 0.26 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.26 cfs

The maximum quantity of water diverted shall not exceed 110.4 acre feet per year.

Beneficial use: Irrigation of 40 acres within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 28, Twp. 15 S, Rge. 36 E, B. M.

Point of diversion: NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 28

The priority date established is: May 29, 1964

Your permit lists the place of use as being within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 28, whereas our field examiner found the place of use within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 28. Therefore, it will be necessary for you to amend your permit before a license can be issued. We are enclosing a partially completed application for amendment for your use in this matter. Please sign the amendment application and return it to this office with a \$10.00 filing fee. If you do not concur with these findings, please advise us within 15 days of the date of this letter.

You should also be aware that any ground water development after March 25, 1963, must be by means of a valid permit. Our records fail to indicate that you have a right to irrigate the 10 acres our field examiner found that you are irrigating in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 28. Please review the matter and if you do not have another permit, please file the enclosed application for permit before the next irrigation season.

Sincerely,

BOBBY D. FLEENOR
