Dear Mr. Vaughn:

We are in receipt of the affidavit of beneficial use submitted in connection with the above referenced permit. We have reviewed the affidavit and are returning it to you.

Please be advised that the affidavit is unacceptable until item 4b is filled out. The permit lists the point of diversion as in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27, T. 15 S, R. 36 E, B. M.

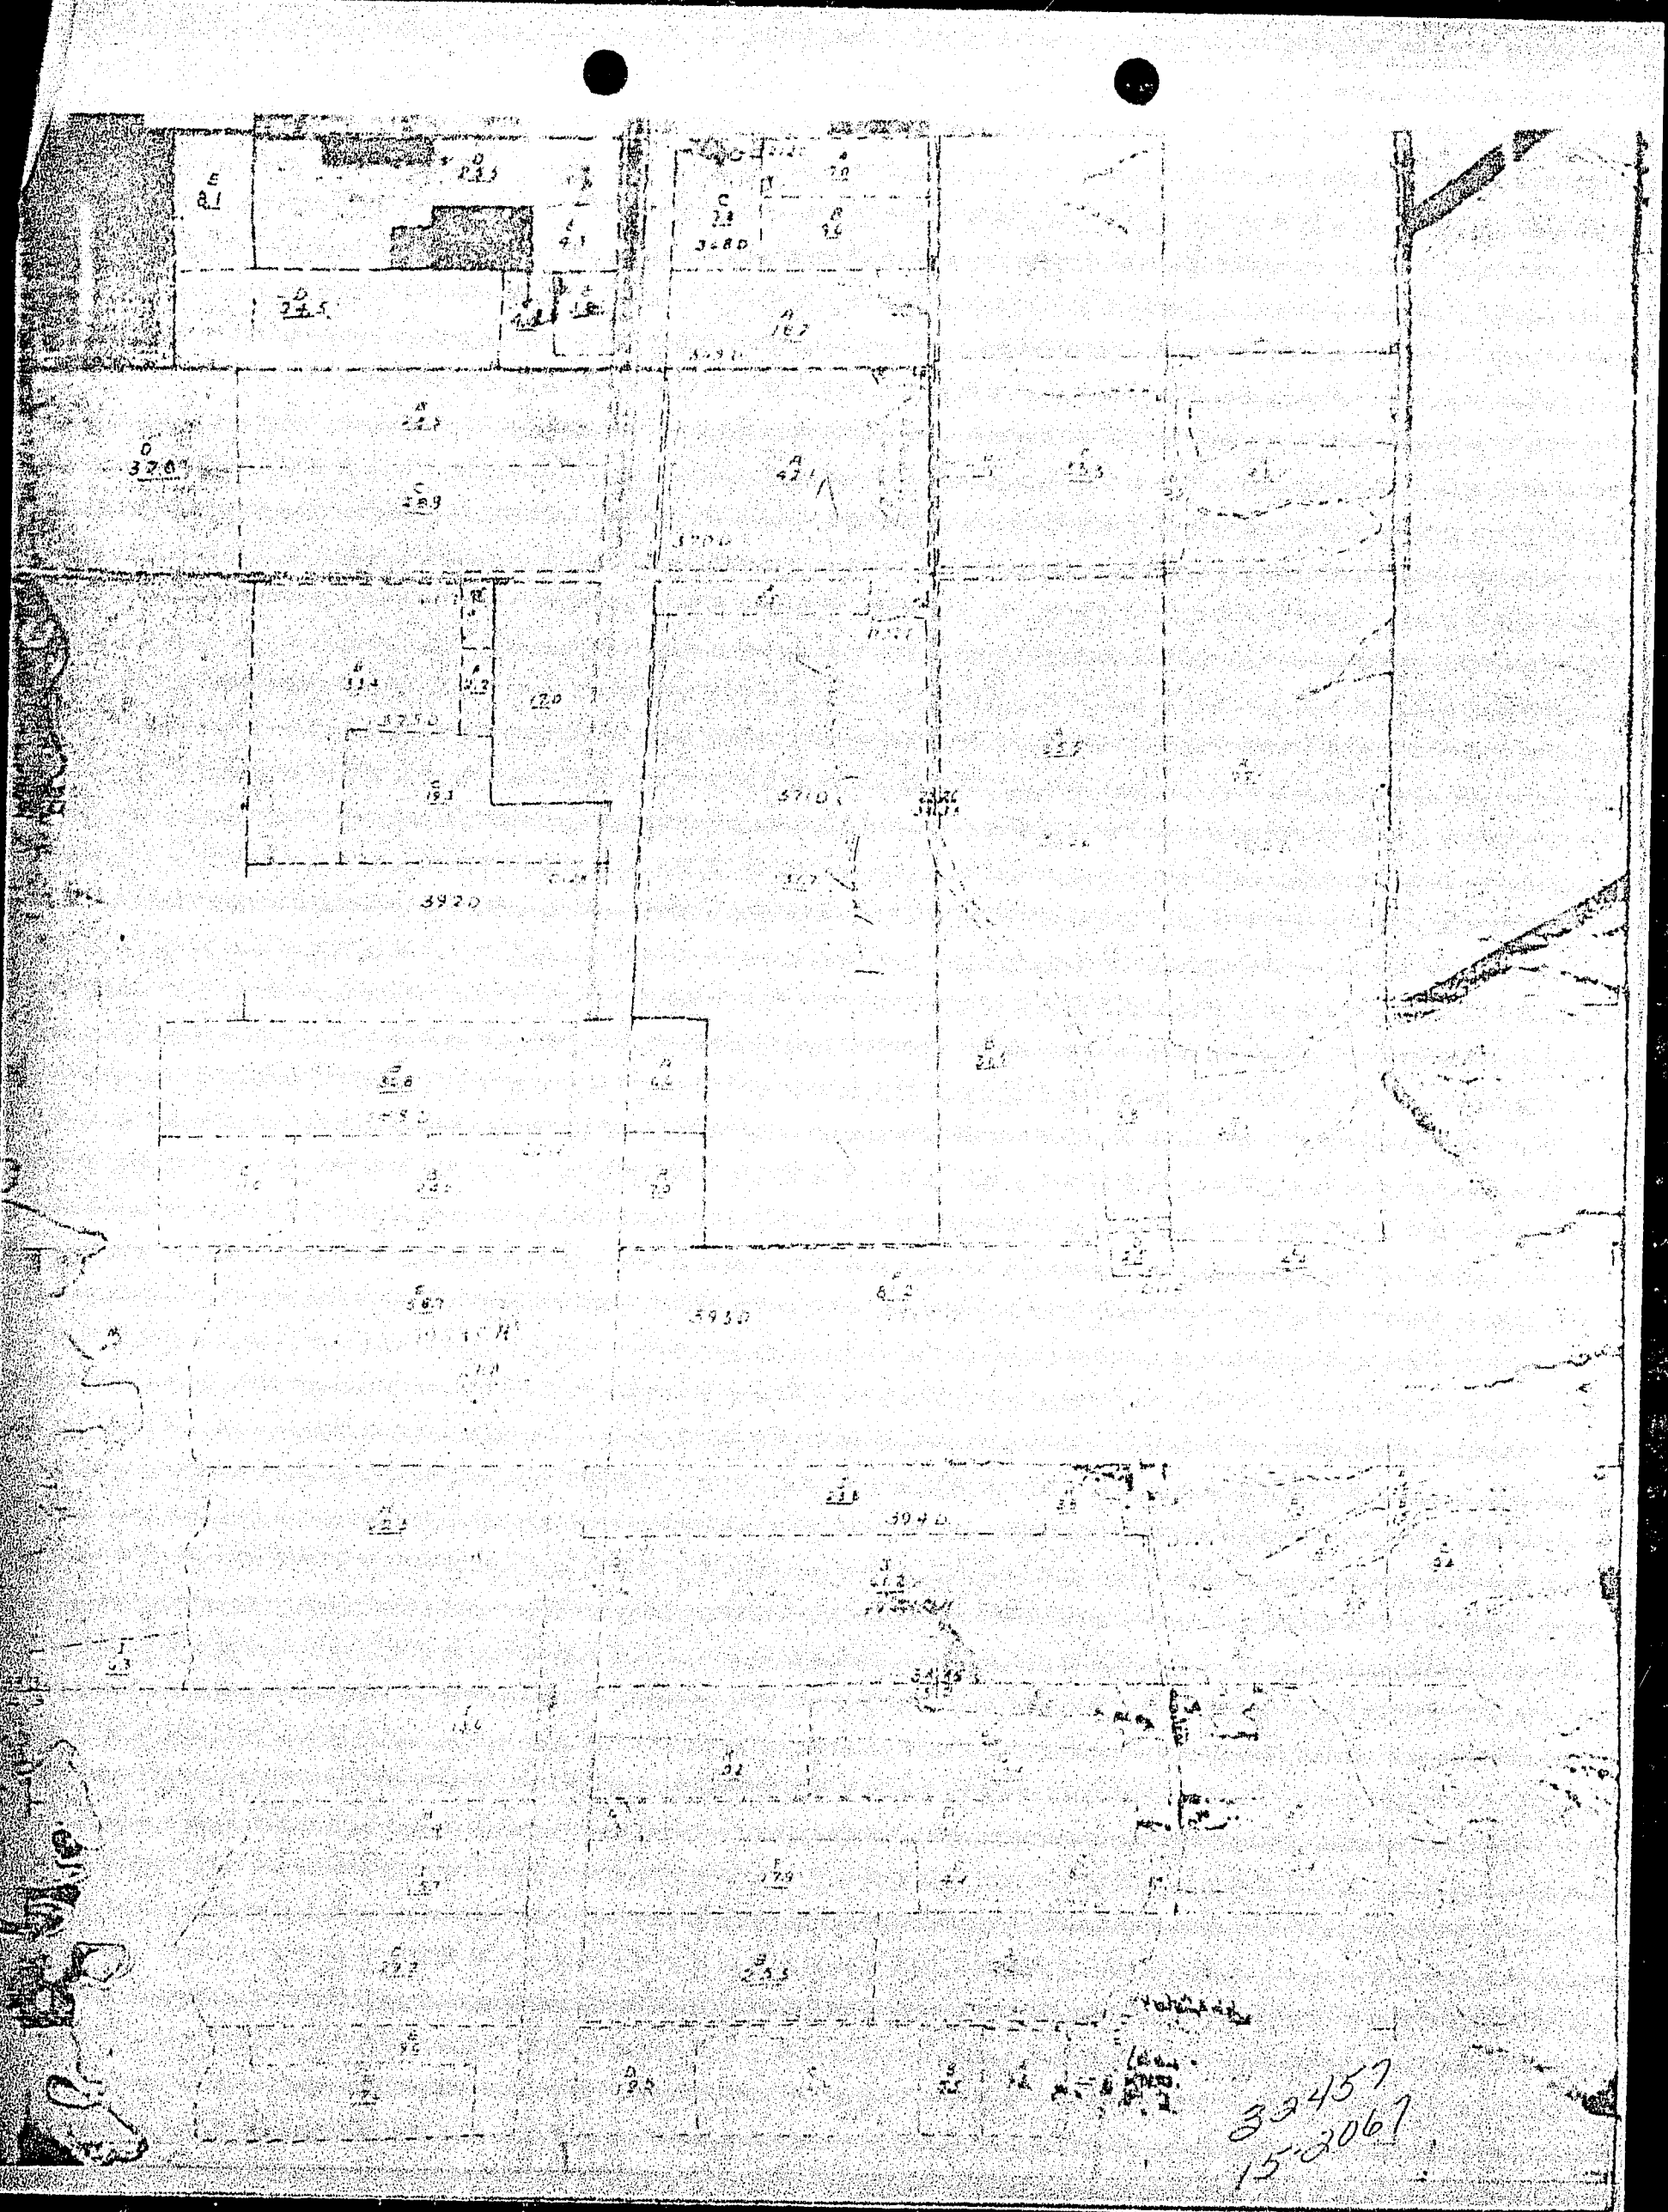

Also be advised that there appears to be a change in the place of use on your beneficial use affidavit. The affidavit lists the SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27; and the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 34, T. 15, R. 36, B. M. However, your permit lists the N $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27; and the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 28, T. 15 S, R. 36 E, B. M. RE: Donald S. Vaughan, Permit No. G-32457/15-2067

Dear Mr. Higginson:

Reference is made to your letter requesting the exact nature of Mr. Jones' claim. Mr. Jones' claim is constitutional as the well claimed is used solely for culinary purposes. The well is located in the Northeast corner of the Northeast quarter of the Southeast quarter of Section 27, Township 15 South, Range 36 East, Boise Meridian.

Actually, as you are no doubt aware, Mr. Jones' original well has existed for many years. When Mr. Vaughan first started his well Mr. Jones' well dried up. This was, of course, reported to your office and Mr. Vaughan was asked to turn his well off. When he did so Mr. Jones' well came in again. Thus, when this happened the second time, Mr. Jones decided it would be prudent for him to dig another well. This he did and that is now the well he is using. He is concerned, however, that since Mr. Vaughan's well is still deeper than Mr. Jones' well, the threat remains that his continual use could again dry up Mr. Jones' source of supply. Thus, his present intention is to merely make everyone aware of his claim so that appropriate action can be maintained in the future if the matter should arise.

Any assistance you can render in this matter will be greatly appreciated.

Yours very truly,

Dear Mr. Crowther:

With reference to your letter of March 23, 1970 protesting the issuance of a license on Permit No. G-32457/15-2067 to Donald S. Vaughn because of interference with a well owned by Leland A. Jones, the department will require further information on the protestant's well. Because we have record of several wells owned by Mr. Jones in that area we will require a complete legal description of the well in question. We also need to know if Mr. Jones has a recorded right for the well in question or if he is claiming the water by constitutional right. A description of the nature of the effect on the well would be desirable.

Further processing of this protest cannot be completed until we receive this information.

Objection is hereby made to the above application in so far as it interferes with the pre-existing uses of Leland A. Jones. As you know, Mr. Jones has a pre-existing diversion of these underground waters for domestic, culinary, and stock watering purposes. You are further aware that Mr. Vaughn's diversion has interfered with Mr. Jones' use and decreased the underground waters available to him for his uses.

Donald S. Vaughan
Route 1
Malad, Idaho 83252

Dear Mr. Vaughan:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear Mr. Vaughan:

We are returning your personal check in the amount of \$5.00, and your application for amendment, filed in connection with the above referenced permit. The lands you have listed under item #3, do not correspond with those listed on the map on the back of the application. We have indicated with X's in pencil, where the land, as you have listed on the map, is located. We have listed with O's, where the land is listed on item #3, as indicated. As you can see, these do not correspond.

As an additional matter; the map, as drawn on the back, is still, again, a different land list.

Would you please clarify your proposal. If we can be of any further assistance, please advise us.

Dear Mr. Vaughan:

We are returning your application for amendment, inasmuch as the amendment was not submitted with a \$5.00 filing fee, as required.

We would also require that item 3; the lands to be irrigated, be clarified. We require that the lands to be irrigated in each subdivision, be identified. For instance, the SW~~4~~SW~~4~~ would require the number of acres in that particular subdivision that you propose to irrigate. The same holds true for the SE~~4~~SE~~4~~ of Section 27.

As to Section 34; you indicate that you are going to irrigate the NE~~4~~NE~~4~~, which is a 40 acre description. Yet, you show 93 acres in the total. Assistance in clarifying this may be obtained from your local county agent.

We are enclosing an additional application for amendment form for your use in re-evaluating your amendment. Contact us if we can be of further assistance.

Very truly yours,
