Claim No. 41952
Map No. _____

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Mr. & Mrs. Evan Price
post office address Rt 1 Box 31 Malad
2. The point of diversion is in NW $\frac{1}{4}$ of SE $\frac{1}{4}$ Section 11 Township 15S
Range 35 E B.M. located on Well
(name of source)
tributary to _____ in Owada County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
- a. Date of priority claimed: 1926 6-1-1938 amount: .03 c.f.s. or _____ acre feet ☒

amount: _____ c.f.s. or _____ acre feet

amount: _____ c.f.s. or _____ acre feet
Total claimed _____ c.f.s. or _____ acre feet.
- b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:
use irrigation period of use from Jan 1 to Dec 31 (both dates inclusive)
use livestock period of use from _____ to _____ (both dates inclusive)
use garden & yard period of use from May to Oct. (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).

4. Description of diverting works:

- a. Surface water diversion dam and/or headgate: material is composed of _____
_____; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; width at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

- b. Underground water diverting works: is well flowing or pumped Flowing in winter Pumped in summer; depth of well is 26.5 feet; diameter of well is 4 in inches; type of pump is submersible 4 in.
capacity of pump is 7 1/5 11 1/2 g.p.m.; name and address of well driller is Cyrus T. Waldron
at 40th Avenue Samaria, Idaho

x per inst of letter received 8-7-67

15-4000

c. Conveying works: length of ditch to place of use is _____ feet; width of ditch at top is _____ feet; width of bottom of ditch is _____ feet; depth of water is _____ feet; grade of ditch per 1000 feet is _____ feet; material through which ditch passes is _____ 2" pipe
maximum length of pipe line to first place of use is 115 feet; diameter of pipe line is _____ inches; type of pipe galvanized; grade of pipe per 1000 feet is _____.
Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible _____

d. If water is stored: name of reservoir _____;
total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet;
year construction commenced _____; year completed _____; date first used _____
period of storage is from _____ to _____; is reservoir drained each year _____;
is reservoir on or off stream _____ explain _____

if feeder canal is used give maximum carrying capacity_____c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions_____

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe _____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

[illegible]

Total number of acres to be irrigated _____

Explain any significant increase in area irrigated since first use, give dates and acreages if known _____

b. Do you get water through a ditch owned by several users? _____ If yes, give the name of the ditch _____ The other users and their respective interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered ^{in summer} 14 dairy animals plus cattle during winter 40 head range animals + calves

7. Where water is used for domestic or municipal purposes give number of families served 1 name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible, giving dates and quantities. Home lot + garden

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

priority protection in event that new irrigation well dug within 500 ft should take out water well being filed in was originally owned by N. A. Waldron + now owned by Clara Glad Price

BE IT KNOWN that the undersigned hereby makes claim to a water right as described above together with all attached information and certifies that all statements are true and accurate to the best of his knowledge.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:		May 18, 1871	amount:	0.8 c.f.s. or	acre feet
		June 1, 1901	amount:	0.4 c.f.s. or	acre feet
Total claimed:		1.2 c.f.s. or	acre feet		

- Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:
- use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.
4. Describe the diversion works and explain any changes since the right was first initiated.
 5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
 - 6, 7, & 8. Describe any other uses of water.

9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

**NOTICE OF CLAIM TO A
WATER RIGHT**

No. 15-4000

Notice is hereby given that Mr. and Mrs. Evan Platt Price, Route No. 1, Box 31, Malad City, Idaho, have filed a claim to a water right established by diversion and application to beneficial use of .03 (cubic feet per second) of water from a subterranean source with point of diversion in NW 1/4 Sec. 11, T. 15S, R. 35E, B.M., Oneida County; the water is claimed to be used for culinary purposes and livestock watering from January 1 to December 31 and for garden and yard watering purposes from May 1 to October 31 with a priority of June 1, 1958 (.03 c.f.s.); the place of use is NW 1/4 Sec. 11, T. 15S, R. 35E, B.M.

Any exception to this claim of water right may be filed with the Department of Reclamation.

July 24, 1967

Mr. & Mrs. Evan P. Price
Route 1, Box 31
Malad, Idaho

Dear Mr. & Mrs. Price:

We are in receipt of your claim to a water right for your property in T. 15 S., R. 35 E., B. M.

Before we can record this claim, we must have some additional information under item 2, point of diversion, where you have failed to indicate the source of water. From other information found in your claim, we believe it to be a well. If it is a well, or some other source, please advise this department and ask us to enter it under item 2 of your claim.

Under item 3 you have listed a priority of 1936 that you wish to claim. It would benefit your claim if you would list a month of the year and if possible a specific day showing the full date of day and month of the year 1936 that you wish to claim for priority. Also before we can file your claim, we must know the amount of water that you wish to file on. This amount should be in cubic feet per second. As the majority of your filing is on domestic, normal domestic consumption for a normal household would be 0.02 c.f.s. which equals 13,000 gallons per day. As to livestock, if you wish to claim an equal amount for livestock making a total of 0.04 c.f.s., this possibly would be adequate. Lawn and yard irrigation is covered under the domestic aspects of 0.02; however, if you wish to claim some other quantity of water, please advise us and direct this department to insert an amount under statement 3 of the claim.

Your prompt attention to this matter will be appreciated.

Very truly yours,

Donald W. McEldowney
Water Rights Clerk

We cannot give a specific date on our filing. we
dated 1936. Upon further study we find the well was
began in 1936 but probably was not finished until
the winter of 1938. There are no definite records.
my parents built here & had the well dug at the same time
they were building our present home. They moved into
the home Sept. 1, 1938
and believe the well was
completed & piped to the
home in the spring of 1938.
Therefore we list June 1, 1938
to be sure.
