Dear Mr. Kent:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 15-7036. You should be aware that the following are the principal items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Dear Mr. Huntley:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Dear Mr. Manning:

We are in receipt of your letter of May 11, 1977, indicating that the St. John Irrigating Company will not be present at the conference or hearing to be held May 24, 1977, in Malad, Idaho.

I get the impression from your letter that you are of the opinion that this hearing will be a continuation of one previously held by the Department, which is not correct. The hearings previously held were on Applications 15-7025, 15-7026, 15-7029, and 15-7030. While this application is for a spring in the same area and I assume the issues will be very similar, the objections against this specific appropriation have never been heard by the Department. However, if St. John Irrigating Company does not appear at the conference or hearing, the Department will consider the testimony of the previous hearing, if it applies, before taking final action on this application.

(1) That there is presently under consideration a
determination of the water rights in the subject springs
under Application No. 15-7029, and the outcome of that
proceeding may result in there not being any available
additional water to appropriate.

(2) The application seeks to appropriate waters which

Dear Mr. Holmes:

Regarding the above application for permit, as I have previously advised the Department, this office represents St. John Irrigating Company, and I appeared on their behalf at the original conference on this application.

St. John Irrigating does not now desire to produce additional evidence or participate further in connection with its protest, and so neither myself or representatives of the company plan to attend the hearing the Department has just scheduled for May 24, 1977 in Malad.

OF THE
STATE OF IDAHO

In the Matter of Protests Against Approval)
of Application for Permit No. 15-7036)
in the name of CLARENCE KENT)

NOTICE OF CONFERENCE
AND/OR HEARING

On March 21, 1977, Clarence Kent filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On April 9, 1977, the Department received a protest against approval of said application from the St. John Irrigating Company. On April 18, 1977, the Department received an additional protest from Del and Beatrice Clark.

The Department has set the matter for conference and/or hearing for Tuesday, May 24, 1977, at 2:30 p.m., in the Courtroom of the Oneida County Courthouse, Malad City, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 5th day of May, 1977.

LOREN O. HOLMES

Re: Applications for Permit No. 15-7036 - Clarence Kent

Dear Mr. Carlson:

Regarding your letter of May 18, 1977, on the above matter, after reviewing my file I realized that I did have in mind when I wrote you earlier that this was a continuation of similar applications from the same area. I appreciate your straightening me out on this and also, your offer to consider our remarks at the earlier conference on the present application.

Very truly yours,

D. JAMES MANNING

RE: Application for Permit No. 15-7036 CLARENCE KENT
DATE: August 24, 1977

On May 24, 1977, a hearing was scheduled to hear protests against the granting of Application for Permit No. 15-7036. The applicant, Clarence Kent, was the only party that showed up for the hearing.

I later talked to Robert C. Huntley, Attorney for protestants Dale and Beatrice Clark, who indicated the springs described in this application were different from those over which previous disputes had taken place, and that the protestants wished to withdraw their protest. As I recall, my conversation with Mr. Huntley, he agreed at that time to submit a letter for the file withdrawing this protest.

I believe, at this time, the protest should be set aside because of the conversation I have had with the protestant's attorney and in view of the fact they failed to appear at the conference.

License of Water Right No. 15-7036 Priority March 21, 1977 Amount 0.02 cfs

THIS IS TO CERTIFY, that CLARENCE KENT

of Malad, Idaho, has complied with the terms and conditions of Permit No. 15-7036 issued pursuant to Application for Permit dated March 21, 1977, and has submitted proof to the Department of Water Resources on October 19, 1977, that he has applied water to a beneficial use; an examination by the Department indicates that the works have a capacity for the diversion of 0.02 cfs of water from unnamed springs, tributary to sinks, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Stockwater	from January 1 to December 31	at 0.02 cfs and	0.4 acre feet
Irrigation	from April 1 to November 30	at 0.02 cfs and	8.53 acre feet
	from to at	cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.02 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed 8.93 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14, Twp. 11S, Rge. 34E, B.M. in the County of Oneida

Dear Mr. Kent:

A representative of this Department made an examination of the works covered by your Permit No. 15-7036 on October 19, 1977, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.02 cfs Source: unn. springs

The maximum quantity diverted shall not exceed 3.03 acre feet per
year.

Point of diversion: SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14, Twp. 11S, Rge. 34E, B.M.

Beneficial use: Irrigation of 157 acres within the S $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24,
and stockwater use within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14, all in Twp. 11S, Rge. 34E, B.M.

Priority date established: March 21, 1977

If you do not concur with these findings please contact us within 10 days, otherwise a
water license will be issued as set forth above.

Re: Permit No. 15-7036

In your letter dated November 20 all legal descriptions are correct except the location for stock watering. That should read:
NW 1/4, NE 1/4 SEC. 23.

This spring was developed and piped in 1975. During 1976 it held at or above .03 CFS. Due to extreme drought it has stayed at about the amount measured by your representative since that time. May I suggest that you increase the permit to save us both the paper work and expense of an additional filing when the water table returns to normal?

Sincerely,

Clarence Kent

Clarence Kent

Malad, ID 83252

Dear Mr. Kent:

In your letter you stated that the stockwatering place of use is in the NW 1/4, Sec. 23. However, our field examiner found it to be in the SW 1/4, Sec. 14, which was the place of use originally filed on. I am enclosing a sketch of the system as the field examiner saw it. If you disagree after you see the map, please contact us and we can schedule a re-examination of your system. However, if the place of use is changed we must amend the permit to show the change.

In reference to the amount of water measured, we cannot increase that amount as it was the amount being beneficially used at the time of the field exam. It would constitute an expansion of the water right if we were to increase the amount based upon a future possibility. If your water availability does increase, then a new water right application should be filed to reflect the priority date of the new water use.

If you have any questions or disagree with the place of use for the stockwater, please contact us within 15 days, otherwise a water license will be issued as previously shown in our letter of November 20, 1979.

Sincerely,

JAN GROVER
