

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant David R. Harris Phone 766-2694
459-6643
Post office address 1010 South Woodruff Rd. Malad, Idaho 83252

2. Source of water supply Ground water which is a tributary of _____

3. Location of point of diversion is NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of NW $\frac{1}{4}$, Govt. Lot _____
Sec. 23 Township 16S Range 36E B.M. Oneida County; additional
points of diversion if any: _____

4. Water will be used for the following purposes:

BLM Amount 1.36 for Irrigation purposes from 4-15 to 10-15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 1.36 and/or (b) _____
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Deep well turbine Mainline and sprinkler

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.

Exists c. Proposed well diameter is 12 inches; proposed depth of well is 305 feet.

d. Is ground water with a temperature of greater than 90°F being sought? No

7. Time required for the completion of the works and application of the water to the proposed beneficial use is

All in place years (minimum 1 year).
one

* Allowable amount for 68 acres.
* Standard season of use.

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in KW. _____
 - Stockwatering; list number and kind of livestock. _____
 - Municipal; show name of municipality. _____
 - Domestic; show number of households. _____
 - Other; describe fully. _____

9. Description of place of use:
- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
 - If water is used for other purposes, place a symbol of the use (example: *D* for Domestic) in the corresponding place of use below. See instructions for standard symbols.

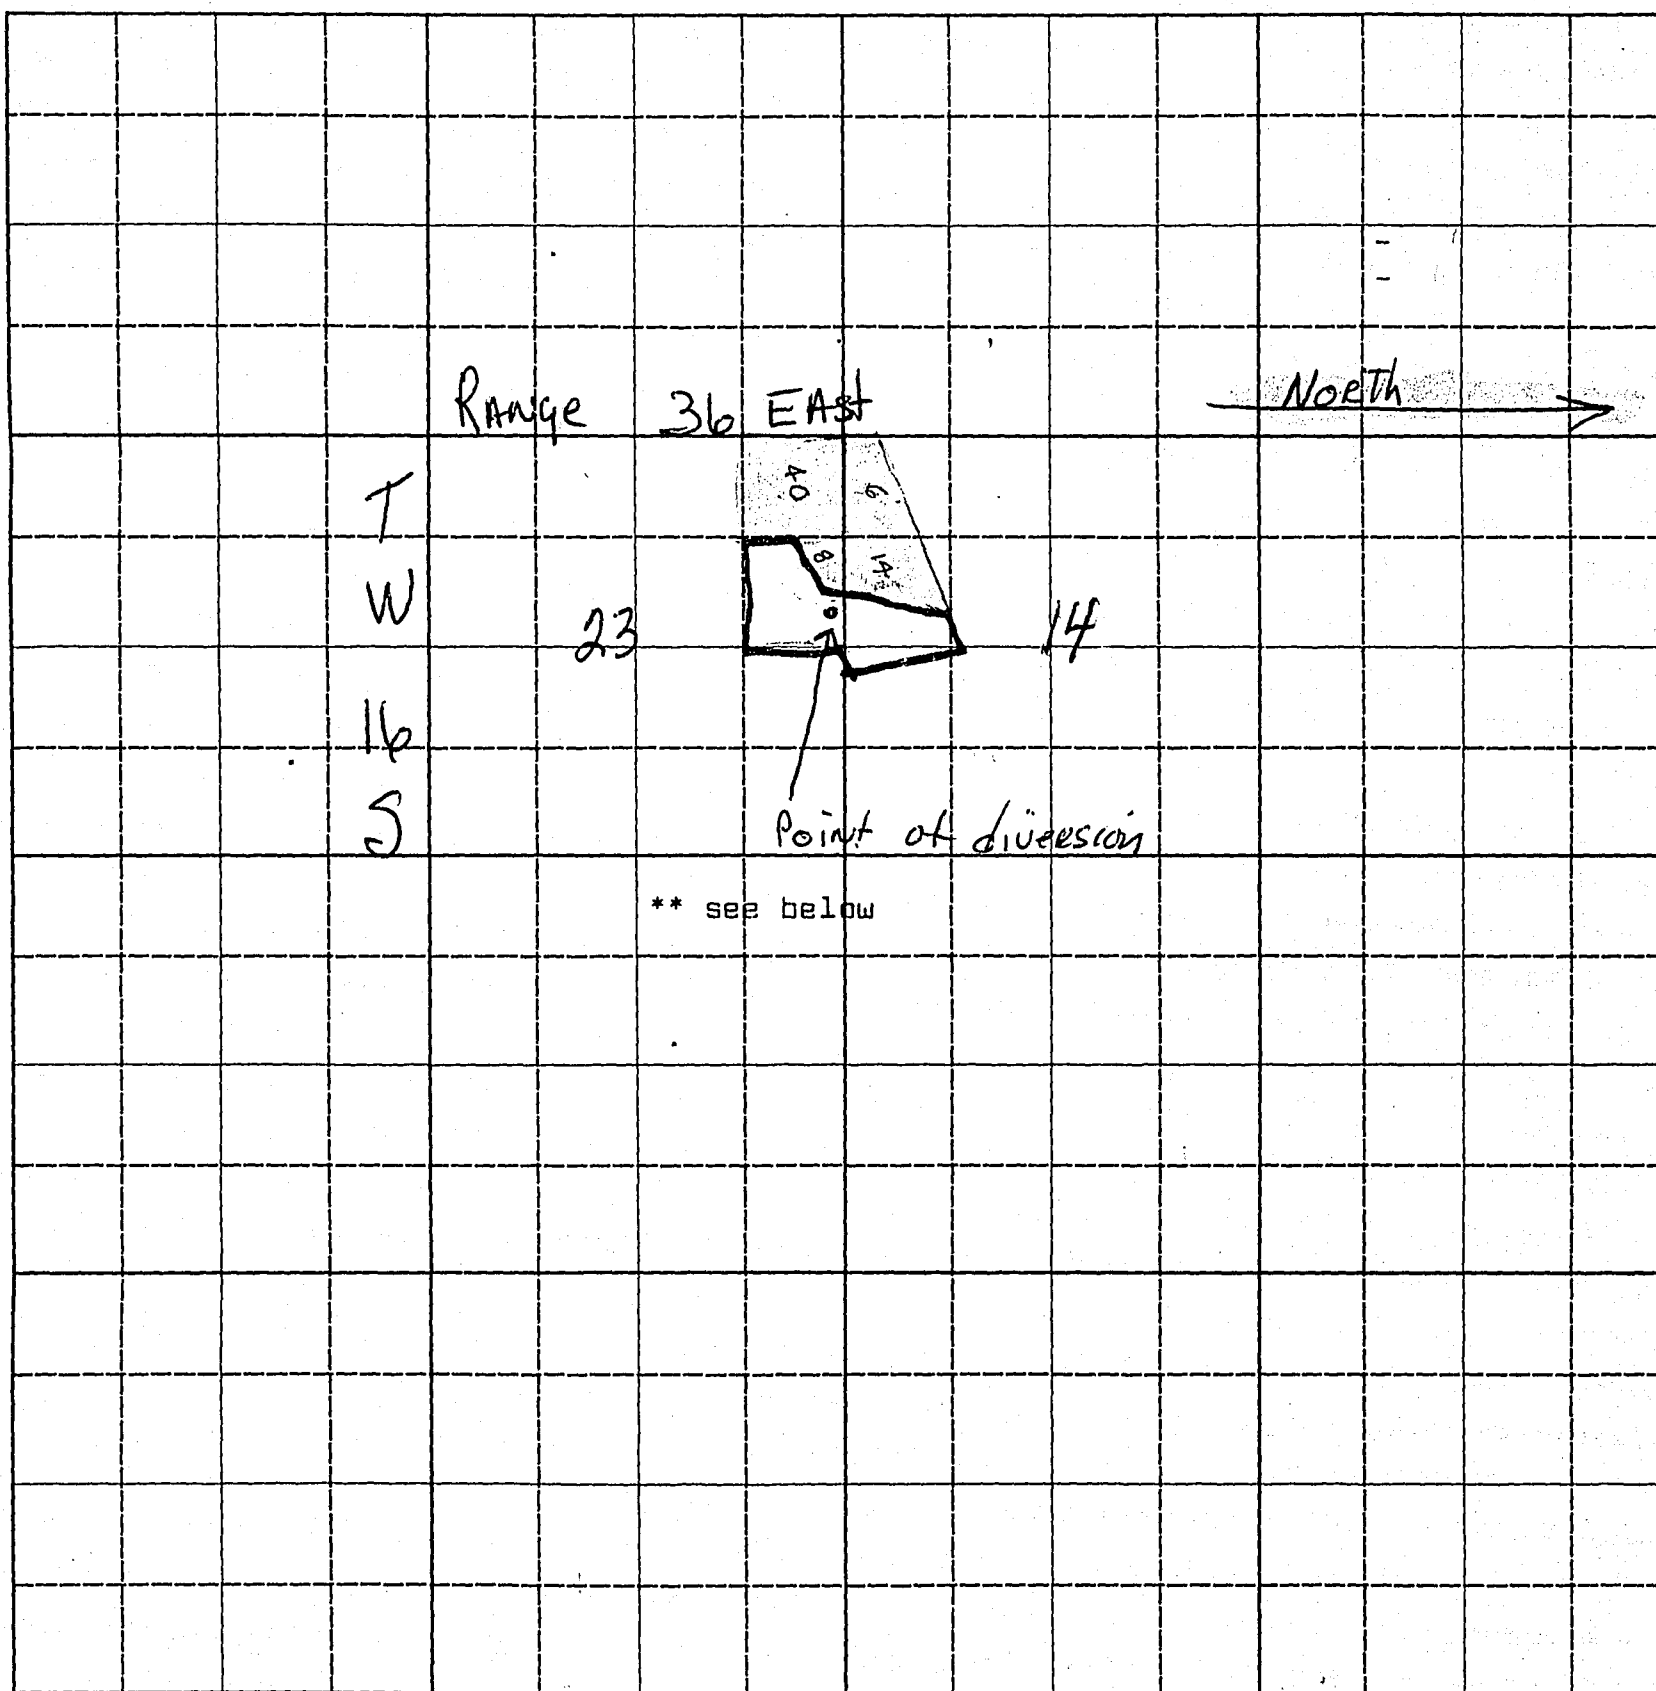

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
16S	36E	23					8	40					8	24					48
16S	36E	14											6	14					20

Total number of acres to be irrigated 68

10. Describe any other water rights used for the same purposes as described above. N/A
11. a. Who owns the property at the point of diversion? Farm Credit/ Morgan D. Ann B. Harris
b. Who owns the land to be irrigated or place of use? Morgan D. Ann B. Harris
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. All ground is leased and operated by applicant
12. Remarks: Point of diversion is an existing well already in operation irrigating 60 acres under permit of applicant. License#15-7028

15-7136

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

** Area outlined in red is irrigated under permit held by applicant

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:

RE: Application No. 15-7136 & 15-7137

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Idaho Enterprise on 3-19 & 26-1992. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

R. Keith Higginson, Director;

I am writing concerning the application Mr. David R. Harris, 1010 South Woodruff Road, Malad, Idaho has in our local paper applying for a permit to drill or work on two wells in the Woodruff area. Water Right 15-71-36.

A few years ago he drilled a deep irrigation well about one-half mile southwest of our home.

Each spring when Mr. Harris turns on this well to irrigate my house water drops to the point that can not water my yard and lawn all summer. We bath with sand and have sand settlements in our drinking water, during the irrigating season. With the drought being what it is we want to go down on record that if our water gets any worse something will have to be done.

Our house well has been here for a number of years and my Grandparents who lived here before us never did have any trouble, nor neither have we until we drilled the large well.

Mr. Harris is a good neighbor of ours and we have never had or want any trouble between us.

We would like to have it known that we are not trying to stop him from drilling another one or prove upon what he already has, but if our well is as bad or even any worse this summer than what its been, we would like to have it recorded in the Department of Water Resource office, In the State of Idaho that he will have to do something to solve the problem. Will you please inform him of our problem.

Dear Mr. Harris:

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to application No. 15-7136. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances, our objective is to schedule a conference and/or hearing in the near future to consider the protest. At a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for transfer (Sec. 42-203, Idaho Code):

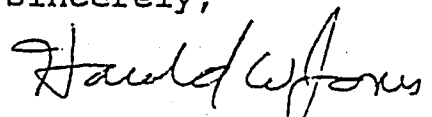

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?
6. Is the proposed use contrary to conservation of water resources within the State of Idaho?

David R. Harris
07-Apr-1992
Page 2

The applicant must be prepared to present evidence and/or testimony addressing each of the six items. Although representation by legal counsel is not mandatory at a proceeding before the Department, you may retain an attorney in your behalf.

If this office can be of further assistance, please contact us.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

R. Keith Higginson, Director;

We have informed Mr. Harris about our problem with our well water, when he uses his irrigation pump.

Mr. Harris has assured us that he was only filing on the present water rights - that he had no intention of drilling anymore wells or making them any deeper.

As we stated earlier in our letter we are not trying to stop him. We are just concerned about getting our well replaced or restored to normal if it goes dry because of Mr. Harris's irrigating.

Thank you for your time
Sincerely
Arthur + Sheila Peabody

RE: Application for Permit No. 15-07136

Dear Applicant(s):

On May 21, 1992, the Department of Water Resources sent you a letter explaining that a moratorium had been declared on the approval of certain pending and future applications to appropriate water in the Bear River Basin.

The letter included a request to complete and return to us a "Moratorium Exemption Questionnaire". The information would determine whether your proposed use(s) would qualify for the supplemental irrigation exemption, be partially approved, or be held without action. As of this date, the Department has not received the questionnaire. Enclosed is another one for your convenience.

Please return the questionnaire within twenty (20) days of the date of mailing of this letter, or the Department will initiate proceedings to void your application.

If you have any questions regarding this request, please contact me immediately at 327-5452.

Sincerely,

BRENDA L. MILLER
Water Resource Agent

Enclosure

RECEIVED

AUG 18 1992

MORATORIUM EXEMPTION QUESTIONNAIRE Department of Water Resources

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated with surface water in the past?

No No surface water is available to us.

- Do you summer fallow any of your irrigated land? If so, how many acres?

No

- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the canal company or water district.

Well licence # 15-7028

- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season?

No surface water is available, however we have irrigated all of the land under this application for at least ten years from the above well.

- What crops have you grown in the past ten years?

Wheat Barley Alfalfa

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.

Dated this 17 day of August, 1992.

RE: Application for permits No. 15-07137, 15-07136

Dear Brenda L. Miller, Water Resource Agent:

This letter is a follow up of our phone conversation about the above permit applications. In 1976 we applied for well permits #15-7020 and #15-7028 and subsequently drilled those wells. We were the only farm in our area to have a well until about 1985 when one of our neighbors drilled one. Four more wells were drilled last year. Since drilling our wells we have acquired some other ground and put it under irrigation. Since so many other wells were being drilled we felt we should apply to cover the ground that we did not have a permit on. All of the ground under the above applications has been under irrigation for at least ten years. We hope you will take this into consideration in granting these permits.

Sincerely,

David R. Harris

MEMORANDUM TO: Staff

FROM : R. Keith Higginson *RKH*

DATE : July 1, 1992

SUBJECT : Snake River Basin Moratorium

As expected, the moratorium on new uses of surface and ground water of the Snake River Basin upstream from the Weiser gaging station has generated several questions concerning intent.

You will recall that the moratorium provided several exceptions:

- domestic uses
- nonconsumptive uses
- drought wells
- drilling permits to replace or deepen

It appears that a number of situations have been identified where applications for permits have been filed to cover presently existing uses of water. I see no reason to hold up the processing and approval of such permits since it will make no difference on the quantity of water that is being withdrawn in the basin during this drought period. If we are not going to consider issuing permits to cover such existing uses then we need to issue cease and desist orders to stop the use. I don't want to take that action where there is an alternative.

Therefore, the purpose of this memo is to advise that it is the intent of the moratorium order issued on May 15, 1992 to hold up the issuance of permits authorizing new or expanded uses of water within the Snake River Basin. The moratorium may be interpreted to allow the continued processing and approval of applications proposing to cover an existing use. Such existing use must predate the start of the Snake River Basin Adjudication in November 1987.

MEMORANDUM

TO: Applications 15-07136 & 15-07137
FROM: Brenda
DATE: August 19, 1992
RE: PERMANENT PERMITS

=====

The above referenced applications should be considered exempt from the Bear River Moratorium criteria because they are pre-existing development. See copy of Director's July 1, 1992 memo in file which exempts pre-1987 development from the Snake River Basin Moratorium and allows said applications to be processed as permanent permits.

We are using the Director's memo as a guideline for processing applications for pre-existing development outside the Snake River Basin Adjudication boundaries.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 15-07136

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager
