STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

RECEIVED

MAR 06 1998

Department of Water Resources

1. Name of Applicant Malad Valley Irrigation Company Phone 766-2771
Mailing address c/o President Grant Jones, 2601 W. 500 S., Malad, ID 83252
2. Source of water supply Devils Creek which is a tributary of Malad River
3. Location of point of diversion is Township 14 S. Range 36 E. Sec. 16 1/6 in the NE 1/4, SW 1/4, Govt. Lot , B.M., Onida County;
additional points of diversion if any: (Crowthers Reservoir Dam)
4. Water will be used for the following purposes:
Amount 1053 AF for Storage for Irr. purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount 1053 AF for Irr. from Storage purposes from 4/15 to 10/15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)
Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)
Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)
Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)
1053
930 A.F.
5. Total quantity to be appropriated is (a) and/or (b)
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source Earth filled dam, vertical control outlet gate and 22' outflow pipe
 - b. Height of storage dam 102 feet; active reservoir capacity 1053 A.F. acre-feet; total reservoir capacity 1053 acre-feet
 - c. Proposed well diameter is inches; proposed depth of well is feet
 - d. Is ground water with a temperature of greater than 85°F being sought?
 - e. If well is already drilled, when? ; Drilling firm
Well was drilled for (well owner) ; Drilling Permit No.
7. Time required for completion of works and application of water to proposed beneficial use is one years (minimum 1 year)
completed 1948
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in KW.
 - b. Stockwatering; list number and kind of livestock.
 - c. Municipal; show name of municipality.
 - d. Domestic; show number of households.
 - e. Other; describe fully.

9. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

(SEE ATTACHED)

TWP	RGE	SEC	N E				N W				S W				S E				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	

Total number of acres to be irrigated 4501

10. Describe any other water rights used for the same purposes as described above. Devils Creek Reservoir
Water Right No. 15-02081

11. a. Who owns the property at the point of diversion? Applicant

b. Who owns the land to be irrigated or place of use? Shareholders of Applicant

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Remarks: This Application pertains to Crowther Reservoir and is intended to document the Applicant's storage water right that has existed since the Crowther Reservoir was constructed in 1948. (See Supporting Affidavit of Officers and Directors of Applicant.)

13. MAP OF PROPOSED PROJECT REQUIRED - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 1999.
2. Subject to all prior water rights.
3. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
5. The storage of water under this right is contingent upon the certification of the dam and authorization of storage per the dam safety provisions of the Idaho Code.
6. The issuance of this right does not grant any right-of-way or easement across the land of another.
7. Storage facility is also known as Crowther Reservoir.

for Karl J. Dreher, Director

**AFFIDAVIT OF WATER RIGHT CLAIMS
OF
MALAD VALLEY IRRIGATING COMPANY**

STATE OF IDAHO)
 : ss
County of Oneida)

The undersigned officers and directors of Malad Valley Irrigating Company, being first duly sworn, depose and state as follows:

1. The undersigned Affiants, Grant Jones, Lon Corbridge and Louis Dredge (hereinafter referred to collectively as "Affiants") as officers and directors, submit this Affidavit on behalf of Malad Valley Irrigating Company (hereinafter "the Company") for filing with the State of Idaho Department of Water Resources ("the Department") for the purpose of setting forth the rights owned and claimed by the Company to the public waters of Idaho established by permit, license, claim and by diversion and application to beneficial use under the laws and Constitution of the State of Idaho.

2. Affiant Grant Jones is 69 years of age, the President of the Company since 1996 and a shareholder since 1962. Affiant Lon Corbridge is 71 years of age, currently the Secretary of the Company, a past President and member of the Board of Directors continuously since 1985 and a shareholder since 1973. Affiant Louis Dredge is 55 years of age, a member of the Board of Directors continuously since 1977, a past President and shareholder since 1971.

The information contained in this Affidavit is true and correct to the best of Affiants' knowledge, information and belief based upon their personal knowledge, review of the Company's records, and observations as shareholders, board members and officers of the Company, together with the Articles of Incorporation, By Laws, Minutes and other records maintained by the Company since its inception.

3. The Company was incorporated as an Idaho nonprofit corporation by Articles of Incorporation filed with and approved by the Office of the Territorial Secretary of the State of Idaho on June 12, 1882. The Company has existed and operated since that time for the purpose of

delivering irrigation water to its shareholders in Oneida County, Idaho. Presently the Company has 180 shareholders who collectively irrigate 8924 acres..

4. Attached hereto as Exhibit "A" and incorporated by reference is a map depicting Devil Creek and its tributaries together with Devil Creek, Crowther and St. Johns Reservoirs described below. Commencing on April 1, 1882, the Company has continuously diverted and applied to beneficial use all of the water naturally flowing in Devil Creek and its tributaries. The headwaters of Devil Creek arise in Mill Canyon, commonly known as Power House Canyon. Near the Malad Summit the water is divided with one-fourth diverted in a northerly direction into Marsh Valley and three-fourths diverted in a southerly direction into the Devil Creek drainage via a canal. There are numerous unnamed springs and streams tributary to Devil Creek including, but not limited to Campbell, Heath Hollow, Station, New Canyon, Rattlesnake, Evans, Birch and Spring Creeks. These creeks contribute to Devil Creek below Devil Creek Reservoir and above Crowther and St. Johns Reservoirs. The water naturally flowing in Devil Creek and its tributaries is contained and stored in Devil Creek, St. Johns and Crowther Reservoirs on a year-round basis, although the primary storage results from winter snowmelt and spring runoff.

During the normal irrigation season from April 1 through November 1 the natural flow is passed through the reservoirs and, combined with released storage water, provides the irrigation water needs of the shareholders. The records of the Company reflect that on the average it delivers approximately 7500 acre feet of water to the shareholders. The annual water delivered varies based upon availability, climatic conditions and needs and has varied from a low of 2500 acre feet in times of extreme drought to in excess of 10,000 acre feet in the best water years. The shareholders of the Company irrigate some 8924 acres located in Townships 13, 14 and 15 S., and Ranges 35 and 36 E., B.M., Oneida County. These lands are generally adjacent to Devil Creek downstream from Devil Creek Reservoir and are more specifically described in the "Land List Attachment" attached to the Application for Permit, attached hereto as Exhibit B.

5. St. Johns Reservoir was constructed and first became operational in the spring of 1898. In approximately 1908 this reservoir was washed out and rebuilt to a larger size in the same location. In 1952 this reservoir again was washed out and again was rebuilt a larger size at the same location. St. Johns Reservoir has a capacity of 810 A.F., is primarily filled from Birch Creek, and

is also used to store water naturally flowing in Devil Creek and water released from Devil Creek Reservoir.

Crowther Reservoir was constructed in 1948 and has been continuously used since that time for the purpose of storing and releasing irrigation water. Crowther Reservoir has a capacity of 1053 A.F., is filled from stored water released from Devil Creek Reservoir and from the natural flow of Devil Creek and its tributaries.

Devil Creek Reservoir was constructed in 1969. Department Water Right No. 15-02081 authorizes the storage of water from Devil Creek up to a maximum of 4464.0 A.F. per year, with a priority date of June 10, 1940. The authorized use is for storage for irrigation and irrigation from storage. This water right resulted from Bureau of Reclamation Permit No. R682, which authorized the construction of the Devil Creek Reservoir. Attached hereto as Exhibit C is a copy of the "Proof of Application of Water to Beneficial Use", based upon which License No. 15-02081 was issued.

Water from Right No. 15-02081 is also stored both in Devil Creek and Crowther Reservoirs. Water is diverted from Devil Creek at the "D.L. Evans Diversion" located in the SW1/4 SW1/4, Section 35, Township 13 S., Range 36 E., B.M., into the "Reservoir Diversion Ditch" which transports water in a southwesterly direction to St. Johns Reservoir, or remains in the natural drainage of Devil Creek which runs in a southerly direction to Crowther Reservoir.

6. There are no other water rights along Devil Creek drainage other than the Company's, except in the lower reach of New Canyon. The Company diverts all water flowing in New Canyon into a ditch near the mouth of the canyon which transports the water to Devil Creek. In the lower reach of New Canyon below the Company's diversion, water arises from springs and seeps into the New Canyon drainage where it is diverted and used by approximately three other users who are believed to hold rights pursuant to a private decree for irrigation purposes during the normal irrigation season. Return flows and winter flows in the lower reach of New Canyon are also stored year round in the Company's reservoirs described above.

7. There are no minimum stream flow requirements in Devil Creek or any of its tributaries. There are no minimum pool requirements on St. Johns or Crowther Reservoirs, although the Company does voluntarily maintain minimum pool levels to enhance fisheries and public recreation. Devil Creek Reservoir has a minimum pool requirement of 300 A.F.

8. On March 4, 1982, the Company filed a "Claim to a Water Right", under the provisions of Section 42-243, Idaho Code, pertaining to water naturally flowing in Birch Creek and stored in St. Johns Reservoir, a copy of which is attached as Exhibit "D". As indicated on page 2, this claim and the \$30 filing fee was receipted for on March 8, 1982, by the Department's employee initialed "CW", whom we have since been advised was Colleen Wray, the secretary/receptionist in the Department's Idaho Falls Office at that time. For reasons unknown, we are informed the Department has no record of this claim which apparently was not assigned an identifying number, published or processed, even though it was filed well before the 1988 cut-off date.

This claim appears to have been lost and not published or processed by the Department due to neglect or oversight. Accordingly, the Company requests that this claim now be accepted, filed and processed by the Department.

9. The Company has recently been informed by the Department that its records do not reflect the Company's water rights in Devil Creek which are stored in Crowther Reservoir. The Company's water rights in Crowther Reservoir are acknowledged in the remarks which are part of Water Right Nq. 15-02081, Exhibit C attached. To confirm and clarify the Company's water rights in Devil Creek and Crowther Reservoir, the Company's claimed rights in Crowther Reservoir are set forth in the Department's Form 202 "Application for Permit" attached hereto as Exhibit "E". The place of use is the same described in the "Land List Attachment" attached to the Application for Permit, Exhibit E attached. The Company requests that the Department properly file and process this Application for Permit pertaining to Devil Creek and Crowther Reservoir.

10. The Company will promptly respond to any inquiries and provide such additional information as may be requested by the Department upon filing, review and processing of this Affidavit and the attached exhibits.

DATED this 5 day of January, 1998.

Identification No. _____

Permit No. R 622

STATE OF IDAHO

New number 29-2559

DEPARTMENT OF RECLAMATION

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. a) Name of Permit Holder Malad Valley Irrigating Company, Inc.
b) Post Office Address 64 W 400 N., Malad, Idaho 83252
2. ~~Permit Number~~ R-682 (New Number -29-2559)
~~3. A right to decreed waters from Devil Creek and tributaries 1892 addition~~
3. Date of Priority that you are prepared to establish All water rights Devil Creek & tributaries 1892
4. a) 3/4 flow of Birch Creek also known as Mill Creek, and all flood waters
~~Source from which water was appropriated run off impounded in reservoirs~~
b) Location of the point of diversion: N5 SE4 Section 27
Township 12 S. Range 36 E. Boise Meridian, Other points of diversion: _____
water carried in channel of Devil Creek a distance of approximately 19.75
is to several points of diversion located along stream channels.
5. a) The amount of water and use to which the water has been applied:
amount 40 cfs for irrigation purposes from 4/5 to 10/1 incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)
amount 30 cfs for irrigation purposes from 10-2 to 1-15 incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)
amount 35 cfs for irrigation purposes from 1-16 to 4-4 incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)
b) Total amount appropriated 40 cfs cfs and/or acre feet per annum
c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: Bureau of Reclamation
6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:
a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use: _____
b) Describe the agreement or understanding by which you take water from the works: _____
7. a) Briefly describe the works for diverting and conveying the water to the place of use, (If from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) canal carrying water approximately 19.75 miles to points of diversion.
Main diversion dividing water between Bannock & Oneida County,
b) Describe the type and size of measuring device which you have installed at your point of diversion: Concrete structure 5 - 6 feet high with slots in side of stilling box. Other diversion are concrete, with measuring devices which permits various amounts of water to be diverted into different ditches. (See remarks attached).
c) Give well drillers name and address and date the well was completed None.

[illegible]

Remarks:

The main diversion diverts water into Devil Creek channel which runs into the Devil Creek Reservoir, where the water is stored. Live water and storage water, during irrigation season, is distributed to the stockholders by means of diversion from the company's ditches to the individual owners.

The main diversion, after the water comes out of the reservoir, is what is known as David E. Evans diversion. The next diversion is the Jensen diversion, followed by the D. L. Evans diversion, at which point water is diverted in several directions; one goes to the St. Johns Reservoir and from the reservoir to the company's diversion where water is distributed south to the Robert Ross diversion, where water is distributed to the east, west to individual ditches approximately 3 miles and south to individual ditches approximately 4 1/2 miles.

Also from the D. L. Evans diversion, water is distributed down the main channel into Crowthers Reservoir. From Crowthers Reservoir, after leaving the reservoir, water is distributed to the west and south; south to Samaria Lane diversion where water is diverted in two directions, west and south.

Also from the D. L. Evans diversion, water is distributed south to the Parry Jones diversion. From Parry Jones diversion, water is distributed on the east side of the old channel to David E. Jones diversion, and South from the Parry Jones diversion to the Harvey Jones diversion, where it is distributed to individual users and also south from Harvey Jones diversion to the Zundel diversion, which is the end of the company ditches.

When referring to the St. John Reservoir and Crowther Reservoir, these are reservoirs owned by Malad Valley Irrigating Company, Inc..

EXHIBIT "D"

[illegible]

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

1. Name of Applicant Malad Valley Irrigation Company Phone _____
Mailing address c/o President Grant Jones, 2601 W. 500 S., Malad, ID 83252
2. Source of water supply Devils Creek which is a tributary of Malad River
3. Location of point of diversion is Township 14 S. Range 36 E. Sec. 16 / 6 in the NE 1/4, SW 1/4, _____ 1/4, Govt. Lot _____, B.M., _____ County;
additional points of diversion if any: (Crowthers Reservoir Dam)
4. Water will be used for the following purposes:
Amount 1053 AF for Storage for Irr. purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount 1053 AF for Irr. from Storage purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) _____ and/or (b) 930 A.F.
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source: Earth filled dam, vertical control outlet gate and 22' outflow pipe
 - b. Height of storage dam 102 feet; active reservoir capacity 1053 A.F. acre-feet; total reservoir capacity 1053 acre-feet
 - c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet
 - d. Is ground water with a temperature of greater than 85° F being sought? _____
 - e. If well is already drilled, when? _____; Drilling firm _____
Well was drilled for (well owner) _____; Drilling Permit No. _____
7. Time required for completion of works and application of water to proposed beneficial use is * years (minimum 1 year) completed 1948
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in KW. _____
 - b. Stockwatering; list number and kind of livestock. _____
 - c. Municipal; show name of municipality. _____
 - d. Domestic; show number of households. _____
 - e. Other; describe fully. _____

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols. (SEE ATTACHED)

Re: *Malad Valley Irrigating Company*

Dear Harold:

On behalf of Malad Valley Irrigating Company ("MVI"), I am enclosing the following for filing and processing:

1. Application for Permit pertaining to the Crowther Reservoir water rights, together with MVI's \$288 check for filing fees.
2. Affidavit of Water Right Claims.
3. Copy of Claim to a Water Right.

Based on the Affidavit, please process the Application and file the claim as part of the Department records effective as of 3/8/82 based on the indicated receipt by Coleen Wray. Thank you.

Sincerely,

RANDALL C. BUDGE

RE: Notice of Application for Permit No. 15-07167 and
Notice of Claim to a Water Right No. 15-04203

Dear Applicants:

This office is currently in the process of advertising the applications statewide and in the Idaho Enterprise on FEB. 05 & 12, 1998. The advertisement will be published once a week for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the applications are protested, you will be sent a copy of the protest. The protest must be resolved before the applications are approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor

HWJ/rb

NOTICE OF APPLICATION FOR WATER RIGHT
No. 15-07167

The Following application(s) have been filed to appropriate the public waters of the State of Idaho:

MALAD VALLEY IRRIGATION CO
C/O PRESIDENT GRANT JONES

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 15-07167

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Attention: Harold Jones

900 N. Skyline Drive

Idaho Falls, Idaho 83402

RE: *Malad Valley Irrigating Company*

Dear Harold:

Enclosed please find the Proof of Beneficial Use pertaining to Permit No. 15-07167 which we are submitting on behalf of Malad Valley Irrigation Company, together with our check in the amount of \$125 for filing fees. Please process the same and issue a license. The license may be mailed directly to Malad Valley Irrigation Company c/o Grant Jones, President, at 2601 West 500 South, Malad, Idaho 83252. Please send a copy to me simultaneously for my file.

If you have any questions or if I can be of further assistance, please advise.

Sincerely,

RANDALL C. BUDGE

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 15-07167

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary, Water Allocation Bureau
