Boise, Idaho, February 1, 1911

Dear Sir:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 6124

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which it is to be submitted, which proof MUST be on or before **May 21, 1911**

Upon receipt of this blank properly filled out, notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Sir:-

In reply to your letter of the 10th inst. relative to above permit would say that it will be necessary to have the water commissioner's report on the completion of works before the proof could be accepted.

A special trip, however, need not be made at present as the holder has been notified that it will be necessary for him to re-advertise his notice of proof as J. Z. Stewart, before whom proof was to have been taken, is not a notary public of Idaho. The date for making the proof will, therefore, have to be set farther ahead.

Dear Sir:

I am in receipt of your favor inclosing an application for Extension of Time to complete the work according to the Permit granted, but the work was completed on time, but owing to a misunderstanding the proof was not made on time.

Hon D. G. Martin wrote me under date Feb. 1st 1911 as follows: "The proof may be submitted at any place convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths."

Under this instruction I arranged to make proof before J. Z. Stewart, N. P. at Logan, Utah, and it delayed the proof and proved to be illegal as the place and also the officer were not in the State of Idaho, but I cannot now make affidavit that the work was not completed within the time required, so I have changed the wording of the application so to make it state the facts, trusting this will be satisfactory to you.
Very respectfully,
Garry Barker
