RECEIVED
NOV 13 1953

Dear Mr. Kulp:

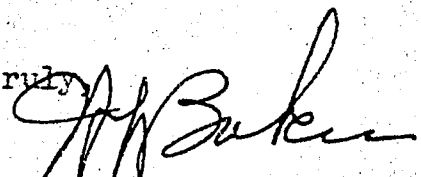

I was issued a Permit numbered G-24337 under date of August 15, 1953 to drill a well in Section 12, Township 15 South, Range 33 East, Boise Meridian.

Since that time, I have spent approximately \$6000.00 drilling the well mentioned in the permit. The results were that we were not able to find sufficient water to justify the installation of a pump.

I would like to drill another well in approximately the same area covered by my original application, but will be approximately a mile and a half East of the well mentioned above. I was wondering if I could drill the new well under the original application and retain the priority date of this application, or, must I make a new application for the new operation?

Thanking you, I remain,

Very truly,

Gentlemen:

Mr. W. L. Baker received your letter advising him of the date, August 8, 1958, for proof of completion of works and application of water to beneficial use.

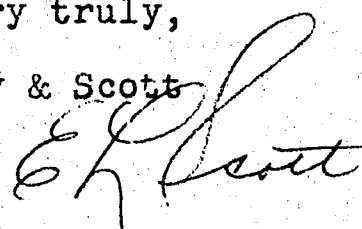

Mr. Baker has asked me to write to you people and ask for an extension of time within which to make such proof. Mr. Baker has had one well drilled and a quantity of water obtained, but since then has been in the process of having another well drilled to increase the supply of water, but this possibly may take another year for completion. If you have formal application blanks for obtaining an extension of time within which to make this proof, please send me the necessary forms; otherwise please indicate what information you will need in order to grant the extension of time.

Also, Mr. Baker wishes to make an amendment to the lands to be irrigated under the terms of the above permit. Please send me necessary blanks to accomplish this purpose also.

Thanking you kindly, I remain,

Dear Mr. Crowther:

In reference to your letter of September 21, 1970, our records indicate two permits under the name of W. L. Baker. Permit No. G28065/17-2045, copy of which we are enclosing, is still awaiting a field examination to be conducted by the department. Another complete filing is Permit No. G-24337/17-2028, which has been perfected into a water license, copy of which is enclosed. These may assist you in answering your question concerning the status of the water right.

We are not able to process an assignment in connection with a water license. Any real property characteristics are appurtenant to the property described in the license. Therefore, whoever holds good title to the property will control the water license. We may process an assignment in connection with a permit that is not yet licensed. If you wish to submit an assignment, we will be glad to process it for you. We are enclosing an assignment form for your use, if you so desire.

If we may be of any further assistance, please advise.

-Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

O Dear Mr. Crowther:

We are returning the two assignments which you submitted to our office. Before we can accept and record the assignment of Permit No. 17-2045, it will be necessary to have the notary public place his seal on the assignment.

P Permit No. 17-2028 was licensed on October 23, 1958. Once a water permit has been licensed, it becomes appurtenant to the land and passes with the conveyance thereof. The owner of the land owns the water right. We do not keep a record of changes of title of licensed rights. If you wish, we can place the assignment in the file for reference purposes only.

As soon as we receive the assignment of Permit No. 17-2045 with the proper notary seal, we will record it and return a copy to you.

Together with all and singular the buildings, structures, fences, pipes, pipe lines, tanks, dams, reservoirs, pumps, pumping equipment and all other improvements and fixtures now or hereafter on or in said property, and any and all water and water rights, ditches and ditch rights, flumes, aqueducts, canals, appropriations, franchises, and all other rights and privileges owned by the Mortgagor, or belonging to, or with, leading to, connected with, or usually had or enjoyed in connection with the said property, or any part thereof, whether or not hereinabove expressly mentioned or described, and all and singular the tenements, hereditaments and appurtenances thereto belonging, or in anywise appertaining, and the rents, issues and profits thereof: To have and To Hold unto the Mortgagee, its successors or assigns, forever.

The condition of this conveyance is such that:

This Mortgage is given to secure the payment of a promissory note bearing even date herewith in the principal sum of ONE MILLION FOUR HUNDRED TWENTY-FIVE THOUSAND AND 00/100 Dollars, executed by the Mortgagor and payable to the Mortgagee at its Home Office in instalments, the last of which shall be due and payable on November 1, 1994, with interest on said principal sum and on all unpaid balances thereof, all as provided in said note;

And Whereas, the Mortgagor has covenanted and agreed, and does hereby covenant and agree to and with the Mortgagee as follows:

That he has a valid and unencumbered title in fee simple to said property and all improvements thereon and has the right to convey the same; that he will not suffer or permit said property to become subject to any lien or encumbrance that shall have precedence of this Mortgage; that he will render such further assurance of said title as may be requested by the Mortgagee; that he will warrant and defend said title unto the Mortgagee against the claims and demands of all persons whomsoever; and that he will pay all of said sums of money specified in said note, promptly as they become due and all taxes, assessments and other charges that may be levied or assessed on said property and all taxes that may be levied or assessed upon this Mortgage or to the holder of said note on account thereof, when and as the same shall become due and payable;

That he will keep the buildings and other improvements now or hereafter located upon said property constantly insured against loss or damage by fire and windstorm and against such other hazard or hazards as may reasonably be required from time to time by the Mortgagee, in a company or companies approved by the Mortgagee, and cause all policies of insurance to be so written that the loss, if any, covered by said policies, shall be paid to the Mortgagee, or its assigns, as their interests may appear, and deposit with the Mortgagee all of said policies, and that the Mortgagee may, at its option, renew or procure all required insurance upon said property, in any sum not exceeding the insurable value thereof, and the Mortgagor agrees to pay all premiums therefor;

That he will keep the buildings upon said lands continuously occupied and used, and will not permit the same to become vacant during the continuance of this Mortgage; that he will keep all improvements on the property in good repair;

Now, therefore, if the Mortgagor shall pay all and every sum of money specified in said note, and shall in all other respects fully carry out and comply with the covenants herein set forth and enumerated, this conveyance shall be void. But if the Mortgagor shall fail to pay any of said sums of money as specified, or any insurance premiums as hereinabove set forth, or any taxes, assessments or other charges of any nature whatsoever, due or to become due upon the property hereby conveyed or upon any of the water rights hereby mortgaged, or in any other respect shall fail to comply with any of the covenants and agreements herein or in said note set forth, then, as often as such failure of payment or breach of covenant shall occur, the Mortgagee may at any time thereafter declare the whole of the principal sum, or so much thereof as at the time of such declaration may remain unpaid, with all unpaid interest accrued thereon, together with all sums with interest accrued thereupon paid by the Mortgagee under any agreement contained in this Mortgage, to be at once due and payable, and the Mortgagee may at any time after such failure of payment or breach of covenant, as aforesaid, proceed to foreclose this Mortgage and to compel payment to be made of the full amount due and payable.

The Mortgagor hereby further expressly agrees that if he shall fail to pay any taxes, assessments, insurance premiums or other charges payable by him as hereinbefore agreed, as and when the same shall become due and payable, or suffer said property to become subject to any lien or encumbrance having precedence to this Mortgage, as hereinbefore provided against, the Mortgagee may, at its option, make payment thereof and the amounts so paid, with interest thereon at the rate of 16 per annum, shall be added to and become a part of the debt secured by this Mortgage, without waiver, however, of any rights of the Mortgagee arising from the breach of any of said covenants.

In the event suit is instituted to foreclose this Mortgage, the Mortgagee may recover therein as attorney fees such sum as the court may adjudge reasonable in addition to the costs and disbursements allowed by the Code of Civil Procedure of the State of Idaho, together with the cost of any abstract of title or evidence of title procured and used in such proceeding and covering said property.

The Mortgagor agrees that in the event suit is instituted to effect such foreclosure, the Mortgagee shall, as a matter of right and without regard to the sufficiency of the security or of waste or danger of misapplication of any of the properties of the Mortgagor, be entitled forthwith to have a receiver appointed of all the property hereby mortgaged, and the Mortgagor hereby expressly consents to the appointment of a receiver by any court of competent jurisdiction and expressly stipulates, covenants and agrees that such receiver may remain in possession and control of the mortgaged property until the final determination of such suit or proceeding.

The rents, royalties, bonuses and benefits under any existing and/or future oil, gas or mineral lease of any of the property hereby conveyed are hereby assigned to the Mortgagee as additional security for the payment of the indebtedness hereby secured. The Mortgagor shall have the right to collect and retain such rents, royalties, bonuses and benefits until default hereunder or under the note hereby secured. In case of any such default, the Mortgagee is hereby granted the unconditional right and power, at its option, at any time while such default remains outstanding, to demand, receive and collect such rents, royalties, bonuses and benefits and apply same toward payment of the indebtedness hereby secured. The Mortgagee shall not be bound hereby to demand, receive or collect any of such rents, royalties, bonuses or benefits, and shall not be responsible for failure to exercise the rights hereby granted. Failure of the Mortgagee to exercise such rights after the happening of a default shall not be construed as a waiver of such rights in the event of a subsequent default.

The Mortgagor hereby further agrees, upon request by the Mortgagee, to assign to the Mortgagee, as additional and collateral security for the payment of the indebtedness hereby secured, any and all leases of the mortgaged property, or any part thereof, hereafter made, and that no such lease shall be assigned to any party other than the Mortgagee without first obtaining the written consent of the Mortgagee to any such assignment.

Mortgagor further covenants and agrees to comply with all federal, state and local laws and regulations with regard to the protection of the environment, including, without limitation, both Federal and State Air and Water Quality Standards and Noise Abatement Regulations and local zoning ordinances.

The Mortgagor hereby further mortgages, assigns and transfers to the Mortgagee all of his right, title and interest in and under the following described leases, permits and allotments, to-wit:

together with all renewals thereof and together with all buildings, structures, fences, windmills, pumps, pumping equipment, pipes, pipe lines, wells, tanks, dams, reservoirs and other improvements of every nature and description, now or hereafter located on the lands covered by said leases, permits or allotments, or any part thereof, and all water and water rights located thereon or appurtenant thereto. The Mortgagor covenants that he is the lawful owner and holder of said leases, permits and allotments and that the same are free from encumbrance and have not been assigned; that he will procure renewals thereof upon or prior to the expiration date thereof and execute any instrument deemed by the Mortgagee necessary to effect an assignment or waiver of such renewals to the Mortgagee; that he will pay all rents and other charges and perform all acts and things necessary to preserve and keep in good standing all of said leases and permits and any renewals thereof; that he will take no action which would adversely affect any of his rights or his preference status thereunder and that in the event of the foreclosure of this Mortgage, he will waive all claims for preference in any such rights upon demand from the purchaser of the mortgaged property at foreclosure sale or any successor to such purchaser; that the lands covered by said leases, permits and allotments and renewals thereof, shall at all times be operated in conjunction with the lands hereby mortgaged and that neither shall be transferred to any other person separately from the other; and that, in case of the failure of the Mortgagor to pay all rents and other charges payable under the terms of any of said leases, permits or allotments, the Mortgagee may, at its option, make payment thereof and any amount so paid, with interest thereon at the rate of 16 per annum, shall be a part of the principal debt, and shall be secured by this Mortgage and a lien on the fee owned property hereby mortgaged.

The Mortgagor further covenants and agrees that in the event title in fee simple to any of the lands covered by the aforesaid leases, permits or allotments shall hereafter be acquired by the Mortgagor, it is understood and agreed that such lands shall, upon such acquisition, become subject to the lien of this Mortgage to the same extent as though such lands had originally been included herein as part of the fee owned lands hereby mortgaged, and, further that all of the terms, covenants, conditions, and stipulations of this Mortgage applicable to the fee owned lands hereby mortgaged, shall extend and be applicable to any such lands hereafter so acquired.

It is mutually understood and agreed that all words used in the singular number in this Mortgage shall be deemed to include the plural and the masculine gender shall include the feminine and/or neuter, as the context may require. It is further understood and agreed that all of the provisions hereof shall extend to and be binding upon the Mortgagor and the heirs, devisees, personal representatives, successors and assigns of the Mortgagor, and shall inure to the benefit of the Mortgagee, and its successors or assigns.

Dear Ms. Hopkins:

Our office acknowledges receipt of Assignment of the above referenced water rights. However, in reviewing the files I find that the water rights are Licenses.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant is purchased. Proof of owning the land is proof of owning the water right license.

Therefore, I have put the Assignment into the files for future reference only and no other action will be taken. I have also enclosed copies of the Licenses for your records.

If you have any questions please feel free to contact our office.

MEMORANDUM

TO: FILE NOS. 17-02028, 17-02030, 17-02045 & 17-07007

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4993

DATE: August 26, 1997

=====

Transfer No. 4993 adds 4 existing and 1 new point of diversion, and changes the place of use under Right Nos. 17-02028, 17-02030, 17-02045 and 17-07007 to reflect a combined pivot system and permissible place of use.

Review of the licensed rights found a point of diversion overlap between Right Nos. 17-02045 and 17-07007 limiting their combined rate of diversion, and partial place of use overlaps between these same junior rights and 17-02028 limiting the total combined acres.

The transfer describes a permissible place of use of 1230 acres, reducing the total licensed acres by 111. The total combined licensed acres of 1341 has probably been changed and reduced over time as changes to the system occurred. The original license was issued in 1958 using flood irrigation and most recently 3 pivots were found in use under the two junior rights licensed in 1982. At any rate, the applicant wants to concentrate the use of these 4 rights on the 1230 described acres.

The transfer describes the way the water is used in the new fully combined, integrated pivot system serving 1230 acres. The combined rights provide 0.0134 cfs/acre and the full irrigation volume requirement of 3.5 af/acre.

Season of use and diversion volume were adjusted to current standards. Recommended conditions include permissible place of use, combined right limits, acre reduction, multiple points of diversion & measuring devices, irrigation overlap and standard transfer conditions.

Re: Loan 205925-0 Duffin
Water Rights

Dear Mr. Jones:

I have received the Application for Transfer of Water Right in connection with the above referenced loan. As I understand, it is Mr. Duffin's intent to consolidate the points of diversion due to the installation of a new well. Because this property is collateral for a loan to the Duffin's by The Travelers Insurance Company ("Travelers"), Idaho Department of Water Resources requires Travelers' approval for this change to occur. Travelers hereby consents to the combination of all points of diversion and the addition of a diversion point as specified in the attached application.

If you need further information or have questions, please feel free to contact the Account Manager, Lynn Longo at (860)277-0821.
