Mr. Vernal Halder
Holbrook
Idaho

Dear Mr. Halder:

We are in receipt of an Application for Permit to Appropriate Subterranean Waters of the State of Idaho filed by you and received as of May 15, 1956.

Your Application states that you wish to file on 6 second feet of water which would be 300 inches for 80 acres of land. Providing 80 acres is all you have to irrigate from said well it will be necessary that we reduce your amount of filing to 1.6 second feet or 80 miner's inches of water as we cannot grant any more than 1 inch per acre according to the statutes.

We are returning your check made out to the amount of \$6.25 and will request that you substitute one for the correct filing fee which is \$5.25.

Providing you have more land that you could water from said well please let us know giving the exact location, land description, etc., and the amount of fee can be based on \$5.00 for the first second foot filed on and 25¢ for each additional second foot or fraction thereof.

We will await your reply before processing your Application.

Very truly yours,

Re: Permit No. G- 26380

Date: March 31, 1961

Vernal Nalder
Holbrook, Idaho

Dear Mr. Nalder:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26380 are due not later than June 4, 1961.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

RE: Permit No. C-26380

Vernal Walser
Holbrook, Idaho

Dear Mr. Walser:

Returned herewith are two Forms 36 and one Form 11 you submitted to this office. Also enclosed is a form for amending the land list.

Under 5 you show the place of use of the water as the NE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36, Township 14 South, Range 32 East. Our record of your permit shows the place of use as the E $\frac{1}{2}$ NE $\frac{1}{4}$ of said Section 36.

We must have the amendment to the land list, properly completed, to show the new location of the point of use of the water or the second line of your description should be crossed out and E $\frac{1}{2}$ NE $\frac{1}{4}$ inserted.

Prompt return of the two Forms 36 and one Form 11 with the amendment to the land list, if it is necessary, should reach this office so the date of making the proofs will not have to be changed.

There is a recording fee of \$1.00 for an amendment to a permit which should accompany the form.

Re: Permit No. G-26380

Vernal Walder
Holbrook, Idaho

Dear Mr. Walder:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Idaho ~~Enterprise~~, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-26380

Vernal Nalder
Holbrook, Idaho

Dear Mr. Nalder:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26380 shows the well is (are) capable of conveying 35 miner's inches, or .70 c.f.s. of water for the irrigation of 80 acres.

Upon receipt of the statutory fees, totaling \$9.00, which consists of a Completion of Works fee of \$5.00 and License and Certificate of Water Right fee of \$4.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of May 15, 1956 to the use of 70 second feet of subterranean water with the point of diversion in the NE 1/4, Sec. 36 for irrigation of 80 acres in the ENE 1/4, Sec. 36, T. 14 S., R. 32 E., B.M.
