Dear Mr. Anderson:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Idaho Enterprise, all submitted in proof of completion of works and beneficial use on Permit No. G-27609.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Gentlemen:

We are in receipt of your letter of April 5th to Mr. Steven A. Meek of The Federal Land Bank of Preston, Idaho.

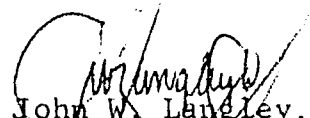

Approximately three years ago our bank purchased all interest in and to the property then owned by Mr. Victor Anderson of Stone, Idaho. The remaining balance of the contract then outstanding with the State of Idaho has been paid in full by our bank and deeds have been issued wherein the property was conveyed to us.

We are enclosing herewith our check for \$15.00 as per the instructions in your letter, in payment of the delinquent fees covering a license to be issued on the well located on the subject property.

We shall appreciate your issuing a license on the well direct to Box Elder County Bank, Brigham City, Utah. We trust this arrangement is satisfactory with all parties concerned.

Thank you.

Gentlemen:

We are in receipt of the "tear sheet" in connection with the above mentioned transfer of water right.

We wish to make a change in the first paragraph to read as follows: "authorizing him to change the place of use" from "authorizing 3.45 to change the place of use."

We trust this may be taken care of in the next issue.

I am writing for application to use water on the land I traded for after buying my property, instead of the property set forth in the original application. I am enclosing the Permit map pg B-27609 on which I have shown the land traded. Traded were the A acres for the B acres. This trade was made so that I could have a shorter main line to sprinkle irrigate. I will still have the same amount of land to irrigate.
