CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Dear Sir:

We are filing this water claim in order to assure an adequate water supply for our Sheep Creek Spring Pipeline. The spring was first developed in 1958 when license #D 1113 was issued for .05 cfs. Since that time the pipeline has been expanded and water use by livestock wildlife, and recreation has increased to .276 cfs. Although the pipeline was finished in 1970 the water rights were never amended to include the greater amount, until we noticed the water right application #17-7097 by Jerry D. Bush on Sheep Creek. We are concerned that this filing could adversely affect our water supply if granted as is.

If there is ample water at Mr. Bush's point of diversion after our water demands have been met, we will have no problem, otherwise we must protest his application in order to protect our interests.

Sincerely yours,

for. [Signature]
