Dear Mr. Scott:

We are herewith returning the application for permit that you have submitted in the behalf of Victor Anderson, and Mr. Anderson's personal check #97-97 in the amount of \$30.00. We find in reviewing this application that we will need some additional information before we can consider it for approval. Since it is on one of our old application forms, we have taken the liberty of re-typing it for your convenience. Please note under item 3a, of the new application, that we have listed the point of diversion as being the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 5, Township 16 S, Range 30 E, as this is the way it appears on the map on page three of the original application. We have also changed the quantity under item 4a to 2.77 cubic feet per second, as under normal conditions, the department could approve only 0.02 cubic feet per second per irrigated acre.

As soon as you have made these necessary clarifications, and re-submitted the application, we shall begin its processing.

If we may be of any further assistance in this matter, please feel free to contact us.

Dear Mr. Anderson:

One of the conditions of approval of your water Permit No. 17-7010 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Anderson:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

We note that in reviewing this proof affidavit you indicate that you have not installed a measuring device as required by the conditions of approval of your permit. This measuring device must be installed by the time our examiner makes the exam or your water rights cannot be confirmed by the issuance of a license. We are enclosing a list of the types of measuring devices approved by this office.

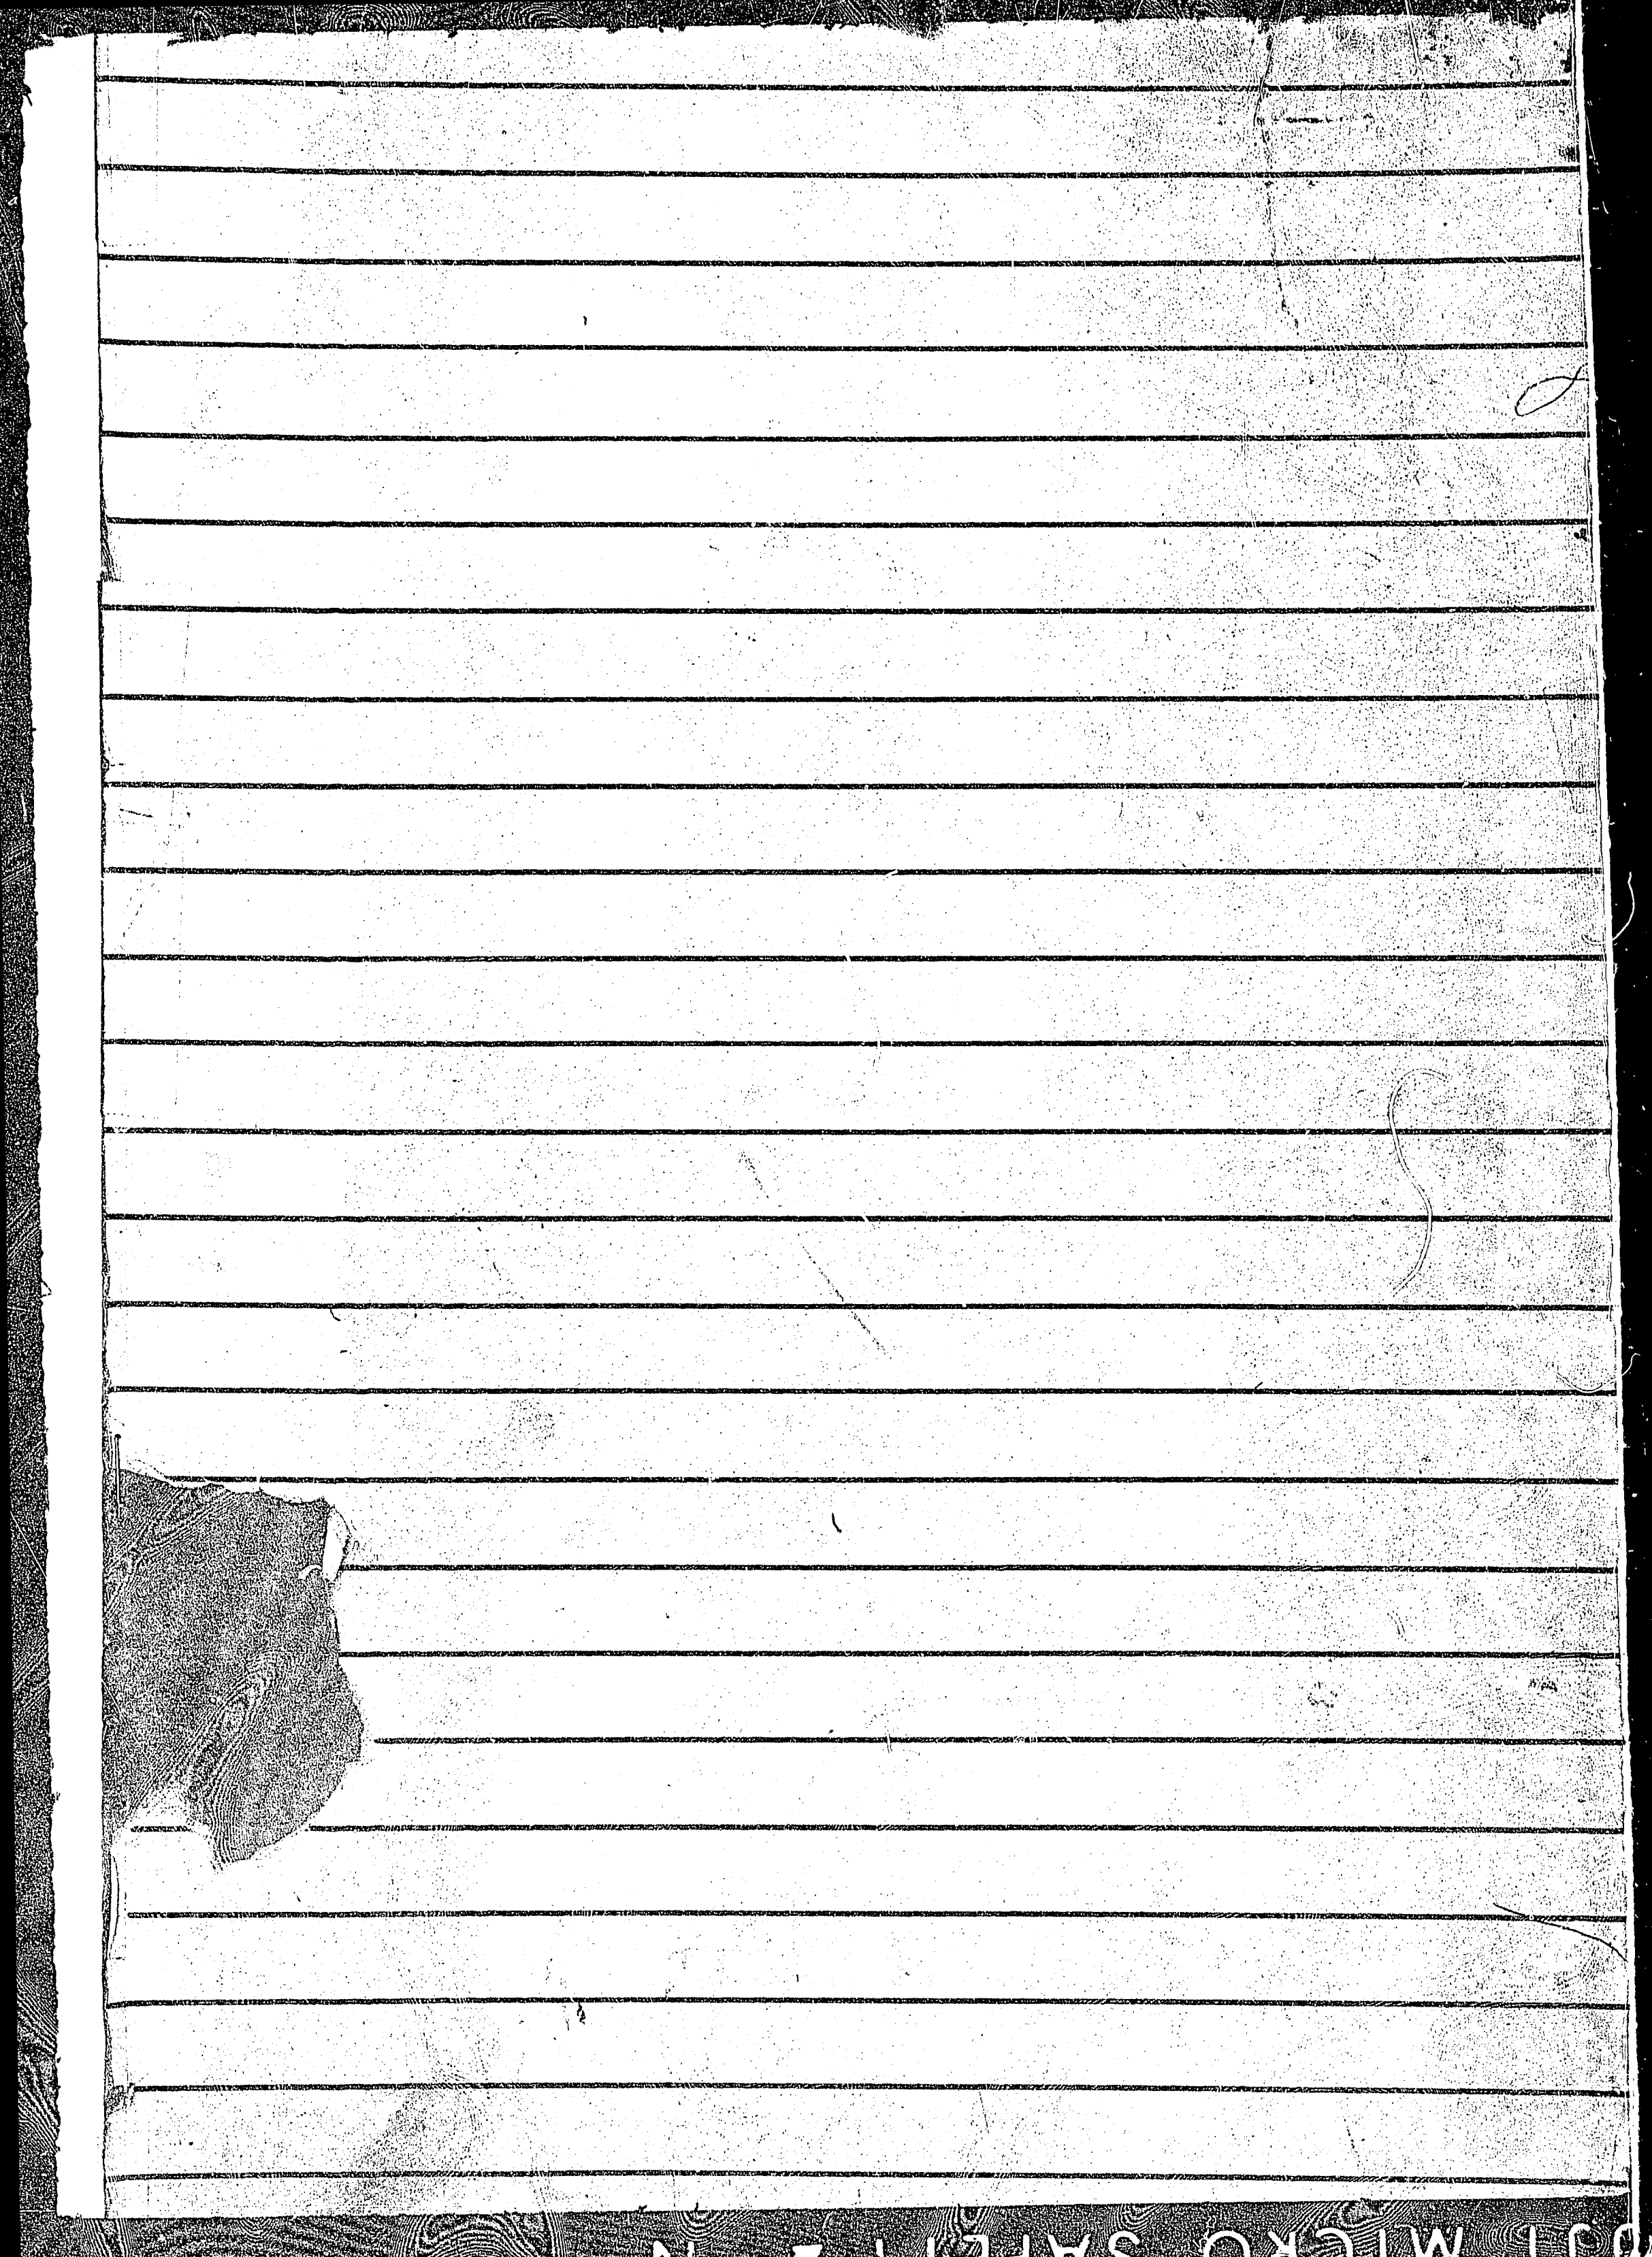

If you have any questions regarding the field exam, please contact our Eastern District Office.
