Gentlemen:

This office has received an amendment application for permit 17-7026 and a proof affidavit for permit 17-7065. We wish to advise you, however, that these items cannot be processed until such time as the permits are assigned to you by Blaisdell Bros., Inc.

We have enclosed two partially completed 'assignment of permit' forms for your use in securing the needed assignments. Please have the forms executed by the Blaisdell Brothers and returned to this office as soon as possible.

You should also be aware that before we could accept the proof affidavit for permit 17-7065, we will require information regarding the type of measuring device installed at the point of diversion.

If you have questions regarding the above matters, please do not hesitate to contact us.

Dear Mr. Fleenor:

In regards to the assignment of permit which we have been required to obtain from Blaisdell Bros., Inc. Our lawyer had informed us that we did not need these since we obtained the entire corporation with all rights, but after speaking with you on the phone we have them signed and are enclosing them.

In the matter of permit # 17-7065, we have a water meter installed on this point of diversion. It is a Rockwell Flow Control meter which measures acre ft.

In our application for change of permit # 17-7026 we would like the amendment application and fee returned and we will refile at a latter date if it is determined a change is necessary nor that further development is impossible.

We appreciate your patience and apologize for the delay.

Gentlemen:

We acknowledge receipt of the assignments whereby Blaisdell Bros. convey the above referenced permits to you. The assignments have been recorded and the Department's records changed accordingly.

We have processed the proof affidavit submitted in March of this year under Permit 17-7065. Before a license can be issued, however, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system. Should you have questions regarding the exam, please contact our regional office at 1515 Lincoln Road, Idaho Falls, Idaho.

Pursuant to your request we are herewith returning the application for amendment submitted in connection with Permit 17-7026. The \$10.00 filing fee will be returned to you in the near future under separate cover.

If this office can be of assistance at any time, please do not hesitate to contact us.

Permit No. 17-7065

OUR FILE

FEB 23 1978

Department of Water Resources
Eastern District Office

Dear Sirs;

Due to a lack of understanding on our part we feel that we made a premature request for a license of water right on permit no 17-7065. It was our understanding at the time that it was necessary for us to make this request when we started to divert water for beneficial use even though the first well was not of sufficient size to fill the permit. We have since developed another well and the combined total still does not fill the permit and our intention was to drill another well which would probably be sufficient for this permit.

At this time we would like to request a temporary withdrawal of the Proof of Beneficial Use submitted 30th March 1976 on permit 17-7065 in order to more completely develop the water volume allowed on this permit.

Sincerely

RE: Withdrawal of Proof of Beneficial use on Permit No. 17-7065
DATE: March 8, 1978

It is apparent by Mr. Bird's letter that he was misinformed concerning when to file proof of beneficial use, which is entirely possible since Curlew Development Inc. was not the original permit holder. Since the proof was not due until October, 1980 and the Curlew Valley is a closed area for new permits, it is my recommendation the Department grant Mr. Bird's request and allow him to continue development within the time frame originally established by this permit.

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department.

A condition of approval of your original permit required the installation of a measuring device which, according to the proof card submitted by you, has not been installed. A measuring device must be installed and operating at the time the field examination is made. If a measuring device is not installed your permit may be subject to cancellation.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone at 525-7161 or in person in the third floor State Office Building, 150 Shoup, Idaho Falls, Idaho.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the Department, but you must within sixty (60) days of the date of this letter return to the Department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the Department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the Department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water right examiners will be available from this Department when examiners have been certified.

If your permitted use, in fact, has already been examined by the Department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the Department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following Department office:

2nd Amendment

Proof due in 1985 & submitted in 1985. - [Had attempted exams before but wells were not @ full capacity.]
Partial field exam had been completed - development funding & be complete. Now adding a 2nd P/D?

What about 2nd P/D from 1986 Amendment?

HAD two wells - one caved in; BIRD now wants to drill a 3rd well
How much time? Skip didn't know; He did say that they have a partial exam completed - can confirm # of acres.

Per Gary; We should confirm Ben. use before approving anything. Maybe applicant/BIRD should show what B/U is before we approve.

pebble; He agrees w/ Gary; IF we can confirm B/U, then we could perhaps provide Bird one additional year - similar to what we recommend for transfers.

RE: Application No. 17-07065

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Idaho Enterprise on 2-20 & 27-1992. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones

INTER-DEPARTMENT MEMO

TO: file 17-07065
FROM: Dennis Dunn

SUBJECT: field Exam
DATE: 28 May 92

I made a field exam in Feb 92 to confirm that the place of use had been developed
and that the wells were drilled. My exam agreed with a previous exam that had been
done by KCW; the place of use was fully developed and had been irrigated. AMD
