Dear Mr. Higginson:

I own an irrigation farm in the Curlew Valley, immediately west of Snowville, Utah, which has six wells irrigating 1900 acres.

We are deeply concerned about the drilling of water on your applications 17-7059 and 17-7071, immediately to the north of our area. We feel that the water table lies in jeopardy because of the recharge rates to which Idaho and Utah generally agree. Because of this, we protest these applications, at least until further studies are made. Our area now consumes that recharge rate.

If you have further information regarding this, I would appreciate hearing from you.

Sincerely,

D. B. Ozmun

Mr. D.B. Ozmun
c/o Crescent Cardboard Co.

Wheeling, Illinois 60090

Dear Mr. Ozmun:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Mr. Darwin A. Bowen

Dear Mr. Bowen:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 17-7071. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

RONALD D. CARLSON
District Engineer

NOTICE OF CONFERENCE

AND/OR HEARING

On October 16, 1975, Darwin A. Bowen filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On October 30, 1975, the Department received a protest against the approval of said application from D.B. Ozmun.

The Department has set the matter of protests for conference and/or hearing for Tuesday, December 2, 1975, at 1:00 p.m., in the County Commissioners office of the Oneida County Courthouse, Malad City, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 21st day of November 24, 1975.

Dear Mr. Bowen:

Re: Permit No. 17-7071

On January 21, 1986, you submitted a request for an extension of time in connection with the above referenced permit. The extension cannot be approved since Sec. 42-204, Idaho Code provides that only one extension of time can be granted based on due diligence. On December 17, 1980, the department granted such an extension.

The department recommends you submit proof of beneficial use (form enclosed) on the portion of the permit you have developed since the use is within the boundaries of the Curlew Valley Critical Groundwater Area and a new permit cannot be issued. It is important that you protect the existing permitted water right to the extent developed by timely submitting the proof of beneficial use.

Section 42-204, Idaho Code provides that you may request a hearing before the director in accordance with Sec. 42-1701A(3), Idaho Code or may seek judicial review pursuant to Sec. 42-1701A(4), Idaho Code.

If you have any questions, please feel free to contact the department.

RE: Permit No. 17-7071

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department.

A condition of approval of your original permit required the installation of a measuring device which, according to the proof card submitted by you, has not been installed. A measuring device must be installed and operating at the time the field examination is made. If a measuring device is not installed your permit may be subject to cancellation.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone at 525-7161 or in person in the third floor State Office Building, 150 Shoup, Idaho Falls, Idaho.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD; THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

1. Measurement Calculations

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

Pipe I.d. $\rightarrow$

$$\text{Actual manometer} \Rightarrow (7.981'')^2 (3.85 \times \sqrt{7.4'}) = 667.1 \text{ gpm} \left(\frac{\text{cfs}}{450 \text{ gpm}} \right) = 1.48 \text{ cfs.}$$

By using Actual calculation of 667.1 gpm, I will calculate a sprinkler bird psi. For my theoretical.

$$667.10 \text{ gpm} \div (4 \text{ wheel lines}) = 166.78 \text{ gpm} \div 32 \text{ birds} = 5.21 \text{ gpm/bird}$$

By using Rain bird model No. 3013W at 5.21 gpm the psi = 55 with a 5/32" nozzle.

$$\text{Theoretical} \Rightarrow \frac{(240 \text{ hp})(.9)(8.814)}{55 \text{ psi}(2.31) + 154'} = 6.77 \text{ cfs.}$$

b) Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (240)(3.5) = 840.0 \text{ AFA}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (1.48)(214)(1.9835) = 628.21 \text{ AFA}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 628.2 \text{ AFA}$$

c) Volume Calculations for Other Uses: NA

2. Overlap Review

a) Other water rights with same place of use: NA

b) Other water rights with same point of diversion: NA

c) Analysis: NA

RE: Permit No. 17-7071

Darwin A. Bowen
620 N. 600 W.
Malad, ID 83252

Dear Permit Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains all of the information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 30 days.

If you do not concur with these findings or if you have any questions, please contact us within the 30-day period.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

NAME OF PARTY DARWIN A. BOWEN

EMPLOYEE GARY SPACKMAN

RE: Flow rate for Licensing

The flow rate measured by the field examiner was noticeably low for the acreage irrigated. I called Mr. Bowen, and inquired if he felt the flow was too small, particularly since the exam indicated that he was not running all his lines. He stated that he generally runs only four lines instead of six lines because of a sand problem that develops at maximum diversion. Mr. Bowen did not feel a re examination was necessary.
