Re: Application for permit #17-7091 on Hide-a-Way Spring and
Application for permit #29-7447 on Knox Springs

Dear Ron:

Application #17-7091 is to appropriate approximately .05 cubic feet per second of water from Hide-a-Way Spring, a tributary to Deep Creek. Of this total appropriation, .01 cubic feet per second is for wildlife purposes and therefore, we recommend that this application will be approved.

Application #29-7447 is to appropriate .07 cubic feet per second of water from Knox Spring, a tributary to the Right Fork of Knox Creek. Of this total, .01 cubic feet per second is for wildlife purposes. We also recommend that this application be approved.

Both applications are for a small amount of water from springs of which one purpose is for water availability to wildlife. At certain times we feel that water availability can be a limiting factor effecting wildlife populations, and therefore, we recommend that these applications be approved.

Sincerely,
