PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 57-12010

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "Jean Hersley".

Good Morning Phill,

I've been in communications with Nick and Scott regarding development of permit 57-12010. This permit allows diversion of 0.20 cfs for domestic use and 0.06 cfs for irrigation use. The intent of the original application was 18 modular homes and 2 acres irrigation. Proof of beneficial use is due 12/01/2024. During the development period, domestic use was expanded from 18 modular homes to 24 modular homes. Irrigation is miniscule if at all. The Facility Plan and Preliminary Engineering Report estimated maximum peak hour demand for the 24 units at 62 gpm or 0.14 cfs, well below the authorized amount. Nick and Scott said this permit will likely involve a desktop licensing exam and suggested I send this email to you for the file since proof is due before possible approval of a permit amendment. The unit expansion could then be accounted for with a licensing amendment. Minimal irrigation, if any, can be evidenced by aerial imagery.

The permit holder is copied on this email and plans to include an email copy with the proof notice upon submittal. Thanks Phill.

Thanks for the notice. We can accommodate an amendment through the license process. Based on the number of

homes and the change you described it would probably be best to conduct an onsite examination. I will let staff know to look for the proof and we will determine the best action at that time.

Thanks Phil, that's what Nick and I were thinking too. We also figured if Lori just enclosed a short cover letter with the Proof statement explaining this and requesting an actual field exam, that would be enough for you guys at the State Office to catch that it shouldn't be an in-house.
