County parcel data shows the land at the point of diversion and place of use are owned by the applicant.

WATER RIGHT VALIDITY:

Water right 65-23233 was decreed November 11, 2000. The water right was leased to the water supply bank under Contract 1026 for a 5-year term starting in 2019 and ending in 2023. The application states that no diversions for this water right have occurred within the last 5 years, but during the 5-year term the right was leased to the bank forfeiture provisions were stayed so forfeiture is not a concern. No concerns with validity of the water right and portion offered to the bank.

ENLARGEMENT OF USE:

No additional water rights overlap the place of use or point of diversion. There are no enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The water right is within the Western region and also within Water District 65. Comment requests were sent to the Regional Manager and Watermaster on September 30, 2024.
