TO WHOM IT MAY CONCERN:

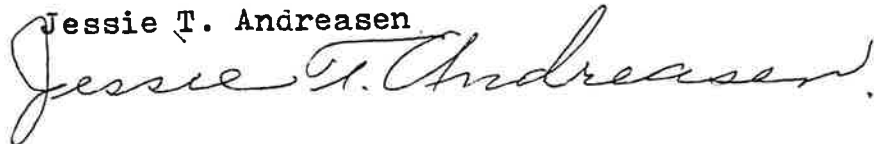

Prior to the summer of 1976, we, Owen L. Andreasen and Jessie T. Andreasen, were the owner-operators of tract of land, namely, NE $\frac{1}{4}$, NW $\frac{1}{4}$ - Sec. 9 - TSP 13 - Range 40 E. The Burton-Ransom springs are located on this tract of land and control and ownership has always belonged or been the property of the legal owner of such land.

In 1947, a culinary water system was completed. Water was piped from two of the springs into a holding tank, then distributed to four residences through a common distribution line for domestic purposes. This use of such water should continue. However, this water, any surplus water from these two springs, and water from the third spring and any additional hook-ups was controlled and owned by us. This control and ownership was transferred to Dee L. Andreasen and Etheleen L. Andreasen, husband and wife in 1976, by virtue of their purchasing this tract of land and we feel this "water right" should be established for them.

Owen L. Andreasen

Jessie T. Andreasen

As a previous owner-operator of part of the tract of land mentioned above, and being well acquainted with all the details of the matter, I verify the above and recommend the "water right" be established for Dee L. Andreasen and wife Etheleen L. Andreasen, present owners.
