---

Here's the claim list and associated fire pond related to the maps submitted with the original claims.

87-4064 – Fire Pond 2  
87-10059 – Fire Pond 3  
87-11962 – Fire Pond 4  
87-11963 – Fire Pond 5  
87-11964 – Fire Pond 6  
87-11965 – Fire Pond 7  
87-11966 – Fire Pond 8

Thanks

Travis

Good morning Travis,

I did receive the link, but was not able to access all the files. Rob then sent pdf attachments, but as detailed in my email below, they do not reference the specific claims you are submitting evidence for. That needs to be included with your evidence submission so we know which claims they pertain to. Additionally, the electronic notes tagged to those pdfs do not appear on the printed copies, which will be profiled into the claim record. If there are specific points of interest on the photos you want to bring attention to, it may be best to edit the pdf or physically mark it before scanning.

~Evan

---

Evan,

Did you receive the link and were able to open the files?

Travis

**Subject:** RE: Additional evidence - University of Idaho Experimental Forest PRBA claims

Not a problem Rob; I'm glad I followed up with you. All the emails with attachments you just sent do not reference the claim numbers associated with the evidence. In order to accept the evidence and document our receipt of it, we need to have the associated claim numbers with it. The associated claim numbers should be sent along with the evidence submitted.

Also, please keep in mind that the electronic notes added to those pdf documents do not appear on the printed copies, so if you are calling attention to specific locations, such as the ponds, its best to edit or physically mark the pdf with a circle or arrow pointing to what you are referencing. That way it can be printed and profiled into the claim folders.

Thanks,

~Evan

Hi Evan,

I apologize – I'm afraid I missed your earlier email. I thought it was the auto-email from Sharepoint/OneDrive.

I've just sent the 4 shared files as email attachments. I also see in your note that you need the corresponding claim numbers for each pond.

I am working with Travis to get those numbers and we will send them to you shortly. Thanks and I apologize for the delay,

Rob

Good afternoon Rob,

I have not yet received this additional evidence back from you for these claims, and just want to reiterate that the previously sent evidence was not received. Please send any additional evidence directly to our Northern Regional Office, or if being sent electronically by email, then in a readable PDF attachment. Be sure to reference the claim number associated with each evidence submitted.

Best Regards,

~Evan

Good morning Rob,

The format that evidence was sent over is causing some issues and not opening correctly. Would it be possible for you to just send those PDFs as attachments to an email? Also, for that evidence to be accepted, we will need to know which claims they are to be applied to. Please reference the pertinent claim numbers for each evidence submitted.

Thanks,

*Evan*

**Subject:** Additional evidence - University of Idaho Experimental Forest PRBA claims

Evan,

You should receive a link to a shared OneDrive folder that includes additional evidence for PRBA claims that Travis submitted for the University of Idaho Experimental Forest (UIEF). The files are annotated PDFs of color infrared (CIR) imagery acquired by the University in 1969.

These documents show that several of our claimed ponds were constructed and in use prior to 1971, in addition to other evidence we have provided previously.

As you can see in the notes, the CIR imagery acquisition did not include complete coverage of the UIEF. I believe Travis will be following up at a later time about Fire Pond 3, and possibly others, that were not part of the CIR acquisition area but were in use at the time.

Thanks for your continued help,

Rob
