Hi Alan,

I certainly do remember speaking with you about the association's water rights. It sounds like the board is wanting to move forward with claiming the license as it's currently licensed rather than as a municipal use. Not a problem at all. I have attached, for you, a Notice of Claim to a water right form which can be used to claim the association's water right. For your convenience, I have completed most of the form based on our conversations. I have also attached three maps that you can use to indicate exactly which parcels are currently served by the association's wells, and how much each is irrigating. Please return these maps to us with the claim once they have the proper information indicated on it. You may use your own maps if you prefer.

The license is issued for 12 homes. I understand that you indicated to us that there are currently more than 12 homes being served by the well. Please indicate to us which 12 homes will be served by the well under the license, and then you will be required to obtain a new water right by submitting an Application For Permit for each property that is served in excess of the 12 licensed properties. I have also included a blank Application For Permit along with the instructions for your convenience.

Please have the board review this claim. Once the board is satisfied with the claim, please have them sign it, and return it to our office at the address below, along with a check for \$72.00 made out to "IDWR". If there are any corrections you would like to make, please initial those corrections before sending it back to us.

Don't hesitate to reach out if you have any other questions.

Thank you,
Greg Cooksey

Hello Greg

This is Alan with Comeback bay water association here in Sagle. We talked on the phone a couple of months ago about how to claim our well for the association municipal vs existing. We had our meeting and decided to claim existing and I would like to know what our next step are I believe you want a map of houses using the well and we need to permit one more house any info would be great thanks for the help
