Subject: IDWR Claim 96-8657
Attachments: 96-8657 MAP.pdf; 96-8657 NOTICE OF CLAIM.pdf; How You Will Receive Notice CFPRBA.pdf

Mr. Durgan,

Thank you for your call today regarding water right license 96-8657. I did look further into the possibility of your association claiming this license under municipal use, and I do think that's a possibility that you and the board may want to consider further. As you requested, I will attach a claim for the license under municipal use, and you may return that signed claim to us upon review from your board of directors. I have prepared this claim as a claim for ***municipal*** use, as we discussed on the phone. If the board decides they would like to claim as licensed, please let me know and we can get an amended claim to you very quickly.

Please note that the only changes to the water availability in your water right will be the irrigation volume specifically. While the domestic rate and volume, as well as the irrigation rate, will remain as licensed; the irrigation volume will be calculated slightly different for municipal purposes. This means that instead of 3 acre feet per acre (giving a licensed total of 15 acre feet), we use 2 acre feet per acre when calculating this volume for municipal use. That would give you a total of 10 acre feet per year for irrigation volume.

The fee for this claim as I have prepared it is \$67.00, and a check made out to "IDWR" can be sent for that amount with the claim. Please don't hesitate to reach out if you have any questions.

Thank you,

Greg Cooksey
