RE: Phone conversation with attorney representing Hansen Investments LLC

We received a call and voicemail on November 22, 2022, from Jack Mosby, an attorney representing Hansen Investments LLC. Mr. Mosby had concerns about a recent water right claim filed in the Clark Fork-Pend Oreille River Basin Adjudication (CFPRBA), which was based upon Water Right License No. 96-9206. His clients, Hansen Investments LLC, would like to dispute that claim and maintain their current ownership of the water right.

In our discussion, I detailed the expected timeline for the adjudication of water rights in that area, and what steps can be taken if his clients wish to dispute the current claim on 96-9206, including their option to file a competing claim on that right. Mr. Mosby was asked if his clients have any remaining ownership of the properties appurtenant to the water right or if they are still involved in the distribution of water to the users served by that delivery system. He responded that to the best of his knowledge, they do not have any remaining property ownership at that location or involvement in the water distribution. Mr. Mosby informed me that he will discuss the matter further with his clients and take whatever action is appropriate based on their decisions. He will contact us if further assistance is needed.
