RE: Notice of Abandonment of Water Right for a Portion of WR 22-13019 in Order to Complete the Licensing of Water Right Permit No. 22-7648.

Dear Blake:

Enclosed for filing are five completed *Notice of Abandonment of Water Right* forms signed and notarized by the various authorized representatives of the applicable entities that own farm ground covered by the place of use for Permit No. 22-7648. Condition 4 of this permit requires non-use of 170 authorized water right acres in order to mitigate for the consumptive use for this permit that had previously lapsed. At the Department's direction, you have indicated your preference to simply abandon the 170 acres identified under condition number 4 to complete the licensing of this water right.

The enclosed documents also contain a map depicting the location of the abandoned 170 acres, which are depicted in yellow single hatch on the map attached to the *Notice of Abandonment of Water Right* forms.

With these documents submitted, this should complete all the documentation necessary for the Department to issue a license for 22-7648. We appreciate your attention to this matter, and look forward to the issuance of the license as the field exam has already been submitted to the Department. Please let me know if you have any questions.

Best regards,

Robert L. Harris
