10. Do you own the property listed above as place of use? No

If your answer is no, describe in remarks below the authority you have to claim this water right.

___ We are a canal company supplying our shareholders _____

11. Other Water Rights Used:
13-4, 13-2134, and 13-2092

12. Remarks:

Priority Date Explanation:

This is the date that was licensed and the use continues today. According to IDWR's computer system, this water right source is Cub River tributary to Bear River. However, the licensed backfile shows it as an artesian well that is injected into the Cub River and then rediverted further downstream at the pumping location. This is the use that continues today. Filing the claim as an artesian well as was licensed and is still being used.

However, claim 13-2134 is also a licensed water right for an artesian well. This well location has been lost and to the best of my knowledge due to the meandering stream. Because of that, claim 13-2134 will instead be claimed as a Cub River source, not artesian well.

13. Basis of Claim: License
