

E2024-4028

RECEIVED

OCT 23 2024

To Whom It May Concern:

IDWR / NORTH

October 18, 2024

The purpose of this letter is to request a correction to my Water Right 96-9526 concerning the pond on my property.

The current Water Right erroneously states there is no outlet of the pond. I am requesting an update to the Water Right to correct the information about the outlet. The pond does have an outlet which is into the culvert on the north side of Vedelwood Drive and further drains into the wetland on the adjacent parcel to my property, PIN RP0366500200A0A. I would like my Water Right to be updated with this information.

I met with Chace Bell from the IDWR at my home on October 17, 2024 and he observed the outlet of the pond into the culvert and wetland on the above-mentioned parcel.

Please contact me should you require any additional information.

Sincerely,

A handwritten signature in black ink that reads "Robert Lagrace". The signature is written in a cursive style with a large, looping initial "R".

Robert Lagrace
