Re: Amended Notice of Claim to a Water Right form for CFRBA Claim No. 97-7268

Dear Claimant(s)

The Department of Water Resources has received your Clark Fork-Pend Oreille River Basin Adjudication (CFRBA) water right claim. Through my review of your claim, I became aware that the claim submitted includes a lesser volume than what was originally licensed.

The Notice of Claim to a Water Right identified with the number shown above was submitted for the use of groundwater for domestic and irrigation purposes, based existing water right license no. 97-7268. That license includes an annual volume of 11.4 AF of water for irrigation use and 28.5 AF for irrigation, totaling 39.9 AFY. The claim submitted online includes a total volume of 28.5 AFY and did not total the volumes for both uses. Before your water right claim can be recommended with the full volume of water originally licensed, an Amended Notice of Claim to a Water Right form must be submitted.

To assist you with this process, I am sending you an Amended Notice of Claim to a Water Right form, which can be utilized to amend your claim to include the full volume of the original water right (39.9 AFY). For your convenience, I completed much of the amended claim form for you, utilizing all the information from your previous claim as well as from the water right license. If any changes are made, be sure to initial those changes before signing the claim form.

Additionally, your submitted claim describes domestic use for 25 homes. Water right license no. 97-7268 includes domestic use for only 19 homes within the Schneiders Subdivision, and we are unable to recommend the claim for more homes than what was licensed. If additional homes beyond the original 19 have been added to your water system, then an Application for Permit should be filed for those added homes (enclosed). Also, the claimed place of use in your online filing does not make clear which homes are served by your association. To ensure accuracy in our recommendation of the water right, we will need a map reflecting the homes served water via this community system. For your convenience, I have also enclosed a parcel map of the Schneiders Subdivision which you can mark to indicate all the homes connected to the water system.

PLEASE NOTE: If the enclosed Amended Notice of Claim is not signed and returned, the claimed water right serving your community (97-7268) may be decreed by the Court with a reduced volume from the original license.

After your review and signature, please return the amended claim along with the marked parcel map to our office at the address listed above. There is no charge for amending the claim as it is still pending in the adjudication. Do not hesitate to contact our office if you have any questions or concerns. We can be reached by phone during business hours at 208-762-2800.

Best Regards,
