Dear Parties,

During the prehearing conference yesterday, I agreed to send a link to access the records for Water District 33. The records can be found at: https://research.idwr.idaho.gov/apps/Shared/LfRelatedDocs/Home/SearchWdGet?water_dist_no=33

The records available online only extend up to August 2022. As many of you are aware, in 2023 the Department had a major server crash and lost the digital records from September 2022 to the time the server failed. The Department and the Idaho Office of IT Services have been working for more than a year to restore the data and make the lost data available to the public. The WD33 records from September 2022 to the present day are attached.

James
