RE: Application for Permit No. 57-12103

Dear Applicant:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the OWYHEE AVALANCHE on 1/15/2025 and 1/22/2025. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Lynne Evans
Administrative Assistant

Evans, Lynne

Dear Interested Party:

The Department of Water Resources (IDWR) is seeking written comment and/or recommendations from the Idaho Dept. of Fish and Game regarding the above referenced water right application. You can find a copy of the application at:

<https://research.idwr.idaho.gov/apps/waterrights/wrajsearch/wradjsearch.aspx>.

IDWR can finish reviewing an unprotested application as soon as the protest period has passed. Therefore, your prompt response to this request is appreciated. If your organization desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days of the final publication.

Please contact this office if you have any questions regarding the application.

MEMORANDUM

December 16, 2024

Application for Permit: 57-12103

Author: bhowe

Subject: Application for Permit Requested Within the Snake River Moratorium Area & Trust Water

On December 16, 2024, the applicant Mr. Kenny Unruh, stated he wished to pursue the stockwater use Application for Permit 57-12103, in the Snake River Moratorium and Trust Water areas. The applicant submitted additional usage information describing alternate groundwater and wastewater sources, which can be used at times when the minimum stream flows for the Snake River are not being met to avoid injury to existing rights. Additional correspondence was provided to amend the location of the point of diversion and total rate being requested and the resulting signed amendment was received December 17, 2024. No increase in rate or other elements of the application requiring amendment necessitate advancing the priority date. A cursory review of the proposed application and supplemental information seem adequate for further consideration and advertisement.

57-12103 POD Image.pdf;

Hi Kenny,

I received your response and appreciated your quick response. I need a couple of other items clarified before I can submit your application for advertising.

1. The point of diversion described on your amended application is in the NWNE of section 27, which is on the west side of the Snake river (see picture attached). However, the place of use on the east side of the river and the map indicates the point of diversion in Section 22, SESW Government Lot 7 (blue point on image). Please provide the correct point of diversion location on the image attached.
2. The source stated on the amended application is the Snake River. Is this point of diversion an existing pump station shared with other rights? If not is there any easement or agreement to divert from the Snake River?
3. The amended application states a rate of 0.25 cfs for Stockwater, but the total quantity to be appropriated in section 6 is 1.0 cfs. Is section 6 supposed to be for a total quantity of 0.25 cfs?

It is important that you **respond in writing with the requested information within thirty (30) days** or action may be taken by the Department to void your applications (per IDAPA 37.03.08.040.04.b.ii.). Alternately you can email your response to file@idwr.idaho.gov. Please make sure to identify Application for Permit # 57-12103 in the subject line of your response.

Feel free to reach out to me with any questions or concerns regarding the items requested. Thank you for your time and attention in this matter.

Regards,

Bob Howe

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Good Afternoon Bob,

Here is a reply to the questions on the letter that you sent to me.

1. The plan for construction of the project is to build a sump on the edge of the river with a pipe out into the river. The amount applied for is small enough that it would have minimal impact on other water rights.
2. The proposed project water requirements would have a max of .25 cfs diversion rate during max use period but the average would be approximately .06 cfs or 25 gpm. The water would be required from November 1 to February 29.
3. The streamflow required at the Murphy Gauge from November 1 to March 31 is 5600 cfs. The median flow from 1981-2023 is approximately 7800-8200 cfs. In the event the flow drops below the minimum I can use from a groundwater source that can provide .06 cfs and from a wastewater source that can provide .12 cfs. The wastewater number is 57-11866.

Thanks for your help. If you need to contact me for more info my email is kentonunruh@gmail.com and my phone number is (208) 590-0389.

RE: Additional Information Request-Application for Permit 57-12103

Dear Applicant,

We are currently evaluating application for permit #57-12103 to determine if it meets appropriation criteria. The application proposes the diversion of surface water tributary to the Snake River for watering 2,000 head of cattle. However, additional information supporting your proposed water use is necessary to complete an evaluation of the application. In 2011, rights 2-201, 2-223, and 2-224 were decreed to the Idaho Water Resource Board to provide irrigation and non-irrigation season minimum stream flow downstream of Milner Dam on the Snake River. In 2017, rights 2-100, 2-2032A, 2-4000A, and 2-4001A were decreed to Idaho Power Company to protect, in priority, average daily flows in the Snake River at the Murphy Gauge.

Please submit additional information required by IDAPA 37.03.08.040.04. Supporting information may include the following items discussed in Water Appropriation Rule 40, Rule subsections 040.04.c.i., ii, & iii:

1. (i.) Project design, construction, operation techniques, or mitigation measures that the applicant will employ to eliminate or reduce the impact on other water rights.
2. (ii.) The proposed project water requirements including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of year that water is required, and the volume of water that will be consumptively used per year.
3. (iii.) The quantity of water available from the source applied for, including, but not limited to, the flow rates for surface water sources available during periods of peak and average project water demand, the properties of the aquifers from which water is to be taken from for ground water sources, and other sources of supply that may be used to supplement the water source proposed in the application.

It is important that you **respond in writing with the requested information within thirty (30) days** or action may be taken by the Department to void your applications (per IDAPA 37.03.08.040.04.b.ii.). Feel free to reach out to me with any questions or concerns regarding the items requested. Thank you for your time and attention in this matter.

Regards,

RE: Water Right Application Incomplete

Dear Applicant:

This office received your Application for Permit on August 24, 2024. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Fee:** Please submit the fee required for your water usage

Please make the necessary payment within the next thirty (30) days, reference your application number 57-12103 and name, or simply include a copy of this letter with your payment. You may seek additional time by making a written request to interrupt processing for up to six months. This application will be voided without your timely written reply within the next thirty (30) days.

IDWR Application for Permit Fee Schedule and other information are available on the IDWR website:
<https://idwr.idaho.gov/form/water-rights-forms/>.

Please contact our office at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Sincerely,

Susy Hobson
Technical Records Specialist
