7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.
13. The quantity of water under this right for stockwater use shall not exceed 13,000 gallons per day.
14. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval this water right is within State Water District No. 02.

MEMORANDUM FOR APPLICATION # 2324

To: Water Right: # 2-4

From: Skyler Cheever, Water Resource Agent

Date: 10/17/2022

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

This application was sent in by Flopet INC. and received on 02/18/2022 with payment received on the same date. This lease application proposes to lease the full water right #2-4 from 2022 to 2023. The water right under this lease takes water from the Snake River and is delivered by a main line to pressurized sprinklers for irrigation. This right has been leased into the water supply bank since 2003. And was last placed into the bank in 2018 through 12/31/2021.

AUTHORITY TO FILE:

The individual, Randy Flood, has the authority to file this lease agreement because he has signed past lease agreements for this same right. He is still the Vice President of the company according to the Idaho Secretary of States Office Database.

WATER RIGHT VALIDITY:

The water right has been leased into the water supply bank since 2003. There are no concerns with continued lease of the full right.

INJURY TO OTHER WATER RIGHTS:

Lease of this water right would not cause injury to other water rights. Proper review to prevent injury if rented.

ENLARGEMENT OF USE:

There is no enlargement of use under this right because it already has been leased to the bank before and the right is not changing from its previous lease agreement.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The location for the rental POD is subject to Water District 2. The Watermaster and Western Regional Manager were contacted for comment on October 17, 2022. It is assumed they have no concerns if there is no response within two weeks.

Hello Mr. Whitney or Mr. Miller ,

I am currently reviewing a Water Supply Bank Lease within Basin and Water District 02. The lease proposes to lease the entire water right, #2-4, to the water supply bank. This right diverts water from the Snake River to irrigate 10 acres and has stockwater for the property. This property has been in the supply bank since 2003 and was last in the bank until the end of 2021. Attached to this email is the draft review memo, draft map of the place of use and the lease application. Please send any comments if applicable in 7 days.
