Application for Transfer

West Cache Irrigation Company

We propose to change the point of diversion for our Deep Creek water right (13-946A). This right used to be diverted from Deep Creek. The ditch running from Deep Creek to the Main Canal washed out many years ago. Since that time, water right 13-946A has been delivered at the head of our Main Canal on the Bear River. Water District 11 recently informed us that the right would no longer be delivered unless water right 13-946A was officially updated to reflect the change made many years ago.

Water right 13-946A is delivered to the head of our Main Canal through an exchange. The head of the Main Canal is upstream of the confluence of Deep Creek and the Bear River. In exchange for (to offset) our diversion of Bear River water, water right 13-946A is left un-diverted in Deep Creek and is allowed to flow into the Bear River. To facilitate this exchange, we propose installing measuring devices on Deep Creek at the original point of diversion for water right 13-946A and near the confluence of Deep Creek and the Bear River. Delivery of water right 13-946A to the head of the Main Canal will be limited to the flow at the original point of diversion or the flow at the bottom of Deep Creek, whichever is less.

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

From: Thomas Lafortune

Re: Review & Evaluation of Sufficiency of Information

The purpose of this transfer is to change the point of diversion for water right 13-946A. Water was originally diverted from Deep Creek into a ditch to West Cache (Main) Canal. Since this ditch washed out many years ago, water has been diverted at the head of West Cache (Main) Canal on the Bear River. This transfer proposes an exchange of Deep Creek water with Bear River water to reflect what has already been in practice.

Authority to File:
The applicant, West Cache Irrigation Company, is the current owner of the water right according to department records. The application was signed by Sid Munk, President, and Mike Spackman, Vice President of West Cache.

Water Right Validity:
Right 13-946A was decreed in the 1920 Bear River Decree. The right has been consistently used. Forfeiture is not an issue.

Injury to Other Water Rights:
Right 13-946A has been diverted through Main Canal for many years. Water from Deep Creek will be left undiverted. Measuring devices will be installed at the original point of diversion on Deep Creek and near the confluence of Deep Creek and the Bear River. Delivery of this right at the proposed point of diversion will be limited to the amount available at whichever is less between these two measuring points. The right will be administered in priority based on the Deep Creek point of diversion. The application was advertised without protest and the watermaster did not provide comment opposing the transfer. There should be no injury to other water rights.

Enlargement of Use:
Every element of the water right will remain unchanged besides the point of diversion. There is no enlargement.

Local Public interest:
No issues identified.

Beneficial Use/Conservation of Water Resources:
No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
