Memorandum regarding Ownership Change of 13-7854

To: Water Right File 13-7854
From: Sidney Palmer
Re: Change in Ownership involving multiple owners
Date: December 13th, 2022

Background - Prior to the date of this memo, the owners of record of water right 13-7854 were Marty Carrillo, Cherise Carrillo, Bill Thomas, and Tammy Thomas. In December of 2017, Bill and Tammy Thomas sold their land and appurtenant water right(s), 13-7854, to Bradley and Tabitha Owens. On November 2nd, 2022, the Department received a letter from Bradley and Tabitha Owens (signed by Tabitha Owens only) discussing the removal of Bill and Tammy Owens from current owners of record and that the Carrillo's should be sole owners of 13-7854. Included with the letter was a recorded Warranty Deed. These documents were brought to the attention of Jean Hersley and Sidney Palmer in the Water Rights section to determine how to respond and proceed with this ownership documentation of the water right.

Response – It was concluded that the provided Warranty Deed sufficiently showed that Marty and Cherise Carrillo are the current and sole owners of record for water right 13-7854. Bill and Tammy Thomas were removed as owners of the water right per the Warranty Deed. In the text of the letter, it is stated that Tabitha and Bradley Owens wished to remove their names from the water rights license as the water is not being used on their property. The Owens' own the land where the well is located and have no interest in the water right.

The Ownership Change database has been updated accordingly. Also, letters with updated proof reports were sent to Bradley and Tabitha Owens as well as Marty and Cherise Carrillo inform them of the change. All correspondence and the previously mentioned Warranty Deed will be within the water right file 13-7854.

Re: Change and Removal in Ownership for Water Right No(s): 13-7854

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to remove Bill and Tammy Thomas as current owners. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208)287-4921.

Sincerely,

Sidney Palmer

RE: License No. 13-7854

Dear Mr Hummer,

This letter is in regard of well/property ownership and the water right/license of said holders.

In 2017 we purchased the property at 388 Spring Crk Rd. Preston Idaho 83263 from Bill and Tammy Thomas. Therefore the Thomas's have no claim to the property or the water right/license. We are requesting that their names be removed from all such documents.

Regarding water license No. 13-7854 We are requesting that the Carillo's have their name only on this license number. Because we own the property/well we have no need to be on their water right/license. We would like to keep these matters seperate.

Inclosed you will find our Warranty Deed for such ownership.
Please send us and the Carillo's a copy showing these changes. That would be greatly appreciated.

If you have any questions please call. 208-852-4070

Thank You,

Bradley and Tabitha Owens

RE: License No. 13-7854

ISSUANCE OF LICENSE

Dear Water Right Holders:

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Phill Hummer
Water Rights Supervisor

DEPARTMENT OF WATER RESOURCES
IN-OFFICE REVIEW/BENEFICIAL USE FIELD REPORT

A. GENERAL INFORMATIONPermit No: 13-7854

Exam Date: 9/19/2022

1. Does this qualify for an in-office field exam (IDAPA 035.02.r)? X Y N
- Irrigation of 5 acres or less
 - Storage of up to 14.6 AF for stockwater purposes only
 - Any use other than irrigation or storage, if the combined diversion rate is 0.24 cfs or less
 - Other < >

2. Current Owner: Name: Marty Carrillo
- Owner of Record Correct? X Y N
- Address of Record Correct? X Y N
- If No: Address

3. Beneficial Use Fees have been paid: X Y N Receipt No: N/A CU13997

4. **SOURCE** TRIBUTARY
- Groundwater N/A

According to GIS and Tax Data the property is owned by Martin and Cherice Carrillo. According to a Change of Ownership form, ownership of this right was changed to the current owner on 10/1/2013.

Method of Determination: GIS and Tax Parcel Data

Change in Source: Y X N

B. OVERLAP REVIEW

1. Other water rights with the same place of use: YES Overlap

Water Right No.	Source	Purpose of Use	Basis
13-29	Cub Creek	Irrigation	Decree
13-7747	Mink Creek	Irrigation	Decree

Comments: Water Right (WR#) 13-29 and 13-7747 overlap the place of use on this permit. However, these rights beneficial use is irrigation, not domestic use. Since they have a different beneficial use and point of diversion, this permit does not interfere with those rights.

2. Other water rights with the same point of diversion: NO Overlap

Water Right No.	Source	Purpose of Use	Basis
NONE			

Comments:

C. DIVERSION AND DELIVERY SYSTEM**1. LOCATION OF POINT(S) OF DIVERSION:**

Source	Govt. Lot	¼	¼	¼	Sec.	Twp.	Rge.		County
Groundwater			SW	NE	26	15S	40E	B.M.	Franklin
								B.M.	
								B.M.	

Method of Determination: GIS and Tax Parcel Data. On 9/16/2022 I spoke with the owner, and he told me that the system is connected to one home, the owner's, not two as listed on the permit. According to the Shared Well Agreement the owner has permission to use the well within Lot 5.

Change in POD? X N Amendment Required? X N

N/A					

*Code to correspond with No. on map and aerial photo

D. FLOW MEASUREMENTS

1.Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
N/A						

2. Measurements: No measurement is required for an in-house exam; a diversion rate calculation is not possible without pump horsepower.

E. FLOW CALCULATIONS

 Additional Computation Sheets Attached

Measured Method:

The owner did not provide a pump horsepower so, a diversion rate calculation is not possible. According to Administrative Processing Memo #22 the rate for a single household is 0.04 cfs. 0.08 cfs is listed on the permit. However, after contacting the owner on 9/16/202, they confirmed that there is only one home. I will recommend a rate of 0.04 cfs.

SCANNED
SEP 28 2022

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$$

2. Volume Calculations for Other Uses:

This is a domestic use. According to processing memo #22, in-house and yard irrigation can have up to 1.2-acre feet of annual water use. However, this is not necessary because there is a condition, 071, limiting use to 13,000 gal per day. Accordingly, under Idaho Administrative Code 37.03.02, 35, 01j condition 071 sets the volume for a day at 13,000 gal.

G. PURPOSE OF USE

Irrigation X Y N # Stock Domestic # of Homes 1

Other: < >

Change in Purpose of Use? Y X N

Method of Determination: Tax Parcel Data and conversations with owner.

If Yes: From Use To Use Amount CFS AFA

H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-house exam. According to a Change of Ownership form, owners listed currently on the permit are not the original owners, ownership was changed in 2013. I spoke with the current owner on 9/16/2022 and confirmed that the number of homes listed on the permit was incorrect, there is only one home using the well currently. The flow rate was reduced from 0.08 cfs to 0.04 cfs accommodate only one home and 1/2 acre yard irrigation. The owner did not provide a pump horsepower so, a diversion rate calculation was not possible. The standard flow rate set in Administrative Processing Memo #22 was used instead. A volume is not necessary since there is a condition, 071, on the permit limiting use to 13,000 gal per day. Under Idaho Administrative Code 37.03.02, 35, 01j the limitation set in condition 071 is the set volume allowed per day. According to the water right overlap analysis there is no conflict, with the point of diversion or beneficial use, with what's on the permit.

All of the conditions have been met, and it is reasonable to believe that the owners are using water for the beneficial uses listed on the permit. Therefore, I am recommending a diversion rate of 0.04 cfs, which is the standard for domestic uses. Tax Parcel Data shows the home was built in 2005, so the owners are providing water for their home and yard irrigation because they have no other water rights on the property.

Conditions X01, 071, X59, X60, and 187 should remain on the license. Condition X01 should be changed from 2 to 1 home because the owner confirmed that there is not a second home. Condition X59 should be changed from Lot 4 to Lot 5 because Tax Parcel Data confirms that the point of diversion is in Lot 5. Condition X60 should be changed by removing Lot 5 because it has been confirmed by the owner that there isn't a home or connection to the well on Lot 5. All other conditions should be removed.

Have conditions of permit approval been met? X Yes No

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 13-07854

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holders:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **October 01, 2022**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Idaho Code § 42-204. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this Department on or before the above proof due date. If neither is received, the Department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Debbi Judd

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 13-07854

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holders:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **October 01, 2022**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Idaho Code § 42-204. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this Department on or before the above proof due date. If neither is received, the Department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Debbi Judd
