RE: Proposed Ownership Change for Water Right 23-104

Dear Property Owner:

On August 28, 2023, you filed a Notice of Change in Water Right Ownership, seeking to update the ownership records for water right 23-104, which is held by the Palisade Irrigation Company Inc. ("PIC"). Your notice did not include any deeds or other evidence showing that PIC has conveyed any portion of water right 23-104 to you. Before we can update the records for water right 23-104, you must provide evidence that you have acquired a portion of that right from PIC. It is possible that you have acquired and hold stock or shares in PIC. If that is the case, you should contact the company to update the relevant stock certificate for your property. The water rights, however, would remain in the name of PIC. In other words, an irrigation company owns the water rights, and shareholders simply own stock or shares in the company.

I have searched the Department's records for any other water rights that may be associated with your property. The only water rights I could find are 23-50D, 23-50E and 23-104, which are all held by PIC. I could not find evidence of water rights previously associated with your property. Even if such rights existed at one time, they would no longer be valid water rights. In 1987, the State of Idaho commenced the Snake River Basin Adjudication (SRBA), which was an inventory of all water rights in the Snake River Basin in Idaho. The SRBA lasted for more than twenty-five years. During that time, water users were required to identify and claim any water rights they believed they owned. The SRBA court issued a final decree for the SRBA in 2014. Except for small domestic and stockwater rights, the SRBA is closed. There were no SRBA claims filed for privately held water rights on your property.

Because it seems unlikely that PIC will convey a portion of water right 23-104 to a shareholder in the company, I have decided to return your ownership change notice and refund the associated filing fee (\$100). Feel free to refile the notice if PIC does convey you a portion of water right 23-104 or if you identify some other water right associated with your property. Please note, I have access to the same water rights records as the Boise office. I have notified the Boise office of my research and this letter to help them avoid duplicating my work. If you have any questions, please call me at (208) 525-7161.

Sincerely,

James Cefalo

Re: Notice of Change of Water Right Ownership

Dear Sir/Madam:

Enclosed, please find our Notice of Change of Water Right Ownership, along with the required documentation and fees.

We purchased our 10-acre property in 2015. It is our understanding the previous owners (Fishers) purchased the property from the bank in a foreclosure sale. We were able to research the sale and ownership of the property dating back to when it was originally divided back in 1997. It is our understanding that our land had and should still have irrigation water rights; we'd like to have the shares that are associated with our 10 acres recorded in our names.

The current water rights location map shows the water right # listed as 23-104, 23-11J, 23-50E, and 23-50E when you scroll over our property on the IDWR locator map, with the owner being the Palisades Irrigation Company and Lynn Dixon. We have listed the first POU 23-104 on our application; please correct, as needed.

We have paid our annual dues to the Palisades Irrigation Company since we've owned our property (proof of payment available, if needed).

We have livestock and have an agricultural need to irrigate our property.

In addition, our tax assessment lists our land as "irrigated" land.

Please let us know if there is anything else you need from us. We can be reached at 970-301-1730

We are providing the historical ownership deeds for your reference to use as needed.

Thank you for your time and assistance with this matter.

Best Regards,
Kirk and Mary Heather Hayenga
