X35	Rights 25-14514 and 25-14515 when combined shall not exceed a total diversion rate of 2.96 cfs.
113	Beginning on the date of approval of Transfer 86712, rights 25-14514 and 25-14515 when combined are limited to the following schedule of allowed diversion volume. Year 1 (2023) the rights are limited to 240 acre-feet. Year 2 (2024) the rights are limited to 480 acre-feet. Year 3 (2025) the rights are limited to 480 acre-feet.
K01	Right No. 25-14515 is an enlargement of this right pursuant to Section 42-1426, Idaho Code.
R05	Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
R02	A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
214	Prior to the diversion and use of water under Transfer approval 86712, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
213	Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
201	The combination of changes under Transfer 86712 as described under rights 25-14514 and 25-14515 and Transfer 86713 as described under rights 25-14516 and 25-14517 and Transfer 86715 as described under rights 35-7537 and 35-13708 provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation. Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right under Transfer 86712.
124	Place of use is within the service area of the City of Ammon municipal water supply system as provided for under Idaho Law.
180	A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.
T07	The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
T08	Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
T19	Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

CONDITIONS OF APPROVAL

1. Rights 25-14514 and 25-14515 when combined shall not exceed a total diversion rate of 2.96 cfs.

2. Beginning on the date of approval of Transfer 86712, rights 25-14514 and 25-14515 when combined are limited to the following schedule of allowed diversion volume.
   Year 1 (2023) the rights are limited to 240 acre-feet.
   Year 2 (2024) the rights are limited to 480 acre-feet.
   Year 3 (2025) the rights are limited to 480 acre-feet.

3. Right No. 25-14515 is an enlargement of this right pursuant to Section 42-1426, Idaho Code.

4. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.

5. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

WATER RIGHT NO. 25-14514

As Modified by Transfer No. 86712

CONDITIONS OF APPROVAL

6. Prior to the diversion and use of water under Transfer approval 86712, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

7. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

8. The combination of changes under Transfer 86712 as described under rights 25-14514 and 25-14515 and Transfer 86713 as described under rights 25-14516 and 25-14517 and Transfer 86715 as described under rights 35-7537 and 35-13708 provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation.

   Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right under Transfer 86712.

9. Place of use is within the service area of the City of Ammon municipal water supply system as provided for under Idaho Law.

10. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

11. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

12. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

13. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

Re: Change in Ownership for Water Right No(s): 25-14514, 25-14515

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 497-3787.

Sincerely,

Jonie Baily

RE: Notice of Change in Water Right Ownership for WR 25-14514 and WR 25-14515 for the City of Ammon.

Dear Jonie:

Enclosed for processing is a completed *Notice of Change in Water Right Ownership* WR 25-14514 and WR 25-14515. Included with the completed form are two *Special Warranty Deed for Water Rights*, one of which conveys title from Lynn and Kaylene Burtenshaw to Idaho Water Company, and the second which conveys title from Idaho Water Company, LLC, to the City of Ammon.

In addition, we have included two *Deed of Partial Release* documents executed by the lien holder of record for the parent water right for the above-referenced water rights (the parent rights are WR 35-7537 and 35-13708). Accordingly, please remove any notation of any liens of record with the Department associated with WR 25-14514 and WR 25-14515.

We have also included the required $50.00 filing fee to process the ownership change for these two water rights.

Finally, please note that the water rights are municipal in nature, and do not have a specifically designated place of use, rather, the water rights reference the service area of the City of Ammon. The IDWR form requires a "yes" or "no" answer as to whether the new owner owns the land identified as the water right place of use. We have checked no because there is no described place of use. Further, we do not believe that we are required to send a notice to all the residents serviced by the City of Ammon. Idaho Code § 42-248(6) only requires notice to be provided if the person filing the Notice of Change in Water Right Ownership does not own the land identified as the place of use for the water right. Where there is no described place of use, our position is that we do not need to comply with this requirement because it is inapplicable.
