WATER SUPPLY BANK LEASE CONTRACT No. 1573

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
    a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
    b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature**. **Please sign and return ALL Lease Contracts within 14 days**. Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The right will automatically be released from the Bank on **December 31, 2026,** unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. These forms are available from any IDWR office or from our public website at http://www.idwr.idaho.gov. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

> "While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

To: Water Right(s) 51-13005, 51-13006, 51-13011, & 51-13014

From: **Mackenzie Kienholz**

Date: **August 25, 2022 – September 6, 2022**

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

---

PURPOSE/NARRATIVE: This application was received on January 24, 2022 for Global Ag Properties USA LLC, C/O Westchester Group Investment Management signed by Bret Andersen. The application proposes to lease portions of four water rights, a total of 137.6 acres of water rights 51-13005, 51-13006, 51-13011, and 51-13014. These rights have a combined limit that requires them to be leased together. The PPU and POD's for the rights are within the Blue Gulch Critical Groundwater Management Area.

AUTHORITY TO FILE: All four rights are currently owned by Global Ag Properties USA LLC, care of Westchester Group Investment Management Inc. The applicant listed is Global Ag Properties USA LLC, C/O Westchester Group Investment Management. Bret Andersen signed the application on behalf of the applicant. A document titled "Written Consent of the Manager of Global Ag Properties USA, LLC, a Delaware Limited Liability Company" was included with the application. Bret Andersen is listed as a vice president of the company in this document.

All parcels under the proposed lease POU are owned by Westchester Group Investment. Eleven points of diversion in 09S12E and 10S12E are associated with the POU; Global Ag Properties USA LLC has ownership at all eleven. Two new wells, one in 10S12E2 and one in 09S13E30 were also listed on the application.

WATER RIGHT VALIDITY: All water rights for this application were decreed in 2007 and were part of an approved transfer in 2011. The rights were leased to the Bank in 2016. A release request was also submitted and approved in 2016, releasing the rights from the bank 12/31/2016 instead of the contract end date of 12/31/2020. A new application was submitted and approved leasing the rights to the Bank for the years 2017-2021. Review of aerial imagery from 2016-2021 suggests that the applicant has complied with previous contracts. No concerns with validity of the water right and portion offered to the bank.

INJURY TO OTHER WATER RIGHTS: Review staff has no information to suggest this application would cause injury to other water rights. Proper review to prevent injury if rented.

ENLARGEMENT OF USE: Multiple water rights share the PPU with rights 51-13005, 51-13006, 51-13011 and 51-13014. A review of the combined limits for all rights within the PPU found that there are sets of rights within the entire suite which have reducing combined limits, however all these smaller groups are additive to the combined limits for the entire suite for all rights in the PPU (see below). 51-13005, 51-13006, 51-13011, and 51-13014 have a combined limit, but this limit is additive to the overall limits, and as such these four rights can be leased as a four-right package without having to add in the additional rights.
A review of aerial imagery of irrigated acres withing the PPU found that about 3,303 acres have been irrigated in recent years. The total combined acre limit for the PPU is 3,925.3. The total number of acres proposed for lease in 2022 (applications #2288, #2300, & #2301) is 282.5. Leasing these amounts still keeps the sum of the irrigated and leased acres under the PPU acre combined limit.
