AMERICAN FLS, ID 83211-5210

RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.

2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on October 06, 2022.

3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS**: The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)
29-2281	6/26/1952	GROUND WATER	2.02	480	120.0
29-13624	2/28/1977	GROUND WATER	1.62	637	182.0
Combined Lease Totals			**3.64**	**728**	**182.0**

Summary of Water Rights Elements Rentable From the Bank

Water Right	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (Limited) (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
29-2281	2.02	480	120.0	0.017	4.0
29-13624	1.62	637	182.0	0.009	3.5
Combined Limit Totals	**3.64**	**728**	**182.0**	**0.020**	**4.0**

**** The water right elements rentable have been reduced from the water right elements leased to account for combined limit conditions.***

2. **COMPENSATION**: The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

SCANNED APR 18 2023

WATER SUPPLY BANK LEASE CONTRACT No. 1654

3. **TERM OF LEASE**: The term of this lease shall be January 1, 2023 to December 31, 2027. This Lease shall bind the parties and take effect when both parties have signed it.

4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE**: The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.

6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.

7. **DUPLICATE ORIGINAL**: This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

07S	32E	8									37	39	30	15		29 L3	32 L4		182

Total Acres: 182

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.

SCANNED APR 16 2025

WATER SUPPLY BANK LEASE CONTRACT No. 1654

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
    a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
    b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Rights 29-2281 and 29-13624 when combined shall not exceed a total annual maximum diversion volume of 728 af at the field headgate and the irrigation of 182 acres.
13. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.

APPLICATION TO SELL OR LEASE A WATER RIGHT TO THE WATER SUPPLY BANK

Designated Applicant Jerome Clinger
(Select one owner – see item 1A on the application)

Water Right No. 29-2281
(One water right per application)

Is this application being submitted with a rental application as a lease/rental package? Yes ☑ No ☐

This application must be prepared in accordance with the minimum requirement checklist below. Use this checklist to ensure all necessary documentation has been provided. This checklist is part of the lease application and must be included with the lease application. **Applications that do not meet the minimum requirements will not be processed and may be returned or denied.**

MIMUMUM REQUIREMENT CHECKLIST

All items must be checked as either *Attached* (Yes) or *Not Applicable* (N/A)

		Yes	
		☑	Completed *Application to Sell or Lease a Water Right to the Water Supply Bank.*
		☑	Application filing fee of $250.00 per water right. If you are submitting more than one lease application and the water rights have an overlapping, common place of use, or a common diversion rate or volume, the total fee for all water rights is $500.00. For places of use, multiple water rights must be used to irrigate the same lands in order to qualify for the joint filing fee. Individual filing fees are required for water rights that share a common permissible place of use but which cover separate acres within the permissible place of use.
		☑	Confirmation this form has been printed **single sided**, per requirement of the Water Supply Bank.
Attachment	**N/A**	**Yes**	
1A	☐	☑	Signatures and contact information for ***all owners*** of the water right to be leased or sold on this application.
1B	☐	☑	An Internal Revenue Service (IRS) Form W-9 for the Designated Applicant.
1C	☑	☐	*Notice of Change in Water Right Ownership* form (accessible from www.idwr.idaho.gov).
1D	☑	☐	Contact information for an authorized representative and documentary proof they are authorized to represent the Designated Applicant on this application. If the Designated Applicant is a business, partnership, municipality, organization or association, include documents identifying officers authorized to sign or act on behalf of the entity.
2	☑	☐	Description of a water right portion offered to the Water Supply Bank.
3	☐	☑	A map that clearly outlines the specific location where irrigated acres will be dried up, or where a beneficial use of water will be suspended. You have the option of printing a map using the map tool on IDWR's website at: www.idwr.idaho.gov.
4A	☑	☐	Written consent from irrigation district or water delivery company.
4G	☐	☑	Evidence demonstrating the water right has not been forfeited pursuant to Section 42-222(2), Idaho Code.

Department Use Only

Fee Amount $ 500.00	Received By: KM	Date Received: 10.7.22	Receipt # C114224

APPLICATION TO SELL OR LEASE A WATER RIGHT
(Continued)

1. CONTACT INFORMATION

A. This application must be completed by a Designated Applicant who is a current owner of the water right being sold or leased to the Water Supply Bank. If there are additional current owners, those individuals must authorize the Designated Applicant to represent them on this application by completing and signing Attachment 1A of this application package.

Designated Applicant Jerome Clinger

Mailing Address 2568 Joy Lane (Street) American Falls (City) ID (State) 83211 (Zip Code)

Email Address jeromeclinger@gmail.com Phone Number 208.226.5296

☐ The Designated Applicant is the sole owner of the water right being sold or leased to the Water Supply Bank.

OR

☐ The Designated Applicant is representing additional water right holders who have completed Attachment 1A.

B. Has the Designated Applicant submitted an IRS Form W-9 to this Department within the last 2 years? Yes ☐ No ☑
If no, complete the form and attach to this application (Attachment 1B).

C. Are all applicants on this form listed in IDWR's records as the current owners of the water right? Yes ☑ No ☐
If no, attach a *Notice of Change in Water Right Ownership* form along with the required documentation and fee (Attachment 1C).

D. Is this application being completed by an authorized representative of the Designated Applicant? Yes ☐ No ☑
If yes, representatives (includes employees of Designated Applicant companies) must complete this section and submit documentary proof of their authority to represent the Designated Applicant (Attachment 1D).

Name of Representative _____ Organization _____

Professional Title _____ Email Address _____

Mailing Address _____ Phone Number _____

☐ Send all correspondence for this application to the representative and not to the Designated Applicant.

OR

☐ Send original correspondence to the Designated Applicant and copies to the representative.

2. DESCRIPTION OF WATER RIGHT OFFERED TO THE BANK

☑ The full water right is being offered to the Bank.

OR

☐ A part of the water right is being offered to the Bank.
If a portion of the water right is being offered, **complete Attachment 2.**

3. MAP

Attach a map of the point(s) of diversion and place(s) of use proposed to be idled by this lease application. Make sure the idled place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to idle. If the water right proposed for lease is located within a permissible place of use (PPU) and portions of the PPU will continue to receive water from non-leased water rights, clearly outline on a map the acres within the PPU that will continue to be irrigated, as well as acres that will be idled during the lease term. Label the map **Attachment 3.**

STATE OF IDAHO
WATER RESOURCE BOARD

APPLICATION TO SELL OR LEASE A WATER RIGHT
(Continued)

4. GENERAL INFORMATION

A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☑
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e.

B. Please provide a description of the current water diversion and delivery system.
Deep well, 200 hp motor, mainline. Previously connected to pivot and handline. Now the land is being used as a solar farm.

C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. 29-13624

D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☑ No ☐
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of $500.

E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☑
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. Solar farm was installed in Summer 2016. WMIS database shows usage in 2017 through 2021. 2017: 258.59 af, 2018: 389.40 af, 2019: 188.08 af, 2020: no monthly, 2021: 331.88 af

G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☑
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See Section 42-223, Idaho Code for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed.

H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?
If yes, describe. Yes ☐ No ☑

WATER RESOURCE BOARD

APPLICATION TO SELL OR LEASE A WATER RIGHT
(Continued)

5. SALE/LEASE AGREEMENT

A. Is the water right, or portion thereof, offered to the Idaho Water Resource Board (IWRB) for sale ☐ or lease ☑?

If lease, specify the years when the use of water will be suspended: 2023 (Year) to 2027 (Year) (maximum lease period 5 calendar years).

B. Show the minimum payment acceptable to the seller/lessor. The minimum payment may be shown as the "current rental rate" as established by the IWRB. Include the method of determining the minimum payment if other than the current rental rate.

Current Rental Rate.

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Applicant acknowledges the following:

1. Payment to the Designated Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

LESSOR DESIGNATION FORM

When multiple individuals or business entities jointly own property to which a water right is appurtenant, the parties can use this form to nominate a designated lessor to represent their common interests on a Water Supply Bank lease contract. The signatures of all water right holders are required on this form to elect a designated lessor. The designated lessor is required to provide a completed IRS Form W-9 to receive any payment associated with the rental of a water right under a Water Supply Bank lease contract. **All correspondence and any financial payment associated with the rental of this water right will be directed to the designated lessor.** If additional space is needed to list any other water right holders, attach a second copy of this Lessor Designation Form.

AMERICAN FLS, ID 83211-5210

RE: WATER SUPPLY BANK LEASE CONTRACT 1654
FOR WATER RIGHTS 29-2281 & 29-13624

Dear Lessor:

Water right(s) **29-2281 & 29-13624** were leased into the Water Supply Bank (Bank) as of January 1, 2023, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank**. More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The right(s) will automatically be released from the Bank on **December 31, 2027,** unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at bank @idwr.idaho.gov or 208-287-4800.

Sincerely,

Amanda Johnson-Veibell

AMERICAN FALLS, ID 83211-5210

RE: APPLICATION TO LEASE WATER RIGHTS 29-2281 & 29-13624 TO THE WATER SUPPLY BANK CONTRACT 1654

******TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature**. **Please sign and return ALL Lease Contracts within 14 days**. Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2027,** unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at http://www.idwr.idaho.gov. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

> "While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Subject: Lease with two Rentals WSB Companion Review

Good afternoon, Blake,

Please see the attached review memo and move map for a repeat lease of two rights for Clinger, a repeat rental with less acres for Falls Irrigation District and a new rental of remaining acres for leased right for Clinger, and kindly respond with comments or concerns within 10 days. The WSB map templates are not opening; please forgive the attached makeshift move map.

Best,
Mary

I guess the short answer is that they are free to put those rights in the water bank.

The way the district plan works is that we give an allocation to every water right and the user must pump at or less than that allocation. All the acres the Clingers have in the water bank do not receive an allocation. They will just be responsible to pump at or less than the allocation they are given on the remainder of their acres. Their case is a little more complicated because they are limited by their historic pumping, but that will factor into their allocation, and they will be responsible to abide it.

Subject: RE: J. Clinger mitigation

Hi Jaxon,

They are leasing rights 29-2281 & 29-13624 fully and Falls Irrigation District is requesting to rent 164 acres worth to supplement their canal water. The Clingers are also requesting to rent the remaining 18 acres worth of these two rights on lands under 29-2287A & 29-2287B in case the existing rights are curtailed. I would think this rental request is more for mitigation, or a rental of water to offset existing mitigation obligations under those two rights.

I need to know if: a portion of rights 29-2281 and 29-13624 are dedicated to a mitigation plan or if they can lease/rent all of the water; and how much the mitigation obligation is on rights 29-2287A & B. If all four total 688.8 acre-feet, how much is dedicated for mitigation on each set of rights?

Thanks,
Mary

Hi Mary,

SCANNED
APR 18 2023

Clingers do have a mitigation obligation in the American Falls Aberdeen GWD they are limited by their baseline pumping. Their 2022 total allocation for those 4 water rights was 688.8 acre-ft. I believe the district plan will change for 2023, but I won't know how it changes until spring. When a right is in the water bank and used, as was the case for 29-2281 and 29-13624 with Falls Irrigation District, I remove them from the user's allocation so that they are not given an allocation for water they don't use. It's a little murky as to the accounting when it moves from one district to another.

Let me know if you have any questions.

Jaxon

Hi Jaxon,

I need to know if Jerome Clinger has a mitigation obligation on his rights, specifically rights 29-2281, 29-13624, 29-2287A & 29-2287B, and if so, the associated volumes, and if different depending on year, please provide for 2022 and 2023 at the very least.

Thank you,
Mary

Hello, Mary,

I hope you had a nice Christmas. It is such a busy time of year!

Jerome asked me to send you a copy of our water rental agreement with Falls Irrigation on the small pivot southeast of the solar farm. I am having problems with my scanner and was hoping that I could send you a picture by text followed by a hard copy.

If that works, please let me know and I will get right on it.

Thank you so much. Have a great day!

ANNUAL INTERRUPTIBLE WATER RENTAL or SUPPLEMENTAL WATER AGREEMENT

THIS AGREEMENT, made this 11 day of April, 2022, by and between FALLS IRRIGATION DISTRICT, a quasi-municipal corporation duly and regularly organized under the laws of the State of Idaho relating to irrigation districts, located at 310 Valdez Street, American Falls, Idaho, 83211, hereinafter designated as the "District" and **Jerome Clinger** of 2568 Joy Lane, American Falls, Idaho, hereinafter designated as the "Landholder."

WITNESSETH

WHEREAS, the District, in the execution of its obligations to deliver water to the lands within the boundaries of the Falls Irrigation District, has from time to time supplemental water not needed or required to supply the primary water rights of the District; and,

WHEREAS, the District has determined that it may be in and for the best interest of itself and the water users of the District that such supplemental waters be used to irrigate lands within the District that have no primary water rights, when such supplemental water is available for such use; and,

WHEREAS, the Landholder has **25.82 Acres** of land, more particularly described as follows, to-wit:

Lot 4 in Section 8, Township 7 South, Range 32 East, Boise Meridian.

WHEREAS, these acres identified as **Unit 2-12 D**, which do not have a primary water right; but the Landholder does have a primary water right on lands within the District, and

WHEREAS, the Landholder is desirous of irrigating said 25.82 acres with excess, extra or supplemental water of the District when said water is available to the Landholder from the District.

NOW THEREFORE, the parties hereto hereby agree that the District will supply the Landholder with supplemental water, when it is available, for approximately 25.82 acres as above described, when such water is available to the District and is not needed or required for the purpose of filling the needs of the primary water rights of the water users within the boundaries of the District.

IT IS UNDERSTOOD AND AGREED that the District shall deliver **51.64 acre feet** of supplemental water during the season, when it is available, to the Landholder or other authorized water user at the present point of delivery, **E-MA Turnout**.

IT IS UNDERSTOOD AND AGREED that the Landholder shall pay the District $76.00 per acre, to be delivered up to the volume of supplemental water identified. The Landholder recognizes that the rate charged is intended to cover the value of the water delivered and on-going operation and maintenance obligations of the District. Further, the Landholder

SCANNED

acknowledges that the water delivered is irrigation water with quality suitable for such beneficial use.

IT IS UNDERSTOOD AND AGREED that the Landholder shall, at his sole cost and expense, erect, operate and maintain such equipment, structures and measuring device as are necessary to apply the supplemental water herein provided to the Landholder's land after it leaves the delivery point.

IT IS UNDERSTOOD AND AGREED that the amount of water delivery requested by the Landholder will not exceed the maximum discharge of their present pump and/or that the water ordered is limited to system availability.

IT IS UNDERSTOOD AND AGREED by the parties hereto that this agreement is subject to the policies of Falls Irrigation District, including the policy on the priority of use between competing users of rented water, as follows: To the extent a supplemental source of water is available for delivery under a water rental agreement, available water will be delivered to the users on a priority basis, based on the date of the water rental agreement and location of the point of delivery.

IT IS AGREED that said supplemental water is the property of the District, only temporarily available for use by the Landholder, and will be available to the Landholder only when it is not needed for the primary water needs of the District. Said supplemental water is not subject to appropriation and the use of it shall not be construed as creating a water right or interest in the water. The District does not warrant a water supply or particular quality of water supply to said Landholder and shall not be held responsible for the availability of water to the Landholder, and shall not be held responsible for the availability of water to the Landholder under this agreement. The Landholder should consider these conditions when planning a crop, as it is possible that the water supply would be insufficient to properly irrigate any crop that may be planted.

IT IS UNDERSTOOD AND AGREED by the parties hereto that this annual agreement is temporary and can be terminated by the Falls Irrigation District at any time. Further, this agreement shall automatically terminate on November 1, unless otherwise reviewed by the written consent of the FID Board or when FID ceases to deliver water, which occurs first.

IN WITNESS WHEREOF, the parties have hereunto set their hands and seals the day and year first above written.

DATED this 11 day of April, 2022.

MEMORANDUM FOR LEASE CONTRACT 1654 & RENTAL AGREEMENTS 707 & 710

To: Water Right(s) 29-2281 & 29-13624

From: Mary Condon

Date: December 22, 2022 – January 11, 2023

Re: Review & Analysis of Applications to Lease and Rent Water from the State Water Supply Bank

---

PURPOSE/NARRATIVE: Three companion applications, as one lease of two water rights along with two different rentals of the same rights received on or before the November 1 priority processing for 2023 start date for 5-year terms until December 2027. Lease is repeat, and one rental application is a repeat, both of which were approved from years 2018-2022.

Rental application 2456/ Rental Agreement (RA) 707 is from Mr. Clinger, the owner of the water rights for lease, and requests to rent 18 acres of these two rights on POU and POD with existing rights 29-2287 A and B, to provide additional water for irrigation due to Aberdeen American Falls Ground Water District (AAFGWD) mitigation obligations. An email request to the ground water district for mitigation requirements was requested, and an email reply from Jaxon Higgs stated they do have an obligation, which was 688.8 acre-feet on all four rights (29-2287A & B, 29-2281 & 29-13624) in 2022 based on historic pumping, but that they also don't have an obligation on rights 29-2281 & 29-13624 because they are leased and rented from the water supply bank. Reduction obligations for 2023 haven't been calculated yet. A rental application was submitted for the same purpose for 2018-2022 but was denied because the reduction obligation/mitigation plan was/could not be provided by the applicant.

Rental application 2457/RA 710 is from Falls Irrigation District for supplementing their canal shares, a combination of surface and ground water rights, through use of the authorized well of the requested rights. The district submitted a map showing a specific 164 acres for the rental within their boundary. Most of the parcels under the POU are owned by the lessor of rights for lease. Existing rights held by the district include several ground water rights with limited acres and priorities dates in the 1950's. A previous rental for the same purpose was approved for years 2018-2022.

AUTHORITY TO FILE: Application to lease signed and filed by the current owners of the rights. Power County parcel information lists Mr. Clinger as owner of the property under the water right place of use. Rental application 2456 was also filed by Mr. Clinger, who is also the owner of the rental location, existing water rights and diversion works. Rental application 2457 was signed by the manager for Falls Irrigation District. The district has permission to use lessors' diversion and delivery system, and shareholders within the boundaries can use the water shares. No concerns with authorities to file.

WATER RIGHT VALIDITY: These rights were decreed in 2004 through the Snake River Basin Adjudication and irrigation was observed on the lands in 2015 via satellite imagery review during 2018 for previous lease of the rights. The POU for the water rights was converted to a solar field in 2016 and the rights were placed in the bank and fully rented from 2018-2022. No concerns with validity of the water rights offered to and requested to rent from the bank.

SCANNED

INJURY TO OTHER WATER RIGHTS: Lease and rental PODs are within the Eastern Snake Plain Aquifer (ESPA) but are either in the same ESPA grid cell or an adjacent cell, so Etran modeling is not required.

Rental of 18 acres under application 2456/ RA 707 for use on lands already covered by water rights but are partially reduced as part of the district's mitigation plan is not expected to cause injury to other users, since the number of overall acres irrigated will be less than historically. Rental of 164 acres under application 2457/ RA 710 for use on a specific 164 acres within the irrigation district boundary to supplement existing shares is not expected to cause injury to other users, since the number of overall acres irrigated will be less than historically.

ENLARGEMENT OF USE: Lease POU of offered rights has a small pivot in the SE corner of the solar field which was irrigated while the rights were under lease in 2022, but after consulting with Mr. Clinger, he confirmed the source was canal shares from Falls Irrigation District through a private rental agreement. Mrs. Clinger provided the Department with the rental agreement for the pivot on December 28, 2022, via email.

Water rights offered for lease are primary rights and are combined limited to the total acres allowable under right 29-13624. The entire POU is within the boundaries of the irrigation district, but no other rights are combined with these two offered for lease, nor are there any supplemental conditions. The 2015 Landsat imagery in the 2018 lease review shows irrigation was heavier in the SE corner of the water right POU, the same location as the pivot receiving surface water through a rental agreement between the lessor and Falls Irrigation District for 2022. A canal for the district ends at the SW of the pivot, where water was delivered to and diverted from in 2022 under their rental arrangement with Falls Irrigation District. It is possible the POU has received surface water along with the primary ground water rights prior to lease of these rights but no information has been provided by the applicant to imply co-mingling has occurred.

WMIS annual volume measurements for the lease water right POD were provided for in the 2023 lease application but appear to be from the wrong well. Application annual numbers are actually from WMIS 600724 for rights 29-2287 A & B, rather than from WMIS 600727 for leased rights or from WMIS 600726 for leased rights on shared well with other irrigation rights. Using WMIS 600727 as the primary well the lessor has access to, pre 2018 lease diversions are tabulated at end of review memo, with average for years pumped and the max annual volume for record period in bold. The annual volume measurements indicate they only used 50-60% of the full volume allowed each year from 2010-2015 for offered rights. This is consistent with their mitigation plan allowance of 688.8 acre-feet annually for four rights, where average pumping under rights 29-2281 with 29-13624 and rights 29-2287 A & B is equal to 672.9 acre-feet annually (see tables of WMIS data at end). Second well for offered rights, WMIS 600726, has volume measurements so low, and on lands not owned by lessor, that it is unlikely POD was used for offered rights and was only used during available record period for the two other rights by different owner. Right 29-14015 from shared well also has a solar farm and have leased the right since 2020.

Lease of offered rights can be fully brought in and fully rented through both rental applications. Rental application 2456/RA 707 for use of own rights on different lands to offset mitigation requirements is not expected to cause an enlargement of the leased or rented rights. Rental will not add acres, and volume allowed under the rental when combined with existing rights is limited to area headgate standard of 4 acre-feet per acre. Rental application 2457/RA 710 for use of leased rights on different lands for a specific 164 acres as additional water for irrigation with canal shares is not expected to cause an enlargement. Rental will not add acres, and

SCANNED

volume allowed under rental when combined with existing canal shares will be limited to 4 acre-feet per acre.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest these applications are inconsistent with the local public interest. ETRAN modeling is not required on this ESPA lease and rental since PODs are within a grid cell of the other. Lease and rental PODs are within the Aberdeen American Falls Ground Water District. Ground water districts can assess mitigation requirements from users within their boundaries, and no reduction by IDWR is required through WSB lease and rentals.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease and rentals are to provide water for irrigation, which is a beneficial use and appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental PD is within the Eastern Snake Plain Aquifer, subject to Water District # 120 and the Eastern Region. Location is also within the Aberdeen-American Falls GWD. Request for comment from WM and region sent on January 11, 2023.

RE: APPLICATION(S) TO LEASE WATER RIGHT NO(S). 29-2281 &29-13624 TO THE WATER SUPPLY BANK

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of the application(s) to lease the above referenced water right(s) to the Idaho Water Resource Board's Water Supply Bank (Bank). The Department will review your application as resources allow. If the application(s) is not processed prior to the end of the proposed lease period, it will be returned to the applicant. The Department regrets any inconvenience caused by the delay.

If the right(s) is determined to be eligible for acceptance into the Bank, the right will be entered as of the date of receipt of the application. The acceptance date may be adjusted if additional information is required.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have any questions, please contact me at (208) 287-4822.

Sincerely,

Mackenzie Kienholz
