RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on January 17, 2022.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)
29-4006	4/1/1958	GROUND WATER	0.04	6.5	3.3
Lease Totals			0.04	6.5	3.3

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2022 to December 31, 2026. This Lease shall bind the parties and take effect when both parties have signed it.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).
If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to [Section 42-108, Idaho Code](#) and [IDAPA WSB Rule 37.02.03.25.02e](#).
- B. Please provide a description of the current water diversion and delivery system.
Existing well, pump, motor and delivery system.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. None

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☐ No ☒
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.
- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased. _____

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. Water right 29-4006 has been fully used for the last 5 years. The new pivot configuration better fits the allowed irrigation limit of 29-4006.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See [Section 42-223, Idaho Code](#) for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed. _____

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?
If yes, describe. _____

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Applicant acknowledges the following:

1. Payment to the Designated Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

Dear Lessor:

Water right(s) **mentioned above** was/were leased into the Water Supply Bank (Bank) as of January 1, 2022, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The right(s) will automatically be released from the Bank on **December 31, 2026**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

******TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2026**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

13	Narrative: The Department received this application on December 15, 2021. The applicant requested to lease 3.3 acres to the Bank for the 2022-2026 season. This right was decreed in 2004 and has been put to beneficial use since then. The review of transfer 85728 that was approved in February 2021, confirmed the validity of this right. There are no overlapping rights. The POD of this right is shared with 29-10165, which is not being placed in the Bank and possibly 29-2302 but there are no combined limits with these rights. This is a groundwater right and not currently within a WD.

Hi Greg,

I just want to clarify why we are requesting information regarding years of non-use before and after the previous lease contracts of these rights. The lease of a water right does not restart the forfeiture clock; it only tolls it. Any years of non-use before and after a lease to the Bank are additive. This is described in Section 42-1764, Idaho Code.

Jean,

Water right 29-2302 has had 11.5 acres leased into the WSB multiple times over the last couple of years. The most recent lease contract expired in 2018. The potato cellars were constructed in 2016 or 2017 and the area around the cellars is used for equipment storage. The small sliver of the water right to be leased into the WSB along the road consists of ground that is not productive and is not actively being irrigated. Aerial imagery from 2011 through 2014 indicate that the area south of the cellars were irrigated to facilitate various crops. No irrigation has occurred in the southern area from 2015 through 2022 due to complying with lease contract requirements and the construction of the cellars. The southern area below the potato cellars has been used to grow dry land wheat and will continue to be used for dry land farming in future years.

Water right 29-4006. The south west corner of the pivot under 29-4006 has been irrigated since 1992 based on Google Earth imagery. In 2016, the pivot center was moved north several hundred feet to allow more productive ground to be utilized and moved the pivot away from the nearby stream channel. The south west corner of the property continued to be irrigated after the pivot was moved in 2016. Attached FSA records indicate that in 2016 there was potato's grown in this south west corner. A water right transfer was approved by IDWR on February 4th, 2022 to update the irrigation place of use of the allowed 270.0 acres. No forfeiture issues were identified or discussed by the Eastern IDWR office and the agents who reviewed and ultimately recommend that the transfer be approved. The southwest corner (specifically the

3.3 acres) have not been irrigated in 2022. If 2016 was the last year that irrigation occurred on the 3.3 acres, the 3.3 acres would still be protected from forfeiture because 2022 is the 6th year from non-use. The 6th year since irrigation occurs is the year that an action to protect against forfeiture must be taken such as irrigation, CRP, CREP or lease the acres into the WSB. This is why we have submitted the lease application for the 3.3 acres.

Water rights 29-7028 and 29-13395. These two water rights have had 7.5 acres under lease contract from 2015 through 2019. These two water rights are located within a 152.5 acre permissible place of use. Water rights 29-7028 and 29-13395 are limited to 141.0 acres of irrigation. Which allows the 141.0 acres to be moved around within the 152.5 acre permissible place of use. The 7.5 acres can be identified anywhere within the 152.5 acres and still remain valid and legal. The location of the 7.5 acres needs to be properly identified so that the WSB staff can confirm that the 7.5 acres are indeed idle and not irrigated.

The lease applications for 29-7028 and 29-13395 that were submitted in December of 2021 were intended to duplicate the previous lease contract amounts of a total diversion rate of 0.09 cfs and 7.2 acres total leased acres. I somehow did not include all of the necessary pages for the applications. I have attached the complete lease applications for 29-7028 and 29-13395 for the 7.2 acres that were signed on 12/1/21 to this email.

Water rights 29-2302, 29-7028 and 29-13395 have had portions of them leased into the WSB within the last five years (29-2302 expired in 2018 and 29-7028 and 29-13395 expired in 2019). The lease contracts expired in 2018 and in 2019. There should still be several more years of forfeiture protection provided for the 11.5 acres and the 7.5 acres by the past WSB lease contracts of these water rights.

Subject: WSB Lease applications for Labrouche Ag & Livestock LLC

The Department of Water Resources is in the process of reviewing the WSB lease applications submitted for Labrouche Ag and Livestock LLC. I have a couple of questions regarding some of the applications.

First, all these rights were decreed in 2004.

Water right 29-2302 was placed in the Bank from 2015 to 2019 with some irrigation occurring in 2009 and 2020. There was some irrigation occurring in the SWSW of T7S R38E Sec 26 south of the building that is there. On the attached map, the portion in purple appears to not have been irrigated so there are questions of forfeiture. You requested that 11.5 acres be placed in the Bank. The Department can only see that 5 acres could be leased.

WR 29-4006- the portion offered to the Bank, 3.3 acres, appears to never have been irrigated. This right has never been in the Bank so there are questions of forfeiture. The Department cannot accept these acres to the Bank.

WR 29-7028 and 29-13395- portions of these rights were in the Bank from 2015-2019. Some irrigation occurred in 2009 which allowed the department to place the portions in the Bank. However, there doesn't appear to have been any irrigation taking place in the NENE, T7S, R38E, S23 after the rights came out of the Bank. You requested that 6.7 acres be placed in the Bank, the Department can only see 1.9 acres that could be leased. Also, the Department doesn't have an application for 29-13395 which completely overlaps with 29-7028. If you would like to place the 1.9 acres in the Bank, we will need an application for 29-13395.

If you have information that shows the acres have been irrigated, please provide them to the Department within 14 days. If the Department does not receive the information within 14 days, we will place 5 acres of 29-2302 in the Bank, the lease application for 29-4006 will be returned as will 29-7028 since we need a companion application for 29-13395.

Please let me know if you have any questions. Thank you.
