4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to [Section 42-108, Idaho Code](#) and [IDAPA WSB Rule 37.02.03.25.02e](#).

- B. Please provide a description of the current water diversion and delivery system.

Diversion structure in Cohn Creek diverts water into private ditches.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. Water Right No. 29-4411 is stacked with this water right and will also be leased to the Water Supply Bank as part of this lease/rental package. The place of use is also within the service area of the Portneuf Irrigating Company.

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☒ No ☐
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☒ No ☐
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased. If there is an adequate supply of water, it is possible that the place of use could receive water from the Portneuf Irrigating Company.

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. The full authorized rates have been diverted.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See [Section 42-223, Idaho Code](#) for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed.

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?

If yes, describe.

Yes ☐ No ☒

RE: WITHDRAWAL OF APPLICATION(S) TO LEASE WATER RIGHT NOs. 29-4411 & 29-4424 TO THE WATER SUPPLY BANK

Dear Applicant:

Per your written request via email dated May 27th, 2023, the Department of Water Resources (Department) acknowledges your intent to withdraw your Lease Application(s) for the right(s) listed above. Therefore, the Department is returning your application.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you wish to lease water in the future, please reapply using new forms from the Department's website at www.idwr.idaho.gov. If you have any questions regarding this matter, please contact me at (208) 287-4822.

Sincerely,
