Comments:

1 mhollday 5/28/2019 combined Q limits
This right was decreed in the SRBA based on a prior decree and is delivered via the Max Hall upper and lower diversions. This right contains multiple combined rate limit conditions. The combined limits include water right numbers from multiple owners, thus requiring updates to numerous water rights each time an ownership change is filed. Each ownership split increases the number of water rights that need to be changed. Going into all these rights each time an ownership change is filed is burdensome. In an effort to resolve this problem, I reworded the combined limit conditions to capture the intent of the decreed conditions without listing the individual water right numbers.
