Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 497-3787.

Sincerely,

Jonie Barg

RE: Notice of Change in Water Right Ownership for Split of WR Nos. 35-13824, 35-13826, 35-13828, 35-13830, 35-13832, 35-13834, 35-13836, and 35-10330.

Dear Joni:

Enclosed for processing is a *Notice of Change in Water Right Ownership* for a split of the above-referenced water rights. Included with the completed form is a spreadsheet that shows that 1,410 acres of the above water rights have been conveyed to Cannon Shelley Property Limited Partnership. The retained portion for Howard Taylor & Sons, Inc. is 698 acres. I apologize for the outdated map, but after the sale of the farm property to Cannon Shelley Property Limited Partnership, Howard Taylor & Sons sold a portion of its retained water rights to Wayne Properties LLC. You have already processed an ownership change for that split, confirmed by a letter dated May 27, 2022. The enclosed map depicts a bright yellow line, which is all of the property that Cannon Shelley Property Limited Partnership purchased from Howard Taylor & Sons, Inc. The original shapefile for these split water rights, even before the Wayne Properties LLC split, is depicted with white single hatching on the enclosed map. Where the property boundaries follow section lines, I am fairly confident in the split analysis summary included with this letter, but let me know if you come up with values different than mine. Finally, please note that WR 35-10330 is depicted with light red shading in the lower right-hand portion of the map and is appurtenant to the property purchased by Cannon Shelley Limited Partnership. Because these water rights are being split, we have included a check in the amount of \$800.00. Please let me know if you have any questions or concerns.

Best regards,

Robert L. Harris
