WATER RIGHT NO. 35-7537

As Modified by Transfer No. 86715

CONDITIONS OF APPROVAL

5. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

6. Prior to the diversion and use of water under Transfer approval 86715, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

7. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

8. The combination of changes under Transfer 86712 as described under rights 25-14514 and 25-14515 and Transfer 86713 as described under rights 25-14516 and 25-14517 and Transfer 86715 as described under rights 35-7537 and 35-13708 provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation.

   Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right under Transfer 86715.

9. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.

10. Right No. 35-13708 is an enlargement of this right pursuant to Section 42-1426, Idaho Code.

11. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

12. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

13. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

WATER RIGHT NO. 25-14516

As Modified by Transfer No. 86713

CONDITIONS OF APPROVAL

6. Prior to the diversion and use of water under Transfer approval 86713, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

7. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

8. The combination of changes under Transfer 86712 as described under rights 25-14514 and 25-14515 and Transfer 86713 as described under rights 25-14516 and 25-14517 and Transfer 86715 as described under rights 35-7537 and 35-13708 provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation.

   Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right under Transfer 86713.

9. Place of use is within the area served by the public water supply system of Falls Water Company Inc. The place of use is generally located within Sections 2, 3, 4, 9, 10, 11, 13, 14, 15, 16, 22, 23, 24, Township 02N, Range 38E and Sections 33, 34, 35, Township 03N, Range 38E .

10. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

11. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

12. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

13. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

As Modified by Transfer No. 86713

CONDITIONS OF APPROVAL

5. Prior to the diversion and use of water under Transfer approval 79583, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

6. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

7. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.

8. This water right is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.

9. This right is based upon an enlargement of Right No. 35-7537 pursuant to Section 42-1426, Idaho Code.

10. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

11. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

12. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

These transfer approvals shall not require mutual dependence for ongoing mitigation.

   Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right under Transfer 86712.

9. This water right is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.

10. Place of use is within the service area of the City of Ammon municipal water supply system as provided for under Idaho Law.

11. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

12. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

13. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

14. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
