STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

TRANSFER OF WATER RIGHT
TRANSFER NO. 87077

This is to certify that: DIANNE RAE SCHAEFFER
1005 W 300 N
PAUL, ID 83347

has requested a change to the water right(s) listed below. This change in water right(s) is authorized pursuant to the provisions of Section 42-222, Idaho Code. A summary of the changes is also listed below. The authorized change for each affected water right, including conditions of approval, is shown on the following pages of this document.

Summary of Water Rights Before the Proposed Changes

Water Right	Origin/Basis	Priority Date	Diversion Rate	Diversion Volume	Acre Limit	Total Acres	Source
36-13767	WR/DECREED	3/1/1955	0.170 cfs	14.6 af	N/A	N/A	GROUND WATER
36-16199	WR/DECREED	1/22/1958	4.170 cfs	N/A	N/A	367.0	GROUND WATER
36-16200	WR/DECREED	1/22/1958	0.260 cfs	58.0 af	N/A	N/A	GROUND WATER

Purpose of Transfer (Changes Proposed)

Current Number	Split	POD	POU	Add POD	Period of Use	Nature of Use
36-13767	NO	NO	YES	NO	NO	NO
36-16199	YES	YES	YES	NO	YES	YES
36-16200	NO	NO	YES	NO	NO	NO

Summary Of Water Rights After the Approved Change

Existing Right	New No. (Changed Portion)	Transfer Rate	Transfer Volume	Acre Limit	Total Acres	New No. (remaining portion)	Remaining Rate	Remaining Volume	Remaining Acre Limit	Remaining Total Acres
36-13767	36-13767	0.170 cfs	14.6 af	N/A	N/A	N/A	N/A	N/A	N/A	N/A
36-16199	36-17234	0.180 cfs	51.0 af	N/A	N/A	36-16199	3.990 cfs	N/A	N/A	351.0
36-16200	36-16200	0.260 cfs	58.0 af	N/A	N/A	N/A	N/A	N/A	N/A	N/A
COMBINED TOTALS		**0.610 cfs**	**123.6 af**	**N/A**	**N/A**		**N/A**	**N/A**	**N/A**	**N/A**

This water right(s) is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources. Detailed Water Right Description(s) attached.

Dated this 29th day of December, 2022.

Southern Region Manager

CONDITIONS OF APPROVAL

1. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
3. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable county zoning and use ordinances.
4. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
5. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

SCANNED

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at idwr.idaho.gov.

Name of Applicant(s) Dianne Rae Schaeffer

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☑ * Completed Application for Transfer of Water Right form, Part 1.
- ☑ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☑ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☑ ☐ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☑ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☐ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☑ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☑ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☑ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s).** ** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☑ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☑ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☑ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at https://idwr.idaho.gov/water-rights/transfers/resources/.
- ☐ ☑ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☑ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☑ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☑ ☐ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☑ ☐ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☑ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. (Attachment WSB)
- ☐ ☑ #10 Other. Please describe: _____

DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued

5. General Information:

a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:
The rights 36-16199, 36-16200 & 36-13767 each are on separate wells so measuring devices can be installed on each well to monitor the use of ground water at each of the points of diversion

b. Who owns the property at the point(s) of diversion? The applicant Dianne Rae Schaeffer
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
Not Applicable

c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: Not Applicable

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?
If yes, ☐ complete Attachment WSB.

e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
Expansion of the livestock facilities will require that 54 acres of farmland irrigated by groundwater from right 36-16199 to be dried up with groundwater from 16 acres of the land removed from production will require a change in the nature of use to stockwater. The groundwater from the remaining 38 acres of land that is no longer being irrigated will be placed into the water bank.

f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:
Right 36-16199 will be reduced by .18 cfs/51af and the nature of use will be changed from irrigation to stockwater. This water along with the stockwater authorized in rights 36-16200 and 36-13767 will provide the 120 af required for the expanded livestock facility. POD will remain the same. The POU for all of the water will be T08S R22E Sec29 NWNE, SWNE, NENW & SENW.

g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

☐ ☑ undergone a period of five or more consecutive years of non-use,
☐ ☑ currently leased to the Water Supply Bank,
☐ ☑ currently used in a mitigation plan limiting the use of water under the right, or
☐ ☑ currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe:

For each water right listed in Part 1B.1 of the application, attach a **Part 2A** report obtained from any Department office or from the Department's website @ idwr.idaho.gov, Water Right Transfers, Step 1.
Insert Part 2A reports into the application following Part 1.

B. IF ONLY A PORTION OF THE RIGHT IS PROPOSED TO BE CHANGED, DESCRIBE THE PORTION BEING CHANGED AS IT APPEARS BEFORE THE REQUESTED CHANGES

☑ Complete and attach one copy of Part 2B for each right for which only a portion is proposed to be changed. If the entire right is proposed to be changed, Part 2B is not applicable. Additional copies of the **Part 2B** form can be obtained from any Department office or from the Department's website @ idwr.idaho.gov, Water Right Transfers, Step 3, or Water Right Forms, Changes in Use. Insert completed Part 2B forms into the application following Part 2A of the same water right.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.

☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b.**

If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

If any part of the irrigation water right is leased to the Water Supply Bank, you must also specify the location and number of acres that will remain idled for the duration of the lease contract at the new, proposed place of use.

B. CHANGES IN NATURE OF USE (Water Balance)

☒ If you propose to change the nature of use or period of use of all or part of the rights(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:

Purpose of Transfer Part 1A.3 – Description of Proposal

This application is proposing the change of the nature of use and the transfer of 51 acre feet of ground water from irrigation water rights authorized by Right 36-16199 to stockwater use.

The application requests the change for the diversion of the ground water whose nature of use is being changed from irrigation to stockwater to an existing well located at T 08S R 22E Section 29 SENW this well also serves as the point of diversion for right 36-16200.

The place of use for the stockwater that is being transferred as well as the existing stock water rights in 36-13767 and 36-16200 is T 08S R 22 E Section 29 NENW, NWNE, SWNE & SENW.

The ESPA Modeling is not required for the change in nature of use or for the change in place of use since all of the rights involved are located within the same model cell.

The amount of water to be used for the stock is described on the following page.

Current Rights
36-16200 - 58 AFA
36-13767 - 11 AFA
Proposed Change of Use
36-16199 - 51 AFA

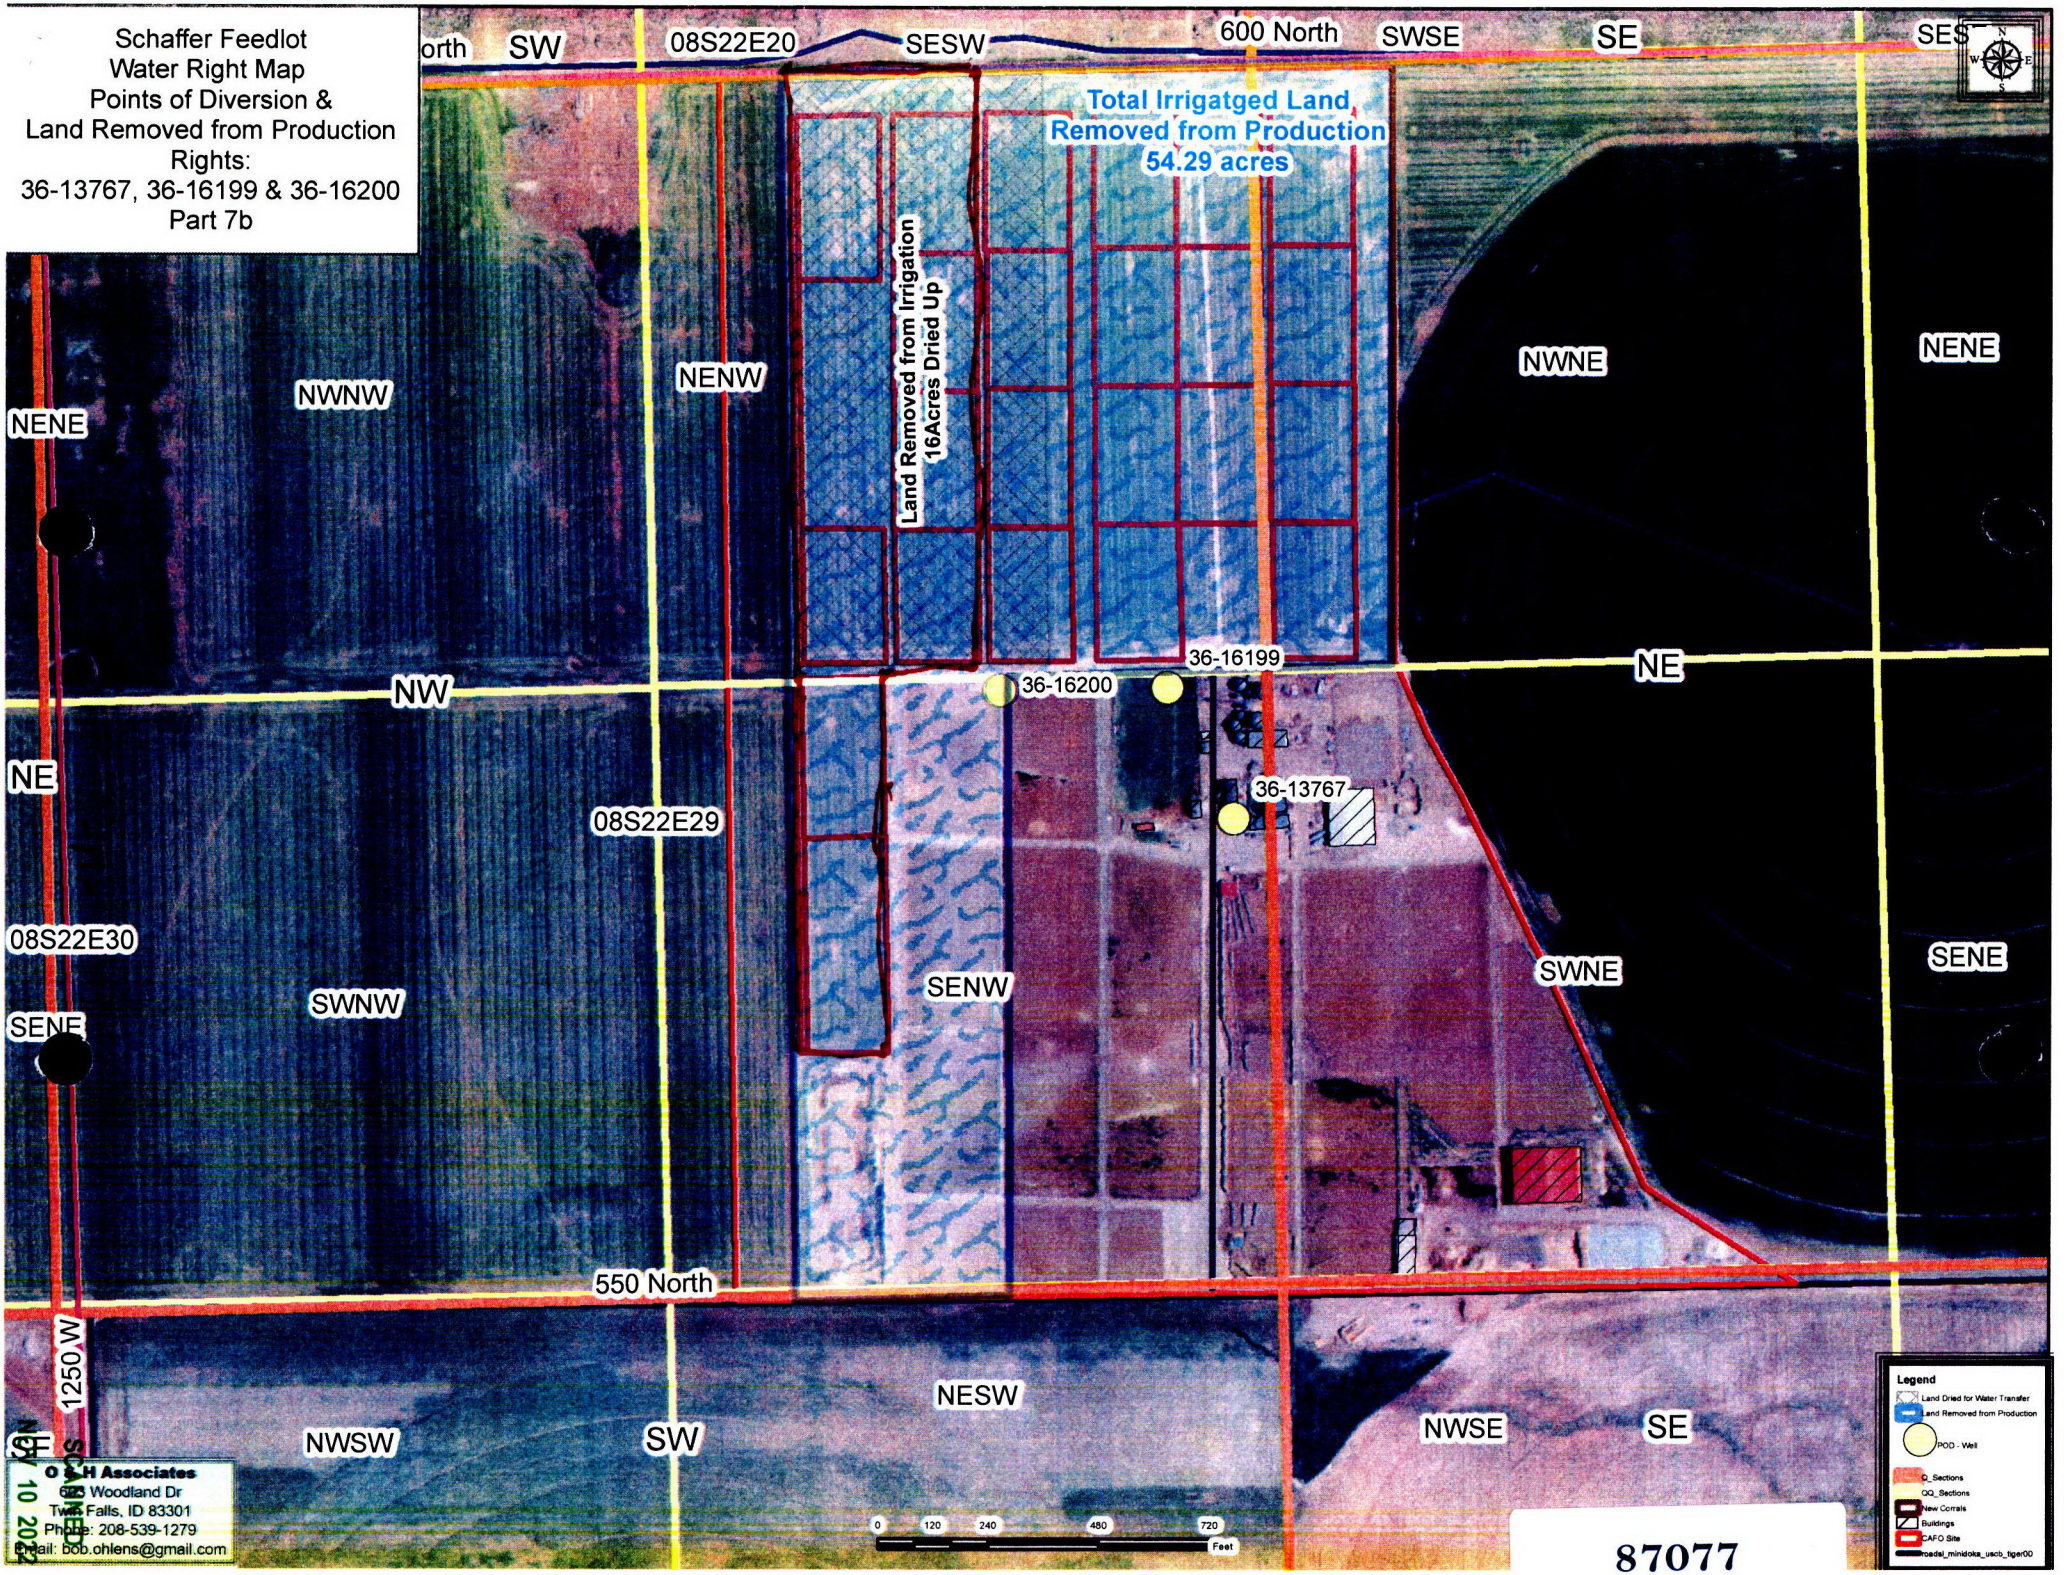

Using the average number of head and the average consumption rates per head per day would require 103 acre feet of water per year to meet the needs of the livestock, however with the variation in the number of animals at any given time of the year, the consumption of water may be higher than the average consumption. For that reason we are requesting a value of 120 acre feet be available for stock water use. Existing rights provide 69 acre feet leaving 51 acre feet to be requested in the tranfer from irrigation

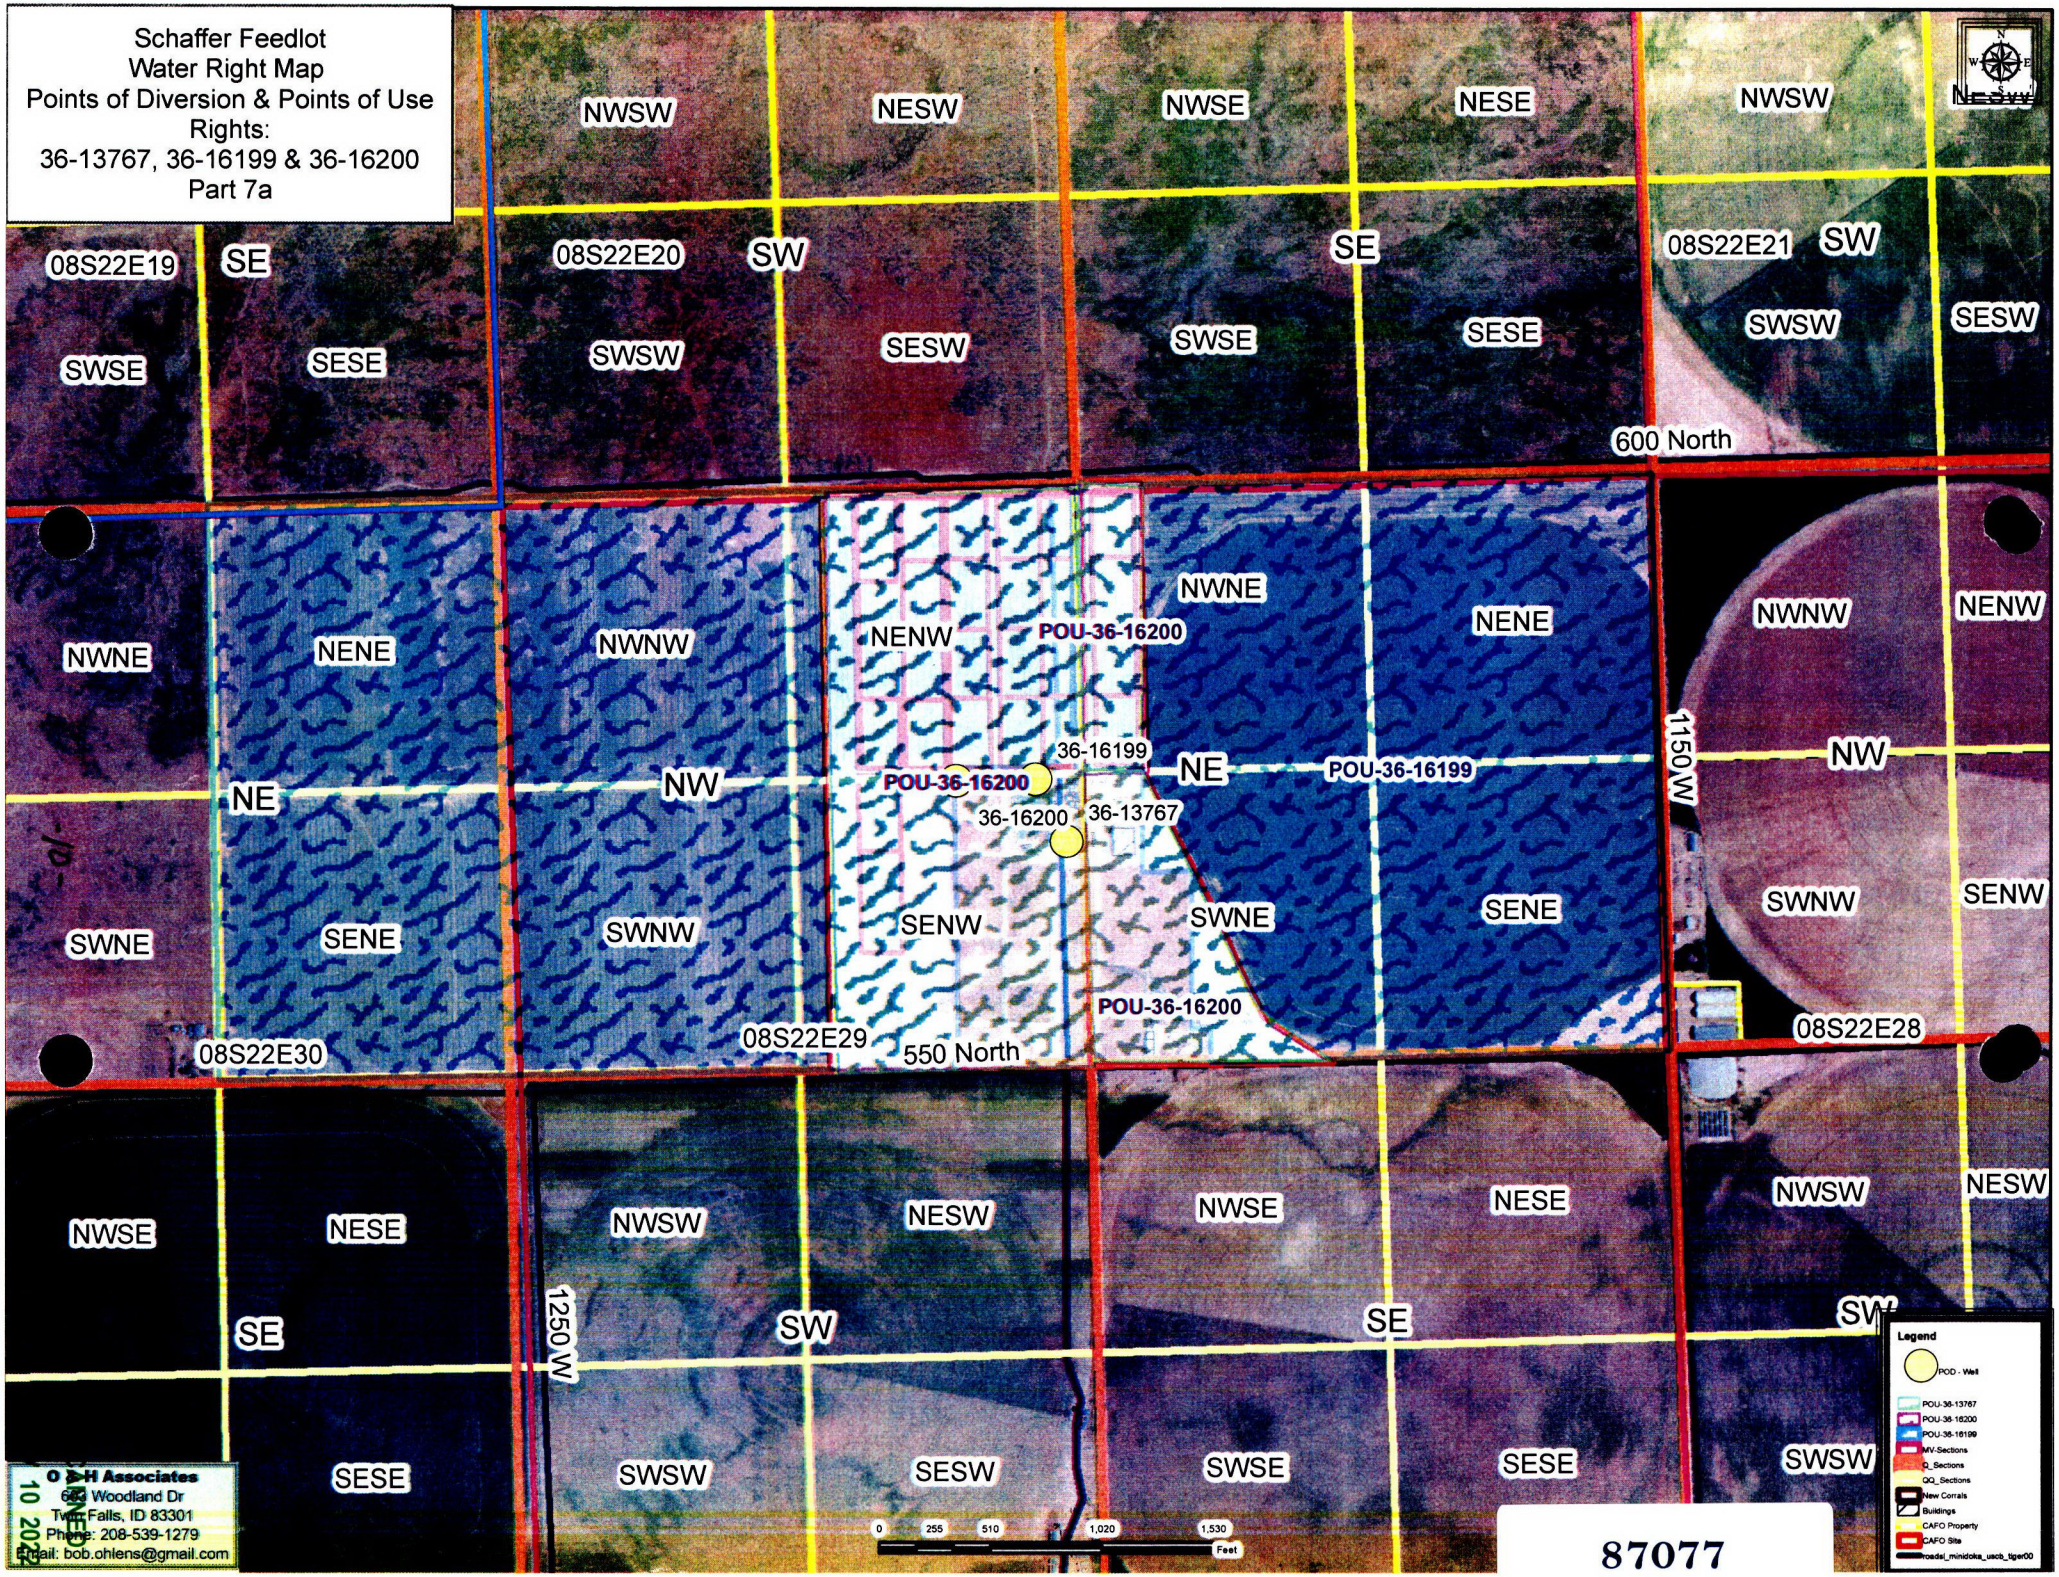

- 9 -

[a b c] Value in Consumption Columns Represents Weighted Average for All Animals in the Group
[1 2 3 4 5] Low Consumption Values are based on NRC Requirements at 40 degrees F and High Consumption is based on 90 degrees
[6] Cubic Feet Per Second for 24hrs per day for 365 days to deliver the quanitity of water specified in Acre Feet
This is not the same cfs as is used for irrigation since irrigation is for less than a full year.

Re: Transfer No: 87077
Water Right No(s).: 36-13767, 36-16199, 36-16200

Transfer Approval Notice

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

SCANNED
JAN 05 2023

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a $100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 736-3033.

Sincerely,

Corey Skinner
Southern Regional Manager

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
JAN 05 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

(a) The petition for reconsideration is disposed of; or
(b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

SCANNED

MEMORANDUM

Date: December 15, 2022

To: Transfer 87077, Dianne Rae Schaeffer Transfer File

From: Jim Bitzenburg

Re: Evaluation of Sufficiency of Information Submitted

Application for transfer proposes to change the nature of use, place of use (POU), point of diversion (POD), and period of use for a 0.18 cfs, 16.0 acre portion of ground water irrigation right 36-16199 which currently irrigates 367.0 acres located approximately 6.5 to 7.0 miles north and 5.5 to 6.8 miles west of Paul. The application proposes to change the nature of use and POU of this right from irrigation during the irrigation season to year-round stockwater use at a CAFO located within and adjacent to the irrigation POU. The transfer proposes changing the POD for the converted portion from the currently authorized irrigation well to two existing wells associated with the CAFO facility.

The transfer will also add a QQ to the authorized POU of the two existing stockwater rights at the CAFO, and post transfer, the converted portion and the two existing rights will share the same two PODs and the same POU.

The transfer is changing nature of use and was advertised. No protests were filed. Since the facility is within Water District 130, comments were solicited from the WD-130 Watermaster. The Watermaster had no comments or concerns with the transfer.

Data submitted with the application indicates that the current stockwater rights provide 69.0 AFA of volume for the facility and the proposed expansion of the CAFO will require about 120 AFA, leaving a deficit of 51.0 AFA. This transfer proposes to bring in 51.0 AF from the neighboring irrigation right 36-16199. In converting from irrigation to stockwater use, a consumptive use value is used instead of the full 4.0 AF/acre allowed by the area's standard field headgate requirement. In this case it is derived from the Paul NWS station for alfalfa, frequent cuttings, and that value is 3.16 feet. The transfer application contains Farm Service Agency documents verifying the production of alfalfa on the acres to be dried up. Dividing the acre-feet needed on the CAFO end of the transfer by the consumptive use value (51.0/3.16) indicates the transfer will dry up 16.0 acres of right 36-16199.

ESPA modeling is not required as the origination and destination PODs are all in the same model grid cell.

Water rights involved in the transfer are:

36-16199	Irrigation	4.17 cfs		367.0 acres
36-13767	Stockwater/domestic	0.17 cfs	14.6 AF	
36-16200	Stockwater	0.26 cfs	58.0 AF	

In reviewing the transfer application, the location of the stockwater POD in the NENW was unclear, as the location on ArcMap did not match the location described on the water rights and application. It appears that some 'drift' in the GCDB (Geographic Coordinate Data Base) has occurred, and a correction of that drift would show the POD correctly placed.

- **Authority to File:**
  Water rights 36-16199, 36-13767, and 36-16200 and the application are all in the name of Diane Rae Schaeffer. The application was signed by Diane Rae Schaeffer.

- **Water Right Validity:**
  Rights 36-16199, 36-13767, and 36-16200 were decreed in the SRBA. Large numbers of cattle are visible in recent aerial imagery in the CAFO. The irrigated acres that will be dried up in the transfer appear to be well irrigated in recent aerial imagery. Forfeiture is likely not an issue.

SCANNED
JAN 05 2023

- **Injury to Other Water Rights:**
  None anticipated or foreseen. Water use will not increase and the POD of the changed portion will only be moving a few hundred feet.

- **Enlargement of Use:**
  None anticipated. The 16.0 acres being transferred from 36-16199 will be dried up and not irrigated.

- **Local Public Interest:**
  No issues anticipated. The application was advertised with no protests.

- **Beneficial Use/Conservation of Water Resources:**
  Proposed uses are recognized as beneficial uses of water.

- **Effect on the Economy of the Local Area:**
  None Anticipated

- **Effect of the Agricultural Base of the Area:**
  None Anticipated

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT TRANSFER NO. 87077

DIANNE RAE SCHAEFFER, 1005 W 300 N, PAUL, ID 83347-8762 has filed Application No. 87077 for changes to the following water rights within MINIDOKA County(s): Right No(s). 36-13767, 36-16199, 36-16200; to see a full description of these rights and the proposed transfer, please see https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers. The purpose of the transfer is to change a portion of the above rights as follows: Application for transfer proposes to change the nature of use, place of use (POU), point of diversion (POD), and period of use for a 0.18 cfs, 16.0 acre portion of ground water irrigation right 36-16199 which currently irrigates 367.0 acres located approximately 6.5 to 7.0 miles north and 5.5 to 6.8 miles west of Paul. The application proposes to change the nature of use and POU of this right from irrigation during the irrigation season to year-round stockwater use at a CAFO located within and adjacent to the irrigation POU. The transfer proposes changing the POD for the converted portion from the currently authorized irrigation well to two existing wells associated with the CAFO facility. The transfer will also add a QQ to the authorized POU of the two existing stockwater rights at the CAFO, and post transfer, the converted portion and the two existing rights will share the same two PODs and the same POU.

For additional information concerning the property location, contact Southern Region office at (208)736-3033. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Southern Region, 650 ADDISON AVE W STE 500, TWIN FALLS ID 83301-5858 together with a protest fee of $25.00 for each application on or before December 5, 2022. The protestant must also send a copy of the protest to the applicant.

RE: Transfer No. 87077
Water Right No(s). 36-13767, 36-16199, 36-16200

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the **TIMES NEWS on 11/17/2022 and 11/24/2022**. Protests to this application may be submitted for a period ending ten (10) days after the second publication. Any protest against this application must be filed with the Department of Water Resources, together with a protest fee of $25.00 for each application, on or before **December 5, 2022**.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Maline

RE: Application for Transfer No(s).: 87077 (Dianne Rae Schaeffer)

Dear Brian:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at: https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Maline

NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 87077

DIANNE RAE SCHAEFFER, 1005 W 300 N, PAUL, ID 83347-8762 has filed Application No. 87077 for changes to the following water rights within MINIDOKA County(s): Right No(s). 36-13767, 36-16199, 36-16200; to see a full description of these rights and the proposed transfer, please see https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers. The purpose of the transfer is to change a portion of the above rights as follows: Application for transfer proposes to change the nature of use, place of use (POU), point of diversion (POD), and period of use for a 0.18 cfs, 16.0 acre portion of ground water irrigation right 36-16199 which currently irrigates 367.0 acres located approximately 6.5 to 7.0 miles north and 5.5 to 6.8 miles west of Paul. The application proposes to change the nature of use and POU of this right from irrigation during the irrigation season to year-round stockwater use at a CAFO located within and adjacent to the irrigation POU. The transfer proposes changing the POD for the converted portion from the currently authorized irrigation well to two existing wells associated with the CAFO facility. The transfer will also add a QQ to the authorized POU of the two existing stockwater rights at the CAFO, and post transfer, the converted portion and the two existing rights will share the same two PODs and the same POU.

For additional information concerning the property location, contact Southern Region office at (208)736-3033. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Southern Region, 650 ADDISON AVE W STE 500, TWIN FALLS ID 83301-5858 together with a protest fee of $25.00 for each application on or before December 5, 2022. The protestant must also send a copy of the protest to the applicant.

TRANSFER SYNOPSIS

Date: November 4, 2022

To: Transfer 87077, Dianne Rae Schaeffer Transfer file

From: Jim Bitzenburg

Re: Summary of transfer

Application for transfer proposes to change the nature of use, place of use (POU), point of diversion (POD), and period of use for a 0.18 cfs, 16.0 acre portion of ground water irrigation right 36-16199 which currently irrigates 367.0 acres located approximately 6.5 to 7.0 miles north and 5.5 to 6.8 miles west of Paul. The application proposes to change the nature of use and POU of this right from irrigation during the irrigation season to year-round stockwater use at a CAFO located within and adjacent to the irrigation POU. The transfer proposes changing the POD for the converted portion from the currently authorized irrigation well to two existing wells associated with the CAFO facility.

The transfer will also add a QQ to the authorized POU of the two existing stockwater rights at the CAFO, and post transfer, the converted portion and the two existing rights will share the same two PODs and the same POU.

The transfer is changing nature of use and will be advertised. Since the facility is within Water District 130, comments will be solicited from the WD-130 Watermaster.

Data submitted with the application indicates that the current stockwater rights provide 69.0 AFA of volume for the facility and the proposed expansion of the CAFO will require about 120 AFA, leaving a deficit of 51.0 AFA. This transfer proposes to bring in 51.0 AF from the neighboring irrigation right 36-16199. In converting from irrigation to stockwater use, a consumptive use value is used instead of the full 4.0 AF/acre allowed by the area's standard field headgate requirement. In this case it is derived from the Paul NWS station for alfalfa, frequent cuttings, and that value is 3.16 feet. The transfer application contains Farm Service Agency documents verifying the production of alfalfa on the acres to be dried up. Dividing the acre-feet needed on the CAFO end of the transfer by the consumptive use value (51.0/3.16) indicates the transfer will dry up 16.0 acres of right 36-16199.

ESPA modeling is not required as the origination and destination PODs are all in the same model grid cell.

Water rights involved in the transfer are:

36-16199	Irrigation	4.17 cfs		367.0 acres
36-13767	Stockwater/domestic	0.17 cfs	14.6 AF	
36-16200	Stockwater	0.26 cfs	58.0 AF	

In reviewing the transfer application, the location of the stockwater POD in the NENW was unclear, as the location on ArcMap did not match the location described on the water rights and application. It appears that some 'drift' in the GCDB (Geographic Coordinate Data Base) has occurred, and a correction of that drift would show the POD correctly placed.

Jim

It finally opened and I have made the changes that you requested.

Thanks for your patience.

Bob

Bob-

Attached is what we want page 5 of the transfer to look like. If you could put that information into a new page 5 and email it to me, I believe we would be good to go.

Thanks,

Jim

Bob-

You can ignore the last email about the description of right 36-16199, as it describes the right after the changes. So, we are fine there, but the map you drew in my office when you were last in showed the dry up area of the 16 acres to be in both the NENW and the SENW of Section 29. However, the description of the portion of the irrigation right changing describes the 16 acres to be in the NENW only. I guess the easiest thing to do is for you to do another page 5, with 12.0 acres listed in the NENW and 4.0 acres listed in the SENW. Or, you could send a new map with all 16 acres outlined in the NENW.

FEE MEMORANDUM

Date: October 20, 2022

To: Diane Rae Schaeffer Transfer #87077 File

From: Jim Bitzenburg

Re: Receipting/disposition of fees paid

This transfer was filed on October 13, 2022, and its purpose is to change a 16.0 acre, 0.18 cfs portion of an irrigation right to year round stockwater use. The transfer will also add a QQ to the POU of two stockwater rights located at the proposed POU of the split right. The flow rates of the two stockwater rights are 0.17cfs and 0.26 cfs, so the total flow rate changing is 0.61 cfs, and that portion of the fee is $500.00. An additional fee of $250.00 is required to change the nature of use of the split portion to stockwater use. The total fee is $750.00. The fee was paid by check #3481 from O & H Associates, LLC at the time of filing. The IDWR receipt number is S039480.

DEPT OF WATER RESOURCES
SOUTHERN REGION

Corey Skinner
Idaho Department of Water Resources
650 Addison Avenue West Suite 500
Twin Falls, ID 83301

Mr. Skinner,

We are proposing to make some changes in our water rights located in Section 29 Township 08S Range 22E and have discovered that my husband James K Schaeffer of 1105 W 300 N Paul, ID 83347, who has passed away is still listed on the water rights number 36-13767, 36-16199 and 36-16200. We have been advised that prior to submitting application for the transfer for change of nature of use, point of diversion and place of use, we will need to take his name off of those water rights.

Please accept this letter and the attached copy of his death certificate serve as the necessary documents to allow the Idaho Department of Water Resources to make that change for us so that we may proceed with the other changes that we need to make in those same water rights.

If you have any questions or need any additional information you may contact our representative, Bob Ohlensehlen by phone at 208-539-1279 or by mail at 603 Woodland Drive, Twin Falls, ID 83301.

Thank you for your assistance in this matter.

Sincerely,

Dianne Rae Schaffer

Re: Change in Ownership for Water Right No(s): 36-16200, 36-16199, and 36-13767

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

The only change was to remove James K. Schaeffer's name from the three rights.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg
Water Rights Supervisor
