Comments:

1. jstanton 12/20/2001 Field Exam

During the exam of 6-26-01, I found the well to be located in the SW corner of Lot 4 of Serendipity Acres Sub. About 0.4 acres of that lot is irrigated as lawn, and the original home is there. On Lot 3, about 0.4 acres of pasture are irrigated with the well on Lot 4. Also on Lot 3, about 0.4 acres are irrigated with a separate well - see 37-20623. Original well is rated for 0.12 cfs, with about 0.07 cfs used to run 9 sprinklers on Lots 2, 3, & 4. Acreage is too small to allow

full amount, however, so I can only recommend 0.07 cfs for irrigation under the 3 parts of 37-7603 (20622, 20623, & 20452). GIS shows a small amount of land in the SW/SE Sec. 4, with the rest in the NW/SE Sec. 4. The GCDB for 2N 18E was originally rectified incorrectly, but this was corrected last summer; licensing recommendations are based on the corrected data.

2. kwalker 5/14/2002 License Recommendations
The permit holders failed to submit the required licensing amendment for this permit. The license can only be issued for the portion of the right that did not need amended, therefore, this right is being recommended for 0.1 acres only.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
JAN 27 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

(a) The petition for reconsideration is disposed of; or
(b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

- **Authority to File:**
  The applicants are listed as the current owners of the water right involved in the transfer according to department records.

- **Water Right Validity:**
  The water right involved in the transfer was licensed in 2002 by the Department. Recent aerial photography indicates that this water right has been used in recent years.

- **Injury to Other Water Rights:**
  None anticipated.

- **Enlargement of Use:**

IDAHO HOUSING AND FINANCE ASSOCIATION

Public Comment for the *Draft Idaho Programmatic Agreement* for Environmental Reviews

IHFA is the Responsible Entity (RE) for Environmental Reviews, as required by Part 58. As part of Region X, the Region X Office of the U.S. Department of Housing and Urban Development (HUD) is developing a Programmatic Agreement (PA) that will apply to Section 106 review of projects in Idaho that are subject to Part 50 and Part 58 of HUD's environmental regulations (24 CFR Parts 50 and 58). The PA will cover review of HUD-assisted projects in Multifamily Housing, Healthcare, CDBG, Disaster Recovery, HOME, Public Housing and more. The purpose of the PA is to improve the efficiency of Section 106 review of HUD projects while fostering the protection of historic properties that might be affected by the projects.

Interested parties and the public to provide feedback and participate in the development of this PA. The draft PA is now available for review and is linked below.

Please send your written comments and suggestions by 12/31/2022 via email to SEAQEE@hud.gov, or by post mail to:

Marie Vila, Field Environmental Officer
Department of Housing and Urban Development
909 First Ave, Suite 260
Seattle, WA 98104

The PA will cover projects that involve mortgage insurance (financing and refinancing) for multifamily housing projects and healthcare facilities, capital funds for public housing, and grants for housing construction and rehabilitation, disaster recovery activities, and community and economic development. The PA exempts from Section 106 review a list of types of activities that do not cause effects to historic resources, like refinancing of existing buildings without any rehabilitation, replacement of heating systems, bathroom and kitchen remodeling, and repair of roofs and windows (see PA Stipulation 1). Projects that include activities other than those types of exempted activities, like substantial rehabilitation and new construction, will still undergo a complete Section 106 review, including consultation with SHPO, tribes and other consulting parties.

The streamlined process outlined in the PA will apply to HUD offices and Responsible Entities (units of state and general local government and tribes) that conduct Section 106 review of HUD projects and that have signed the PA as Signatory Parties.

More information on the Section 106 review process is available at https://www.hudexchange.info/environmental-review/historic-preservation/

Hello IDWR, Southern Regional Office

Re: Water Right 37-20622

Enclosed you will find an application to change the point of diversion for an existing small irrigation water right for our property in Blaine County. I received help from two IDWR agents in completing this application. These helpful agents were Angela Hanson and Michele Edl.

The background for this change is a split of this water right that happened many years ago. At the time of that split, the point of diversion was not also recorded. The facts on the ground are that the water for this right is being diverted from the domestic well on Lot 3 of Serendipity Acres, rather than Lot 4. Lot 3 is also the place of use. This application is meant to correct the record. This correction has been prompted by us listing this property for sale, and buyers are requesting that this water right situation be cleared up.

Michele Edl wanted me to note in this cover letter that an ESPA is not required for this change due to the point of diversion occurring within the same grid cell, which is Row 12, Column 64.

Enclosed you will find:
