Conditions of Approval

1. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
3. The ponds established by the storage of water under rights 37-21301 and 37-22771 shall not exceed a total capacity of 81.6 acre-feet or a total surface area of 18.99 acres.
4. The ponds established by the storage of water under rights 37-11989, 37-12000, 37-21301, and 37-22771 shall not exceed a total capacity of 93.6 acre-feet or a total surface area of 24.34 acres.
5. Right 37-22771 provides water for the evaporative losses associated with the storage described by this right.
6. This right is for the use of trust water, and it is subject to review 20 years after its initial approval (date of permit approval) to re-evaluate the availability of trust water for the authorized use and to re-evaluate the public interest criteria for reallocating trust water.
7. When the minimum stream flow water rights in the Snake River at Murphy Gage are not being satisfied, the right holder shall cease diverting water for the consumptive uses authorized by this right. The minimum stream flow water rights are for 3,900 cfs from April 1 through October 31 and 5,600 cfs from November 1 through March 31. See IDAPA 37.03.08.030.

This license is issued pursuant to the provisions of Idaho Code § 42-219. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 28th day of September, 2022.

RE: License No. 37-21301

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Corey Skinner
Southern Regional Manager

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

(a) The petition for reconsideration is disposed of; or
(b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Water Right Permit No. 37-21301

Dear Permit Holders:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Idaho Code § 42-211. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit(s):

__X__ Points of Diversion

_____ Place of Use

__X__ Other (Water Source changed from Spring to Unnamed Stream)

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when issued. Please review the amendment form carefully. If you concur with the information presented, please sign and return the form with the filing fee of $100.00 within fourteen (14) days.

If you have any questions, please call me at (208) 736-3033.

Sincerely,

Bill Mills

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources hereby approves the above Application for Amendment for Permit No. 37-21301 with the following:

Conditions of Approval

1. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
3. The ponds established by the storage of water under rights 37-21301 and 37-22771 shall not exceed a total capacity of 81.6 acre-feet or a total surface area of 18.99 acres.
4. The ponds established by the storage of water under rights 37-11989, 37-12000, 37-21301, and 37-22771 shall not exceed a total capacity of 93.6 acre-feet or a total surface area of 24.34 acres.
5. Right 37-22771 provides water for the evaporative losses associated with the storage described by this right.
6. This right is for the use of trust water, and it is subject to review 20 years after its initial approval (date of permit approval) to re-evaluate the availability of trust water for the authorized use and to re-evaluate the public interest criteria for reallocating trust water.
7. When the minimum stream flow water rights in the Snake River at Murphy Gage are not being satisfied, the right holder shall cease diverting water for the consumptive uses authorized by this right. The minimum stream flow water rights are for 3,900 cfs from April 1 through October 31 and 5,600 cfs from November 1 through March 31. See IDAPA 37.03.08.030.

This amendment is issued pursuant to the provisions of Idaho Code § 42-211.

2. Volume Calculations for Other Uses: Stockwater Storage & Wildlife Storage:

Eleven small ponds with a surface area of 3.2 acres and an average depth of 2.2', & three large ponds with a surface area of 15.7 acres and an average depth of 4.75'.

3.2 acres x 2.2 feet = 7.0 acre feet

15.7 acres x 4.75 feet = 74.6 acre feet

7.0 af + 74.6 af = **81.6 acre feet**

G. NARRATIVE/REMARKS/COMMENTS

After walking the pond system developed under this permit, and water rights 37-12000 and 37-22771, it was clear to me that the system had been developed on stream. The ponds were clearly developed on stream and capturing water behind their embankments on the stream channels. There were also culverts along the road on the southwest side that directed runoff from heavy rains and snowmelt into the two streams that converge in the lower ponds in the system (the two eastern ponds) and then carry water on down to Magic Reservoir. The license has been amended to add the embankments of all fourteen ponds as points of diversion and remove two springs as points of diversion. Source was also changed from spring to unnamed stream.

There are a total of fourteen ponds under this permit and this permit covers stockwater storage and wildlife storage volume. Evaporative losses are provided under water right 37-22771. There is also a ground water diversion to storage under this right that can provide up to 1.00 cfs of water to the pond system. A volume of 81.6 acre feet (38.3 acres) of irrigation was dried up in 2009 under water rights 37-22771 and 37-11989 to provide for initial fill of the ponds.

Recommend licensing the water right as amended with 14 PODs for the on-stream embankments and 1 ground water POD, 81.6 acre feet of stockwater and wildlife storage, and a 1.00 cfs ground water diversion to storage.

MEASUREMENT CALCULATION:

$Q_{meas.}$ Well #1 3400 gpm ⇒ 7.58 cfs
Well #2 0.010 A.F./3min 5sec ⇒ 2.36 cfs
Q_{total} = 9.94 cfs

$V_{rec.}$ = (810 Acres)(3.0 A.F./Acre/Ann.) = 2430.0 A.F./Ann.

SYSTEM DESCRIPTION:

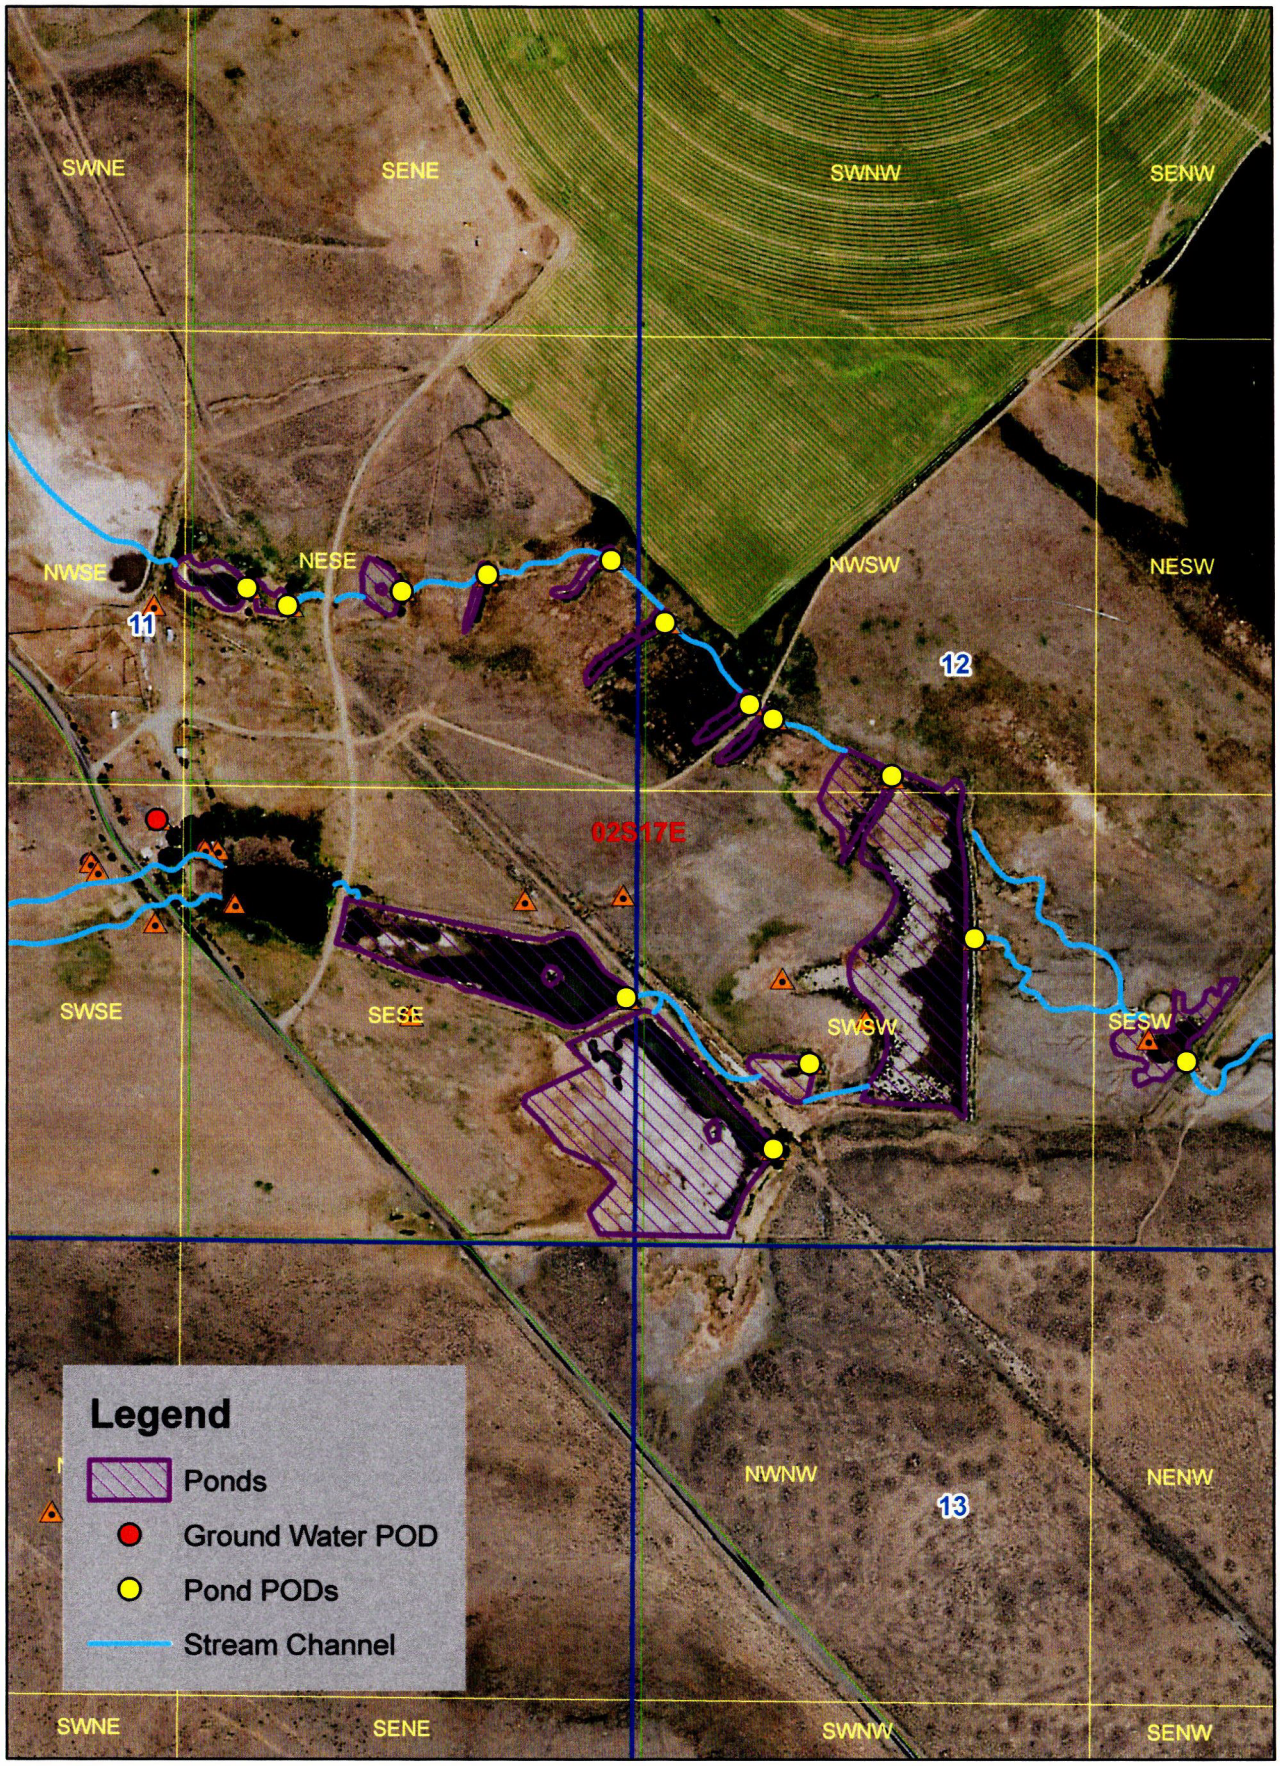

(See Attached Sheet & Aerial Photo)

REMARKS:
Mr. Scott was present during first visit; during that visit well #1 was meas. & the system was reviewed. At that time well #2 was not running because of lack of fuel. On the second visit well #2 was measured.
