Conditions of Approval

1. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
2. Recreation use is for a swimming pool and hot tub.
3. Aesthetic, wildlife, and fish propagation storage authorizes a total annual storage volume of 49.7 acre-feet; 28.0 acre-feet to be used for the initial filling or carryover storage of the reservoir and 21.7 acre-feet for the replacement of losses caused by evaporation.
4. The reservoir established by the storage of water under this right shall not exceed a total capacity of 28 acre-feet or a total surface area of 7.0 acres.
5. This right is for the use of trust water, and it is subject to review 20 years after its initial approval (date of permit approval) to re-evaluate the availability of trust water for the authorized use and to re-evaluate the public interest criteria for reallocating trust water.
6. When the minimum stream flow water rights in the Snake River at Murphy Gage are not being satisfied, the right holder shall cease diverting water for the consumptive uses authorized by this right. The minimum stream flow water rights are for 3,900 cfs from April 1 through October 31 and 5,600 cfs from November 1 through March 31. See IDAPA 37.03.08.030.

This license is issued pursuant to the provisions of Idaho Code § 42-219. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 24th day of January, 2023.

FOR DEPARTMENT USE ONLY

Preliminary check by SG Fee = $100 Receipted by SG # 5039491 Date 10/17/2022

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources hereby approves the above Application for Amendment for Permit No. 37-8194 with the following:

Conditions of Approval

1. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
2. Recreation use is for a swimming pool and hot tub.
3. Aesthetic, wildlife, and fish propagation storage authorizes a total annual storage volume of 49.7 acre-feet; 28.0 acre-feet to be used for the initial filling or carryover storage of the reservoir and 21.7 acre-feet for the replacement of losses caused by evaporation.
4. The reservoir established by the storage of water under this right shall not exceed a total capacity of 28 acre-feet or a total surface area of 7.0 acres.
5. This right is for the use of trust water, and it is subject to review 20 years after its initial approval (date of permit approval) to re-evaluate the availability of trust water for the authorized use and to re-evaluate the public interest criteria for reallocating trust water.
6. When the minimum stream flow water rights in the Snake River at Murphy Gage are not being satisfied, the right holder shall cease diverting water for the consumptive uses authorized by this right. The minimum stream flow water rights are for 3,900 cfs from April 1 through October 31 and 5,600 cfs from November 1 through March 31. See IDAPA 37.03.08.030.

This amendment is issued pursuant to the provisions of Idaho Code § 42-211.

Signed this ~~14~~ 23rd day of ~~October~~ January, 20 23.

	Yes ☐	Yes ☐		Yes ☐	Yes ☐
	Yes ☐	Yes ☐		Yes ☐	Yes ☐
	Yes ☐	Yes ☐		Yes ☐	Yes ☐
	Yes ☐	Yes ☐		Yes ☐	Yes ☐

2. Previous Owner's Name: James and Carmela Martel
   Name of current water right holder/claimant

3. New Owner(s)/Claimant(s): Agee Family Trust Teddy S Frey & Stacy S. Butler (Trustees)
   New owner(s) as listed on the conveyance document Name connector ☐ **and** ☐ **or**

   c/o Stacy Butler & Teddy Frey
   Mailing address 269 Spring Cove Road City Bliss State ID Zip 83314

   (208) 320-8803
   Telephone Email info@springcoveranch.com

4. If the water rights and/or adjudication claims were split, how did the division occur?
   ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
   ☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

5. Date you acquired the water rights and/or claims listed above: 8/11/2016.

6. Do you own the land identified as the water right place of use? Yes ☑ No ☐
   - If no, attach evidence that written notice of the change of water right ownership has been delivered to the landowner of record.

7. This form must be signed and submitted with the following **REQUIRED** items:
   ☑ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
   ☐ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
   ☑ Filing fee (see instructions for further explanation):
   - $25 per *undivided* water right. ←
   - $100 per *split* water right.
   - No fee is required for pending adjudication claims.

   ☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
   ☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

Re: License No. 37-8194

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Also enclosed is a copy of the signed Application for Amendment of Permit filed in October, 2022.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 293-9907.

Sincerely,

Corey Skinner
Southern Regional Manager

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
JAN 27 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

(a) The petition for reconsideration is disposed of; or
(b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Attachments: Agee Family Trust 37-8194 Amendment.pdf

Stacy,

Attached is the amendment that you and Corey talked about today. Please review the amendment and if you agree with proposed water uses and place of use. Please sign page 3 by an authorized representative and submit the filing fee of $100.00 and return the application along with a check made out to IDWR and send it to the Department. If you have any questions please call Corey and/or myself.
Thank you
Benny

__x__ 1:24,000 or greater.

__x__ Aerial Photo Attached (required for irrigation of 10+ acres).

__x__ Photo of Diversion and System Attached

4.

Well or Diversion ID No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
A0017753	N/A	30	N/A	Submersible	N/A

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Polysonics	Flow Meter	Panametrics	PT878	09045	N/A	N/A

2. Measurements: An 11 minute measurement was taken with an average flow measurement of 498.9 gpm.

E. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method: Using the average flow measurement of 498.9 gpm divided by 448.83 gpm (1 cubic foot per second, cfs) equals total cfs pumped per second as shown in the following equation: 498.9 gpm ÷ 448.83 gpm = 1.11cfs

F. VOLUME CALCULATIONS

1. Volume Calculations for irrigation:

$V_{I.R.}$ = (Acres Irrigated) x (Irrigation Requirement) = 160 A x 4 AF/A = 640 AF
$V_{D.R.}$ = [Diversion Rate (cfs)] x (Days in Irrigation season) x 1.9835 = 1.11 CFS x 246 Days x 1.9835 = 541.6 AF
V = Smaller of $V_{I.R.}$ and $V_{D.R.}$ = 541.6 AF

Recommend flow rate of 1.11 CFS and a volume of 541.6 AF for irrigation and diversion to storage for licensing, (see above calculations).

2. Volume Calculations for Other Uses:

SCANNED
JAN 27 2023

Storage Uses: Aesthetic, Fish Propagation, and Wildlife: Small Pond = 7 acres x an average depth of 4 feet = 28.0 AF
Conversion factor from the U of I precipitation Deficit, Bliss, for evaporative loss is 3.1 = 7 acres x 3.1 feet = 21.7 AF
For each storage use, Aesthetic, Fish Propagation, Wildlife, the allowable volume equates to 49.7 AF

Irrigation Storage: Same as irrigation from storage, @ 1.11 CFS x 246 Days x 1.9835 = 541.6 AF

Aesthetic, Wildlife, and Fish Propagation use(s), annual volume, @ 1.11 CFS x 365 Days x 1.9835 = 803.6 AF

Heating and Stockwater use(s) @ 0.01 CFS x 212 Days x 1.9835 = 4.2 AF Estimated flow per applicant.

Recreation, pool and hot tub, size = 20 x 50 x 6 = 6000 ft^3 x 7.4805 gallons/cubic foot = 44882.9 gallons
44883 gal ÷ 1200 min, (20 hrs x 60 min/hr) = 37.4 gal/min ÷ 448.83 (gpm/1cfs) = 0.08 CFS
10 gal/min, flow through for pool and hot tub = 10 gal/min x 60 min x 24 hrs = 14400 gal/ day x 365 days = 5,256,000 gal/yr.
5,256,000 gal/yr ÷ 325,850 gal/af = 16.1 AF. Recreation = 0.08 CFS and 16.1 AF.

G. NARRATIVE/REMARKS/COMMENTS

On September 23, 2010, Jana Reeder (IDWR, Sr. Agent) and I conducted a licensing exam for permit 37-8194. We met with Mr. Martell (permit holder at the time) and discussed the four uses associated with the permit. We explained that we needed to verify what had been developed. Mr. Martell gave us a tour of his place and explained what he developed. He guided us to the well, pond, pool, hot tub, green houses and stockwater diversion. We then walked and drove around the irrigation system to verify the place of use and the number of irrigated acres. Mr. Martell described how the ground water system and surface water are co-mingled. We also measured the flow from the well into the pond. We took two measurements that verified a diversion rate of 1.11 cfs.

After we returned to the office, I reviewed the field exam with Corey Skinner (IDWR Southern Manager) and we discussed the necessity for an amendment to the permit for approximately 12 additional uses that Mr. Martell developed in addition to updating the irrigation place of use. Mr. Martell also needed to provide additional information relating to the amounts of water diverted for the various uses.

After several years of no contact with Mr. Martell, it was discovered that the property was under new ownership, so contact was made with the new owners to arrange a field exam. Corey Skinner and I setup an appointment on September 2, 2022, with the Agee family to finalize permit 37-8194. We met with Stacy and Art Butler co-trustees of the Agee Family Trust. We reviewed permit 37-8194 with them and discussed what they were using the water for. The Agee Family is still using the water in the same way as developed by Mr. Martell except they are no longer using the water in the green houses. We explained the need to amend the permit for the 10 additional uses not currently listed on the permit. The amendment would clarify and quantify those uses and identify their places of use.

The permit was originally applied for 2.0 cfs and for irrigation of 185 acres, with up to 740 af potentially for irrigation use, and a total potential of up to 1,448 af when the possible fish propagation, power, and recreation uses were considered. Mr. Martell had developed 160 acres and approximately 640 af for irrigation and 10 additional beneficial uses. The Agee Family is currently using the water as developed. When we returned to the office and over the course of a couple of days, we drafted an application for amendment. It listed all the beneficial uses developed, associated diversion rates, volumes, and periods of use. We determined that the potential 1,448 af under the permit was more than enough to cover the developed uses. We also determined that the 75 af of consumptive volume from the undeveloped 25 acres from the permit could be applied towards the consumptive use for the additional beneficial uses developed. We used the consumptive use conversion factor of 3 af/a of irrigation for up to 75 af for the twelve developed uses. The amendment was sent to the Agee family Trust for review. Corey and I received a call from Stacy and Art Butler, and we discussed the amendment in detail with them. They approved the amended application and stated they would sign the amendment and return it with the associated fee. The Department received the application for amendment for permit 37-8194 on October 17, 2022. The amendment was signed by Stacy Butler Trustee of the Agee Family Trust.

SCANNED
JAN 27 2023

The well water flows into an aesthetic ditch to the pond where it is mixed with water from an unnamed stream (right 37-21972). This water is considered as diversion to storage. This license authorizes the following storage uses: irrigation, wildlife, fish propagation, and aesthetic. This license allows for these uses: fish propagation, wildlife, heating, recreation, aesthetic, stockwater, irrigation, and irrigation from storage. Water flows from the pond to the lift pump where it is co-mingled with surface water from Calf Creek (right 37-817) and it is then pumped to the irrigation system. The fish propagation allows for raising of fish for personal use in the pond. Wildlife use is for deer, elk, migrating ducks, geese, and swans in the pond. The Butlers showed us various photos of waterfowl on the pond during the winter. Water for recreation use is diverted directly from the well and is used for the pool and hot tub and returns to the pond. Heating is used for heating a portion of a shop (primarily to keep pipes from freezing) southwest of the well. The spent heating water is then routed to a stock trough for stockwater use southwest of the shop.

The flow rate for the well was determined by the measurement of the well conduct on September 23, 2010 showing the well could produce a total flow of 1.11 cfs. The individual flow rates, volumes, and periods of use were determined by reported use from the right holder. (see flow and volume calculations above).

I therefore recommend permit 37-8194 to be licensed as recommended on the amendment and a total flow rate of 1.11 cfs and a total volume of 803.6 af.

We also determined that a transfer is needed to be filed once the license is approved, to update two associated surface water rights points-of-diversion to reflect the actual diversion system

Have conditions of permit approval been met? ✓ Yes ____ No

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
AESTHETIC STORAGE	01/01 to 12/31		49.7 AF

Re: Change in Ownership for Water Right/ Permit No(s): 37-8194

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

This water right/permit will be updated during licensing to reflect current uses as discussed when we met on September 2, 2022, and as depicted for the irrigation place of use identified on the map sent September 13, 2022.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Benny Walker
