4 csaxton 12/12/2005 Delivery
Watermaster Records show delivery of 8 inches of 5/1/1882 water to the claimant.

5 csaxton 12/12/2005 1921 Transfer
There was a transfer on this right done in 1921. A map in the transfer placed 5 acres on the west side of the SENE S.35 and 5 acres on the west side of the NESE S.35. However, the practice does not appear to follow the constraints of the transfer. The POU claimed under 67-353A, 67-353C, and 67-353D are not in the POU described in the 1921 transfer. But the water master shows delivery to the claimants of 67-353A, 67-353C, and 67-353D and the owner of the ground that the 1921 transfer places the POU on, Paradis, does not claim the water under claims 67-353A, 67-353C, and 67-353D. Recommend the splits of 67-353 as delivered now and not per the 1921 transfer.

6 csaxton 12/12/2005 POU
At 5/8 inches per acre, this right can recommend a total of 12.8 acres.

7 csaxton 12/28/2005 Recommendation
EOP submitted for 67-4132 that supports flood water on 15 acres despite decreed water is only for 12.8. Changed recommendation to include a 15 acre POU limiting the decreed water to 12.8 acres.

Re: Change in Water Right Ownership: 67-353C (Split into 67-353C and **67-15443**), 67-4132 (Split into 67-4132 and **67-15444**)

Dear Water Right Holders:

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water rights to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4920 or debbi.judd@idwr.idaho.gov.

RE: Change in Ownership Water Right Nos: 67-353C and 67-4132

Dear Interested Parties:

The Department of Water Resources (Department) acknowledges receipt of your Notice of Change in Water Right Ownership (Notice).

Our review of your Notice indicates that additional information is required before the Department can process the change. The information required is indicated below:

 X Filing Fee of \$100 per water right for changes resulting from division of a water right – both rights require a split

 X Evidence of Water Right Ownership: copy of Deed, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question – These rights are in the names of James H. Camp and Laura Camp. Please provide chain of title to James H. Camp to you.

Effective July 1, 2000, the legislature enacted House Bill No. 545 requiring a filing fee for a change in water right ownership. The fee is \$25 per water right, except for ownership changes resulting in the division of a water right, which is \$100 per water right. All ownership change notices received after June 30, 2000 must include the appropriate filing fees in order to be processed. We have determined that the filing fee for your notice will be **\$75**.

Because the Department cannot process the Notice without proper documentation and fees, we will hold any action on your notice pending receipt of the necessary information and fees. If we do not receive the necessary information and fees within 30 days we will return your notice and all attachments and your notice will not be processed.

Also, please note that permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions regarding this matter, please contact me at (208) 287-4920 or debbi.judd@idwr.idaho.gov.
