ATTACHMENT 1A.3 Water Right 72-10491

A legal description error in the POU location for Idaho Fish and Game's East Fork Salmon River 07/08 fish screen bypass water right 72-10491 was discovered recently.

The original WR application erroneously listed the POU location as SE of NW, Section 35, T10N, R18E. The correct POU location is NE of SW, Section 35, T10N, R18E.

This fish propagation right is non-consumptive and water is returned directly to the East Fork Salmon River via bypass pipe from the EF-07/08 fish screen (POU). The physical location of the POU has not changed.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Review & Evaluation of Sufficiency of Information
5/9/2023

Application for transfer proposes to correct the place of use (POU) description for fish propagation right 72-10491 (0.80 cfs). The POU is located approximately 7.5 miles south and 4.8 miles east of Clayton.

This is a paper correction of the POU; there are no physical changes to the POU, so advertising is not necessary. The transfer qualifies for the \$50.00 fee under Idaho Code §42-221, O., (8) because it is a paper change only and no physical change in the location has occurred. A review of historical imagery indicates that the POU has always been located in the NESW of Section 35, T10N, R18E. The fee was paid through the inter-agency billing process, billing number BILL057001.

The right is within Water Districts 170 and 72D so Watermaster comments were solicited. No Watermaster comments objecting to the transfer were received during the waiting period.

- Authority to File: The Department's database indicates that water right 72-10491 is owned by the State of Idaho, Department of Fish and Game, the applicant. The application was signed by Tom Curet, IDFG Regional Manager.
- Water Right Validity: The water right has a 1963 priority date and was decreed in 2000, and active irrigation rights are diverted through the same POD, so it is likely that the right has recent use.
- Injury to Other Water Rights: None anticipated or foreseen. This is a paper correction only.
- Enlargement of Use: None anticipated.
- Local Public Interest: No issues anticipated. Because the change to the POU is a paper change only, the transfer was not advertised.
- Beneficial Use/Conservation of Water Resources: Proposed use is recognized as a beneficial use of water.

Effect on Economy the Local Area: None Anticipated

Effect on Agricultural Base of the Local Area: None anticipated

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Legal Notice Not Required
4/19/2023

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

The changes in the transfer are corrections to the legal description (paper changes) and no physical changes of the POU have occurred.
